Access Control - RFID Devices

Cat No	Description	RRP	Ex GST	Inc GST
1008142-12	RFID & Finger Print Reader/Controller <i>This RFID access controller also has a built in finger print reader as well as a keypad. It is suitable for access control, time recorders etc.</i>	1817.27		1999.00
1008145-12	RFID - PC Based Access Control Software <i>This RFID access controller also has a built in finger print reader as well as a keypad. It is suitable for access control, time recorders etc.</i>	362.73		399.00
1008079-12	RFID Controller <i>This stand-alone single door Controller which will accept inputs from RFID readers, Cat Nos 1008057, 1008080. There is also provision for an alarm loop and a push button connection. It has a card capacity of 9,999 users. Operating Modes - Card only (six digits) or free access using Facility Code (First two digits only). Programmable door release time from 1 to 250 seconds Built-in Watch Dog, the system never hangs Data is protected even after power failure. Programmable alarm loop enable / disable. Access Codes can easily be added or deleted. Supports one RFID reader.</i>	244.55		269.00
1008082-12	RFID Controller - Electric Door Lock <i>A quality stainless steel, electrically operates lock which is activated by an RFID controller. It has the following features:</i> <ul style="list-style-type: none">. Concealed mortise mounting.. Slimline styling suits most narrow profile joinery.. Continuously rated solenoids.. Power reduction module-minimises power consumption and maximises durability.. Door and Bolt position sensor.. Fully protected against transients.. Reverse polarity protected.. Stainless steel bolt.. Red pilot lamp standard to indicate door locked.	171.82		189.00
1008081-12	RFID Integrated Controller and Proximit <i>This is an integrated RFID Controller, proximity card reader and door lock driver. There is also has provision for an alarm loop and a push button connection. It has a card capacity of 9,999 users, operating modes - Card Only (six digits) or free access using Facility code (first two digits only). programmable door release time from 1 to 250 seconds, Built-in Watch Dog, the system never hangs, Data is protected even after power failure, Programmable alarm loop enable/disable, Access Codes can easily be added or deleted. Facility Code (First two digits only). Programmable door release time from 1 to 250 seconds Built-in Watch Dog, the system never hangs.</i>	317.27		349.00
1008083-12	RFID Proximity Card 0.8mm Thick <i>ABS plastic proximity card which is strong and flexible The dimensions are 85.7 x 54 x 0.8mm (credit card size).</i>	4.09		4.50
1008058-12	RFID Proximity Card 1.8mm Thick <i>ABS plastic proximity card which is strong and flexible The dimensions are 85.7 x 54 x 1.8mm (credit card size). There is a slot at one end to allow it to be attached to a ribbon.</i>	2.95		3.25
1008059-12	RFID Proximity Key Tag <i>RFID Proximity Key Tag for use with RFID readers. Made from ABS plastic material. It is elliptically shaped with dimensions of 43 x 23 x 5mm.</i>	5.91		6.50
1008057-12	RFID Proximity Reader 200mm <i>Just pass an RFID card or tag within 200mm of the reader and it will read the embedded number. Can be used with standard read only ISO cards, with random ID number or tags. Water resistant, suitable for indoor or outdoor use. Built-in watch dog, the system never hangs. Built-in tamper switch detects if case is forced open or destroyed. Multicolour LED with internal or host control. Connects to Cat No 1008079.</i>	244.55		269.00
1008080-12	RFID Proximity Reader 80mm <i>Just pass an RFID card or tag within 80mm of the reader and it will read the embedded number. Can be used with standard read only ISO cards, with random ID number or tags. Water resistant, suitable for indoor or outdoor use. Built-in watch dog, the system never hangs. Built-in tamper switch detects if case is forced open or destroyed. Multicolour LED with internal or host control. Connects to Cat No 1008079</i>	190.00		209.00

Access Control - RFID Devices

1008108-12	RFID Proximity Reader RS232 Type 1 <i>Just pass an RFID card or tag within 100mm to 200mm of the reader and it will read the embedded number. Can be used with standard read only ISO cards, with random ID number or tags. Waterproof potted construction makes it suitable for indoor or outdoor use. It has an RS232 interface to allow connection to a PC and measures only 72H x 45W x 18D.</i>	180.91	199.00
1008109-12	RFID Proximity Reader RS232 Type 2 <i>Just pass an RFID card or tag within 100mm to 200mm of the reader and it will read the embedded number. Can be used with standard read only ISO cards, with random ID number or tags. Waterproof potted construction makes it suitable for indoor or outdoor use. It has an RS232 interface to allow connection to a PC and measures only 110H x 80W x 19D.</i>	199.09	219.00
1008143-12	RFID Reader/Controller with LCD Display <i>This RFID access controller has an LCD display and keypad. It is suitable for as a stand alone controller or connected to a PC.</i>	499.09	549.00

Accessories - Dust Covers

8383-12	Keyboard Seal 83 Key for CHERRY G84-440 <i>A moulded plastic keyboard seal for the compact 83 key CHERRY G84-440 keyboard (Cat No. 1008118).</i>	59.09	65.00
8293-12	Keyboard Seal Compact Size 81 key <i>A moulded plastic keyboard seal for the compact 81 key keyboard (Cat. No.8403).</i>	48.18	53.00
X1028-12	Keyboard Seal for 104 keyboard <i>For 'standard' 104 keyboard</i>	46.36	51.00
X1060-12	Keyboard Seal for 107 Black Mitsubishi <i>For 107 key black Mitsubishi Keyboard. Cat No. 1008106.</i>	46.36	51.00
X1084-12	Keyboard Seal for 22 keypad Cat No. 859	46.36	51.00
X1194-12	Keyboard Seal for KB-0316 HP Keyboard	46.36	51.00

Accessories - Miscellaneous

8497-12	Anti-Static System Mat <i>Helps prevent stray static charges which can destroy ICs in an instant. With adjustable velcro wrist strap, coiled ground lead and alligator clip. The mat measures 600mm x 600mm and is 4mm thick (flexible enough to be packed away and taken with you).</i>	35.45	39.00
8949-12	Anti-Static System Mat for Keyboards <i>Helps prevent stray static charges which can destroy ICs in an instant. With coiled ground lead and alligator clip. The mat measures 550mm x 300mm and is 4mm thick (flexible enough to be packed away and taken with you).</i>	33.41	36.75
8234-12	Anti-Static Wrist Strap Adjustable <i>A must for installing expansion cards or changing ICs. Helps prevent stray static charges which can destroy ICs in an instant. With adjustable velcro wrist strap, coiled ground lead and alligator clip.</i>	18.18	20.00
8092-12	Copy Holder A4 Grip Clip - Side Mount	8.50	9.35
8564-12	Exhaust Fan Dual for Hard Drive <i>Dual fans attached to a ventilated face plate on the front of the computer. Supplies a flow of cool air over your hard drive.</i>	8.18	9.00
8420-12	Exhaust Fan Dual Internal Plenum <i>Dual fans attached to a plenum, which exhaust hot air from the inside of the computer out through vents in the backplane.</i>	8.18	9.00
8912-12	Infrared Data Suite - with PC Software <i>Incredible value, not just an infrared link, but also PC based software for multiple mobile phones and PDAs. The link connects via a serial port and transfers your address book, logos, ring tones, calendars etc. via infrared to your phone or PDA. It allows address books to be imported via csv files as well as providing backup capability for your phone numbers etc. Mobile phones currently supported include: Nokia 6210, 6110, 6130, 6138, 6150, 7110, 8850, 8890, 8210, 8250. Motorola P7689, L2000, LF2000. Siemens S25, S35i, S2588. Ericsson R320. Also supported are compatible Palm machines with Palm OS 3.3. including Palm Vx, Palm V, Palm IIIx, Palm III and IBM WorkPad C3, 30X. The software operates under Win9x,NT/2000/XP. Not all phones are supported by all Operating Systems.</i>	71.82	79.00
9229-12	Infrared Link - Keyboard Adapter for PD <i>Use your standard PC keyboard with your PDA, just switch from the PC to your PDA and back again. Compatible with Palm and Windows CE based PDAs and will communicate over a distance up to 500mm.</i>	62.73	69.00

Accessories - Miscellaneous

8518-12	Infrared Link - M/B Connection 115.2 K <i>This model is designed for computers with a built-in IrDA connector on the mother board. It provides a connection between the motherboard and the backplane and then to the infrared head via a plug in the backplane. Files can be transmitted over a distance of 0mm-1000mm at a transfer rate of up to 115.2 kbps. Most file management software is supported and it is Win 95/98/2000/ME compatible.</i>	68.18	75.00
8941-12	Infrared Link - M/B Connection 4 Mbps <i>This model is designed for computers with a built-in IrDA connector on the mother board. It provides a connection between the motherboard and the backplane and then to the infrared head via a plug in the backplane. Files can be transmitted over a distance of 0mm-1000mm at a transfer rate of up to 4 Mbps. Most file management software is supported and it is Win 95/98/2000/ME compatible.</i>	80.91	89.00
8421-12	Infrared Link - Serial Connection 115. <i>Ideal for use with mobile phones etc. It is suitable for computers without a built-in IR port, the adapter easily connects to any serial port(9-pin). Data transfer rates of up to 115,200 bps are supported. Suitable for use with Win 95/98/2000/ME/XP. Not suitable for Win NT.</i>	53.64	59.00
8923-12	Infrared Link - USB Connection 115.2 Kb <i>Ideal for use with mobile phones etc. It is suitable for computers without a built-in IrDA port, the adapter easily connects to any USB port. Data transfer rates of 115,200 bps (SIR) and 4Mbps (FIR) are supported. A USB connecting cable is included.</i>	62.73	69.00
8944-12	Infrared Remote A/V Selector <i>Do you have a VCR, PlayStation, DVD player, cable box etc that you want to connect to your TV? It is simple with our remote AV selector. Just select the device you want to display on your TV by using any infrared remote controller. It's easy to "teach" the selector which commands to use. RCA stereo. 4 input & 1 output</i>	117.27	129.00
9179-12	Infrared Remote Voice Activated <i>Tell your TV to change channel!No more finding the right remote, just talk to it.Up to 60 voice commands with up to 8 infrared signals each.Thus you can turn on 8 different electronic pieces of equipment or do 8 different operations at the same time.Provides two-user capability. A total of 60 voice commands are allowed, 30 for each user. In addition to the voice-activation, a pair of Channel Scrolling, Volume Control buttons, and 3 Macro-Function buttons are also provided.</i>	180.91	199.00
1008089-12	Infrared Universal Learning Remote with <i>Our latest infra red remote control from Proton won the Innovative Product of the Show at The Consumer Electronics Show in Las Vegas in January 2003. It will learn the control codes from your existing remotes and the macro capability can string up to 60 commands together under one button. In addition it will control up to 16 devices and features a backlit touch screen. There is also a PC to remote control data cable & S/W available. Cat No. 1008146.</i>	199.09	219.00
8924-12	Infrared Universal Remote Control <i>Our universal infra red remote control is suitable for use with satellite and cable TV decoders. This is the only one we could find that would work with Foxtel satellite. It is also compatible with Austar and Optus as well as a myriad of TVs VCRs etc. An ideal companion for our Audio Video RF Link with Infra Red Repeater, see Cat No 11808. Requires four AAA batteries, not included.</i>	43.64	48.00
9180-12	Infrared Voice Activated Controller <i>Wouldn't it be amazing to turn on 3 home electronics with a single voice command? Well now you can, thanks to the intelligent infrared learning capability and powerful voice recognition performance of Micrograms Infrared Voice Activated Controller. Just using your voice, simply wake up the 9180 and give commands. You can enjoy all the functions of your entire home electronics set as you wish, without pressing a button.</i>	217.27	239.00
1008146-12	PC to Remote Control Data Cable & S/W f <i>This PC Data Transfer Cable set is used to connect a 1008089 IR-800 iRemote to a PC's USB port. With the RemoteComm software you can customise screen layouts, setup macros and timers or upload or download finished layouts to the remote control from the PC.</i>	53.64	59.00
15159-12	X-keys Replacement keys - standard set <i>includes 2 vertical keys (occupies 2 single keys up/down), 1 horizontal key (occupies 2 single keys across) and 1 key cap puller. For use with X-keys Pro, Desktop, Controller or Editor</i>	16.36	18.00

Acer - General

1001017-12	ACER TravelMate 2003LC XPP-B Series <i>The new TravelMate all in one notebook from Acer is a powerful, versatile and dependable portable solution. Ideal in any home or office environment,the TravelMate is the right answer. Bag does not come standard with this model. Extra for carry case.</i>	1626.36	1789.00
------------	--	---------	---------

Adapters and Converters - Adapters

Adapters and Converters - Adapters

Cat No	Description	RRP	Ex GST	Inc GST
15101-12	Adapter Cat 5 UTP Crossover <i>Easily convert any standard straight through UTP cable to a cross over cable. Makes life easy when you need to cascade hubs and there is not an uplink port or you are only networking two computers (card to card).</i>	5.45		6.00
MB510-12	Adapter DB15 High Density M to DB9 F <i>Adapter HD DB15 pin Male to DB 9 pin Female.</i>	12.73		14.00
15057-12	Adapter DB25 Female to DB9 Female <i>Adapter DB25 pin female to DB9 pin female.</i>	8.18		9.00
MB375C-12	Adapter DB25 Female to DB9 Male <i>Adapter DB25 pin Female to DB9 pin Male.</i>	6.36		7.00
MB375A-12	Adapter DB25 Male to DB9 Female <i>Adapter DB 25 pin Male to DB 9 pin Female.</i>	12.73		14.00
15054-12	Adapter DB25F to RJ45 <i>Adapter DB25 pin Female to RJ45 connector.</i>	6.77		7.45
15045-12	Adapter DB25M to RJ45 Female <i>Adapter DB 25 pin Male to RJ45 connector.</i>	6.77		7.45
15078-12	Adapter DB9F to RJ45 <i>Adapter DB9 pin Female to RJ45 connector.</i>	6.77		7.45
15137-12	Adapter DB9M to RJ45 <i>Adapter DB9 pin Male to RJ45 connector.</i>	6.77		7.45
15091-12	Adapter Dual Keyboard - PS/2 <i>Allows the simultaneous connection of two keyboards from one keyboard port. Connect a specialised keyboard, eg POS, and a standard keyboard at the same time, or a computer that requires input from two locations.</i>	144.55		159.00
15092-12	Adapter Dual Monitor - VGA <i>Allows the simultaneous connection of two monitors from one VGA port. It's great for training presentations or in situations you need two monitors to display from one computer. An inbuilt amplifier ensures there is no reduction in image quality. Cat #9082 extension cable if required.</i>	240.91		265.00
15090-12	Adapter Dual Mouse - PS/2 <i>Use two pointing devices on one PC. The dual mouse adapter allows the simultaneous connection of two compatible pointing devices, such as standard mice and trackballs. Connects via a PS/2 port.</i>	146.36		161.00
15093-12	Adapter Keyboard and Mouse - PS/2 <i>Turn your Notebook into a desktop with one simple connection. Allows the simultaneous connection of a PS/2 keyboard and a PS/2 mouse to a single PS/2 port. Please note that this product is not suitable for Windows NT/2000/XP. Cat No 15094 (USB connection) is suitable for these systems.</i>	118.18		130.00
15124-12	Adapter Keyboard and Mouse - USB - High <i>The High Power Keyboard & Mouse Adapter for USB converts PS/2 keyboard signals into USB keyboard signals which allows legacy PS/2 barcode readers or other special high power units to work seamlessly with existing software using the USB port. Accepts two PS/2 devices, the hardware buffers and transmits messages from both devices so they may work simultaneously on one USB port. Unit provides up to 500mA. Use PS/2 input devices on PC, Macintosh or unix workstations that support USB peripherals.</i>	177.27		195.00
15144-12	Adapter PCI to Mini PCI Adapter <i>This adapter allows any Mini PCI card to be used in a computer with only full size PCI slots. No drivers are required to this adapter.</i>	117.27		129.00
15018-12	Adapter PS/2 Keyboard to AT Computer <i>5 pin DIN Male to 6 pin MINI DIN Female.</i>	8.18		9.00
15094-12	Adapter PS2 Keyboard and Mouse - USB <i>Turn your Notebook into a desktop with one simple connection. Allows the simultaneous connection of a PS/2 keyboard and a PS/2 mouse to a USB port. Alternatively you can connect two mice or two keyboards to your notebook. Or with two adapters you can connect two keyboards and two mice to the one computer. All four devices are active at the same time.</i>	144.55		159.00
15100-12	Adapter UTP Splitter and Combiner Kit <i>You know the problem - there is only one network wall outlet in the room, and you need to install another computer. You can cascade yet another hub, or you can use this neat little kit. The kit has two splitters, one which splits the outlet into two for the two computers and one back at the hub where it plugs into two ports, with only a single cable between them.</i>	30.00		33.00
15126-12	SCSI 5 1m cable VHC68M - Cent50M	99.09		109.00
15148-12	SCSI 5 2m cable VHC68M - HPD68M	108.18		119.00
15143-12	SCSI Cable 50 Pin	7.18		7.90
15140-12	SCSI Cable VHD68M - HD68M 1 Mtr	99.09		109.00
15076-12	SCSI III HPD68F to IDC50F Internal Adap <i>SCSI III high density 68 pin Female to 50 pin Female IDC (Insulation Displacement Connector).</i>	35.45		39.00
15058-12	SCSI III HPD68M to IDC50M Internal <i>SCSI III high density 68 pin Male to 50 pin Male IDC (Insulation Displacement Connector).</i>	35.45		39.00

Adapters and Converters - Adapters

Cat No	Description	RRP	Ex GST	Inc GST
15122-12	SCSI III IDC50F to HPD68M Internal Adap <i>SCSI III high density 50 pin Female to 68 pin Male IDC</i>	45.45		50.00
15149-12	SCSI-III 1m Cable HPD68M - HPD68M	62.73		69.00
15158-12	X-keys PS/2 Host Emulator <i>Copys a master by connecting the between the two units. Allows two way communication between the computer and the PS/2 X-keys to "read" the programming data from the X-keys' non-volatile memor. Data file can then be saved, edited or copied to another K-key unit.</i>	290.00		319.00

Adapters and Converters - Converters

15157-12	Converter Dig I/O and RS232/422/485 to <i>Control your devices across the Net. Our converter has 7 DIO ports with opto isolation as well as a single RS232/422/485 port.</i>	299.09		329.00
IC12-12	Converter RS232 to 20mA Current Loop <i>Used to extend the distance between two RS-232C devices (needs two sets) or to hook-up another system which merely has the alternate interface. This unit is a Bi-Directional interface converter for RS232C and 20mA Current Loop. Each unit contains both active DRIVER (Transmitter) and passive RECEIVER. The RS232C signals are obtained at the normal SUB-D25 connector side and current loop signal pairs are obtained at the opposite side. It must be powered from an external 9V DC 100mA adapter.</i>	171.82		189.00
15134-12	Converter RS232 to Current Loop <i>This RS-232 current loop converter provides an expandable current loop communication for standard RS-232 interface.</i>	153.64		169.00
15151-12	Converter RS232 to Ethernet 4 Port <i>Easily web enable your serial devices. Allows RS232 devices, including modems to be used over a TCP/IP network. Configuration may be performed through the serial port via Telnet or through the ethernet connection.</i>	671.82		739.00
15152-12	Converter RS232 to Ethernet 8 Port <i>Easily web enable your serial devices. Allows RS232 devices, including modems to be used over a TCP/IP network. Configuration may be performed through the serial port via Telnet or through the ethernet connection.</i>	1271.82		1399.00
15073-12	Converter RS232 to Fibre Optic with RTS <i>The fibre optic converter allows RS232 or RS422 signals to be converted to fibre optic for long distance, high speed and high quality communication. There are 3 LED indicators corresponding to RX, CTS and power. Jumpers allow selection of DTE or DCE. HFBR-1414 fibre optical transmitters and HFBR-2416 fibre optical receivers are used and have ST fibre connection. It is suitable for 50/125um, 62.5/125um and 100/140um fibres. A 9v, 500mA power adapter and a serial connecting cable are provided in the package. Only suitable for temperatures between 0 deg - 55 deg.</i>	453.64		499.00
15095-12	Converter RS232 to RS422 <i>Requires power supply Cat No 8453, not included.</i>	126.36		139.00
IC485S-12	Converter RS232 to RS485 <i>The IC-485S is a hardware solution to the problem of converting signals between two standards. Data transfer can be accomplished at up to 1200m and can utilise either 4-wire or 2-wire cable for full or half duplex respectively. The converter copes with any RS-485 device to function as a short haul modem or an interface converter. RTS selection enables up to 32 receivers to be set up in a multi-drop connection, thus making a cost effective network. Point-to-point and monitor connections are also possible. RS232 - DB25 FEMALE RS422 - 4 Screw term. and RJ12. External power NOT REQD.</i>	117.27		129.00
IC485SI-12	Converter RS232 to RS485 with Isolation <i>The IC-485S is a hardware solution to the problem of converting signals between two standards. Data transfer can be accomplished at up to 1200m and can utilise either 4-wire or 2-wire cable for full or half duplex respectively. The converter copes with any RS-485 device to function as a short haul modem or an interface converter. RTS selection enables up to 32 receivers to be set up in a multi-drop connection, thus making a cost effective network. Point-to-point and monitor connections are also possible. RS232 - DB25 FEMALE RS422 - 4 Screw term. and RJ12. External power NOT REQD.</i>	153.64		169.00
15141-12	Converter RS232/422/485 to Ethernet 1 P <i>Easily web enable your serial devices. Allows RS232/422/485 devices, including modems to be used over a TCP/IP network. Configuration may be performed through the serial port via Telnet or through the ethernet connection.</i>	235.45		259.00
15142-12	Converter RS232/422/485 to Ethernet 2 P <i>Easily web enable your serial devices. Allows RS232/422/485 devices, including modems to be used over a TCP/IP network. Configuration may be performed through the serial port via Telnet or through the ethernet connection.</i>	299.09		329.00
15147-12	Converter RS232/422/485 to Ethernet 4 P <i>Easily web enable your serial devices. Allows RS232/422/485 devices, including modems to be used over a TCP/IP network. Configuration may be performed through the serial port via Telnet or through the ethernet connection.</i>	808.18		889.00

Adapters and Converters - Converters

15150-12	Converter RS232/422/485 to Ethernet 8 P <i>Easily web enable your serial devices. Allows RS232/422/485 devices, including modems to be used over a TCP/IP network. Configuration may be performed through the serial port via Telnet or through the ethernet connection.</i>	1408.18	1549.00
15074-12	Converter RS422 to Fibre Optic with RTS <i>The fibre optic converter allows the RS422 input signals to be converted to fibre optic signals for long distance, high speed and high quality communication. There are 3 LED indicators to correspond to RxD, CTS and power signals. A 9v, 500mA power adapter is provided in the package. Has ST type connectors. Additional details at www.pccompci.com/accessories-3.htm</i>	471.82	519.00
15136-12	Converter RS422 to Fibre Optic without <i>The fibre optic converter allows the RS422 input signals to be converted to fibre optic signals for long distance, high speed and high quality communication. A 9V, 500mA power adapter is provided in the package. Has ST type connectors. Additional details at www.pccompci.com/accessories-3.htm</i>	444.55	489.00
SXP1001-12	Converter Serial Parallel Serial Bidire <i>An interface converter that allows Centronics and RS-232 devices to communicate with each other (a computer with an RS-232 output to a Centronics printer for example) It is bi-directional, through dip switches to convert serial to parallel or parallel to serial. Baud rate is selectable from 1200 to 115200. Handshaking is also selectable through DIP switches. Power adapter is included and ports are female DB25 and Male Centronics. operation and a plug pack is included. Connections are via female Centronics to female DB25. It includes a 512kb buffer.</i>	195.45	215.00
SXP1000-12	Converter Serial Parallel Serial Bidire <i>An interface converter that allows Centronics and RS-232 devices to communicate with each other (a computer with an RS-232 output to a Centronics printer for example) It is bi-directional, through dip switches to convert serial to parallel or parallel to serial. Baud rate is selectable from 1200 to 115200. Handshaking is also selectable through DIP switches. Power adapter is included and ports are female DB25 and Male Centronics.</i>	126.36	139.00
SXP500-12	Converter Serial Parallel Serial Bidire <i>Anon powered interface converter that allows Centronics and RS-232 devices to communicate with each other (a computer with an RS-232 output to a Centronics printer for example) It is bi-directional and converts serial to parallel or parallel to serial. Baud rate is selectable from 1200 to 115200. Handshaking is also selectable through DIP switches. Ports are female DB9 and Male Centronics.</i>	126.36	139.00
15121-12	Converter USB to 2 x PS/2 (Mouse & Keyb <i>Easily connect your PS/2 keyboard and mouse to your USB port. For PC, iMAC or SUN platforms.</i>	35.45	39.00
15131-12	Keyboard Macro Stick PS/2 XKEY <i>This innovative tool is a powerful time saver. Each of the 16 keys is able to be dedicated to macros up to approximately 1000 characters. The real beauty of this product is that it fits neatly above the function keys on your keyboard.</i>	208.18	229.00
15135-12	Keyboard Macro Stick USB XKEY <i>This innovative tool is a powerful time saver. Each of the 16 keys is able to be dedicated to macros up to approximately 1000 characters. The real beauty of this product is that it fits neatly above the function keys on your keyboard.</i>	208.18	229.00
23018-12	Video Cable Adapter S-VHS Female to RCA <i>Convert your S-VHS connector to the very common composite video. Please note: These Adapters will convert an S-VHS source to an RCA input.</i>	8.18	9.00
23019-12	Video Cable Adapter S-VHS Female to RCA <i>Converts a male S-VHS connector to a male RCA composite video plug (RCA). Please note: These Adapters will convert an S-VHS source to an RCA input.</i>	8.18	9.00
23020-12	Video Cable Adapter S-VHS Male to RCA F <i>Connects your female S-VHS plug to Female RCA composite. Please note: These Adapters will convert an S-VHS source to an RCA input.</i>	8.18	9.00

Adapters and Converters - FireWire Accessories

2925-12	Converter PCMCIA to Firewire & USB 2.0	117.27	129.00
2847-12	Firewire Hub 6 Port <i>A 6 port Firewire hub with the following characteristics: IEEE 1394 and IEEE 1394a compliant with 100,200,400 Mbps data transfer rate. Automatically uses the highest speed the peripheral supports. Supports hotswapping. DC input terminal for external power supply. 6 IEEE 1394 ports for more convenient adding and removing of devices. 6 pon IEEE 1394 I/O connectors. Compact and stackable. Has 4 full size front ports plus 1 mini firewire and 1 full size rear port. PC/Mac compatible.</i>	77.27	85.00

9104-12	Gender Changer SCSI Cent50/Cent50 F/F <i>Centronics 50 pin Female/Female gender changer</i>	21.27		23.40
9105-12	Gender Changer SCSI Cent50/Cent50 M/M <i>Centronics 50 pin Male/Male gender changer</i>	21.27		23.40
MB524-12	Gender Changer USB A Female - B Male	11.73		12.90
MB523-12	Gender Changer USB AF - AF	11.73		12.90
9253-12	RS232 Null Modem Cable DB9 M/F 1.8m	8.09		8.90
9254-12	RS232 Null Modem Cable DB9 M/M 1.8m	8.09		8.90

Adapters and Converters - RS232 Accessories

MB310-12	RS232 Jumper Box DB25 Male/Female <i>Jumper box comprises of DB25 male connection to DB25 female connection and wires to solder pins.</i>	23.64		26.00
MB455-12	RS232 Loopback Tester DB25 Male/Female <i>This RS232 loopback tester comprises of one male DB25 connection and one DB25 female connection with 4 LED's to monitor pins 2 & 3 (transmit & receive), pins 4 & 5 (RTS & CTS), pins 6 & 20 (DSR & DTR) and pins 15 & 17 (TC & RC).</i>	18.82		20.70
MB340-12	RS232 Mini Tester DB25 Male/Female <i>This RS232 mini tester comprises of one male DB25 connection and one DB25 female connection with 7 LED's to monitor TD, RTS, DSR, CD, RD, CTS & DTR.</i> <i>Use to monitor the commonly used RS232 interface lines and signals. Can help to diagnose where line problems are occurring in modems and other RS232 devices.</i> <i>Seven tri-state (2 color) led; red means negative voltage and green means positive voltage.</i> <i>the lines monitored are line 2(TD), 3(RD), 4(RTS), 5(CTS), 6(DSR), 8(CD), and line 29(DTR).</i>	19.18		21.10
MB331-12	RS232 Null Modem - DB25 Male/Female <i>Null modem DB25 pin male to DB25 pin female.</i>	12.73		14.00
9059-12	RS232 Null Modem cable DB25 M/F 2m <i>Two metre Null Modem cable with DB25 male and DB25 female connectors. Has wires 2&3, 4&5 crossed, 6&8 to 20.</i>	17.73		19.50
MB355-12	RS232 Pin2 Pin3 Reverser DB25 M/F <i>Adapter DB25 male to DB25 female with pins 2 & 3 reversed.</i>	11.09		12.20
MB460-12	RS232 Quick Tester DB25 Male/Female <i>DB25 male to DB25 female Check Tester monitors pins 2 (TD), 3 (RD), 4 (RTS), 5 (CTS), 6 (DSR), 8 (DCD), 11 (OM), 19 ((s)RTS) and 20 (DTR). Corresponding LED's indicate signal activity.</i>	20.91		23.00
9131-12	RS232 to RS232 Photo Isolator Box <i>The RS232 to RS232 photo isolator box allows the input signals to be isolated up to 1000V. There are 3 LED indicators corresponding to Tx, Rx and power signals. A 9V, 500mA power adapter is included. Connectors are DB25 male/female.</i>	227.27		250.00
9164-12	RS232 to RS232 Photo Isolator Box DIN R <i>The RS232 to RS232 photo isolator box mounts on a standard DIN rail and provides 5kV isolation. There are 3 LED indicators corresponding to TX, RX, and power indicator. Power requirements are 250mA, 12 VDC. A model with 24VDC input is also available.</i>	226.36		249.00

Adapters and Converters - RS232 Accessories

Cat No	Description	RRP	Ex GST	Inc GST
9165-12	RS232 to RS422 Photo Isolator Box DIN R <i>The RS232 to RS422 photo isolator box mounts on a standard DIN rail and provides 5kV isolation. There are 3 LED indicators corresponding to TX, RX, and power indicator. Power requirements are 250mA, 12 VDC. A model with 24VDC input is also available.</i>	226.36		249.00
9166-12	RS232 to RS485 Photo Isolator Box DIN R <i>The RS232 to RS485 photo isolator box mounts on a standard DIN rail and provides 5kV isolation. There are 3 LED indicators corresponding to TX, RX, and power indicator. Power requirements are 250mA, 12 VDC. A model with 24VDC input is also available.</i>	226.36		249.00
10056-12	Short Haul Modem - Line Driver <i>This short haul modem is able to transmit serial data over transmission distances up to 10 000m at 300 Baud or 800m at 19200 Baud. No external power supply is needed. It provides excellent noise rejection as well as 1500 Volt lightning surge protection. It is configurable as DCE or DTE with full duplex operation. One unit is required at each end of the link.</i>	80.00		88.00

Adapters and Converters - USB Accessories

Cat No	Description	RRP	Ex GST	Inc GST
2889-12	Converter CardBus to USB 2.0 - 2 Port <i>High performance Cardbus to USB 2.0 adapter. Cardbus is the 32 bit version of the PCMCIA interface, which is 16 bit.</i>	85.45		94.00
2860-12	Converter CardBus to USB 2.0 - 3 Port <i>High performance Cardbus to USB 2.0 adapter. Cardbus is the 32 bit version of the PCMCIA interface, which is 16 bit.</i>	126.36		139.00
2940-12	Converter CF to 1 RS232 Serial DB9M <i>Now you can add a high-speed RS-232 serial COM port to your mobile computer and maximize your connectivity with speeds up to 921 Kbps. Attach modems, bar code scanners, mag stripe readers, GPS receivers, digital cameras or other RS-232 serial devices. These Mobility FriendlyT cards are the world's lowest power add-on serial adapters, extending the battery life of your PDA.</i> <ul style="list-style-type: none"> * Comes with the Hi-Speed COM Tools and drivers which enable users to re-map legacy baud rates to higher speeds such as 230.4, 460.8, or 921.6 Kbps. * Comes with advanced features to set custom baud rates * Provides the ability to quickly identify and change COM port assignments * One RS-232 serial ports * Includes industry standard DB-9 Connector * Provides standard 16550 compatible UARTS and compatibility with 16650, 16750 & 16950 * Includes UARTS that contain 128 byte FIFO (twice the size of other solutions) * Provides hardware flow control * Comes in CompactFlash or PC card versions with Ruggedized or removable cables * Comes with Plug & Play and hot-swapping capabilities * Operates in both 3.3V and 5V Systems * Uses low power for longer battery life (typical current draw at 3.3v is 2.4mA) * Is compatible with Windows 95/98/98SE/Me/2000/XP, Windows CE - HPC Pro 2.11, HPC 2000, and Pocket PC 2000, 2002 & 2003 * CompactFlash Type I card fits in a PC Card adapter (not included) for use with H/PCs and Windows notebooks 	217.27		239.00
2801-12	Converter USB to 1 RS232 - DB25M <i>The USB to Serial converter allows a serial device, such as a modem to be connected via the computer USB port.</i> <i>Does have 2000 drivers on disk.</i>	71.82		79.00
2828-12	Converter USB to 1 RS232 - DB9M <i>Connection; USB Type A Male - Serial DB9M</i> <i>The USB to Serial converter allows a serial device, such as a modem to be connected via the computer USB port. The serial connection is DB9 Male.Supports: Modem, ISDN-TA, Digital Camera, RS232 Microsoft mouse, Barcode Reader, Card Reader, Palm II & Palm V, Tablet, Label Writer, Fingerprint Verification,Security System.</i>	49.09		54.00
2920-12	Converter USB to 1 RS232 DB9M - Mini Ve <i>Connection; USB Type A Male - Serial DB9M</i> <i>The USB to Serial converter allows a serial device, such as a modem to be connected via the computer USB port. The serial connection is DB9 Male.Supports: Modem, ISDN-TA, Digital Camera, RS232 Microsoft mouse, Barcode Reader, Card Reader, Palm II & Palm V, Tablet, Label Writer, Fingerprint Verification,Security System.</i>	49.09		54.00
15081-12	Converter USB to ATAPI <i>Allows ATAPI devices to be connected to a USB port.</i>	44.55		49.00

Adapters and Converters - USB Accessories

2816-12	Converter USB to Ethernet 10/100Mb/s <i>The USB to Ethernet converter allows a notebook or PC to connect to an Ethernet 10Base-T or 100Base-T LAN via a USB port.</i>	62.73	69.00
2685-12	Converter USB to Parallel - Cent36M <i>The USB to Parallel converter is a bridge that links the Universal Serial Bus (USB) interface to the traditional IEEE-1284 parallel interface. It is easy to install and is compatible with most printers from major manufacturers. It has a Centronics connector and plugs directly into the printer.</i>	35.45	39.00
2697-12	Converter USB to Parallel - DB25F <i>The USB to Parallel converter is a bridge that links the Universal Serial Bus (USB) interface to the traditional IEEE-1284 parallel interface. It is easy to install and is compatible with most printers from major manufacturers. It has a DB25F connector which accepts a printer cable.</i>	35.45	39.00
2937-12	USB Docking Station for Notebook <i>Just one USB connection to your Notebook provides all of the following ports: PS/2 keyboard PS/2 mouse 9 pin Serial 25 pin parallel printer 10/100 ethernet LAN Audio input & output 2 x USB 2.0</i>	144.55	159.00

Adapters and Converters - VGA Accessories

1008061-12	DVI 17M to VGA HD15F Analog Adapter	26.36	29.00
------------	--	-------	-------

Audio - Optical

23006-12	Audio Converter Optical Toslink to RCA <i>Converts 2 of the most common digital interfaces - Toslink & RCA coaxial (S/PDIF) to allow convenient hookup of most audio equipment. A separate 6V DC 250mA plug pack is required, not included.</i>	44.55	49.00
23005-12	Audio Converter RCA to Optical Toslink <i>Takes popular RCA digital S/PDIF (5.1 channels) and converts to a Toslink optical signal to take advantage of the benefits of optic fibre.</i>	44.55	49.00
23010-12	Audio Optical Adapter - Mini Plug to To <i>Converts your digital signal from the very common mini jack to Toslink which will be found on many digital amplifiers.</i>	6.36	7.00
23009-12	Audio Optical Adapter - Toslink to Mini <i>Provides a fast, low cost method of converting from a Toslink terminated cable to mini plug. (found on most popular sound cards)</i>	6.36	7.00
23029-12	Audio Optical Cable - 10m - Toslink <i>Long length optical cable with a Toslink connector at each end. Use with our optical extender amplifier Cat No 23007.</i>	49.09	54.00
23030-12	Audio Optical Cable - 15m - Toslink <i>Long length optical cable with a Toslink connector at each end. Use with our optical extender amplifier Cat No 23007.</i>	62.73	69.00
23028-12	Audio Optical Cable - 5m - Toslink <i>Long length optical cable with a Toslink connector at each end. Use with our optical extender amplifier Cat No 23007.</i>	35.45	39.00
23013-12	Audio Optical Cable - High Quality Glas <i>A high quality glass fibre cable 1.5 metres long with Toslink connectors and a thick protective sheath.</i>	44.55	49.00
23014-12	Audio Optical Cable - High Quality Glas <i>Glass fibre premium optical cable 1.5 metres long. Glass provides much lower loss than plastic fibre.</i>	44.55	49.00
23016-12	Audio Optical Cable - Toslink 10mm Shea <i>Plastic Fibre Audion optical cable. This low-cost cable has heavy duty 10mm sheath to protect against accidental kinking and crushing. 1.5 metres long.</i>	17.27	19.00
23017-12	Audio Optical Cable - Toslink 4mm Sheat <i>A very slimline, low cost, fibre cable for use where space is at a premium. This cable has a slender 4mm sheath and is 1.5 metres long.</i>	10.00	11.00
23015-12	Audio Optical Cable - Universal Toslink <i>A really fascinating solution! A slimline optic fibre cable with BOTH Toslink AND Mini jack connectors at each end, on a pivoting connector.</i>	12.73	14.00
23007-12	Audio Optical Extender - Toslink <i>These line amplifiers are designed to facilitate longer fibre runs. They allow input cable lengths up to 4.8 metres and output cable lengths to a maximum of 19.8 metres.</i>	44.55	49.00
23012-12	Audio Optical Joiner - Mini Plug <i>A simple digital optical "line" joiner for use with 2 mini plug connectors. A neat low cost solution.</i>	8.18	9.00

Audio - Optical

23011-12	Audio Optical Joiner - Toslink <i>Need to join 2 Toslink Cables together; no problem with this low cost connector.</i>	8.18	9.00												
23008-12	Audio Optical Splitter - Toslink <i>These Toslink splitters allow the connection of 2 digital receivers or recorders at the same. This permits playback and recording to be performed simultaneously. eg with mini-disc, etc.</i>	17.27	19.00												
23001-12	Audio Optical Switch Box 3 In 1 Out - M <i>A beautifully simple 3-way Mini Jack Switch. Distribute your audio/video digital signal source with the flick of this stylish/quality switch. Single mini-jack in to 3 out.</i>	49.09	54.00												
23000-12	Audio Optical Switch Box 3 In 1 Out - T <i>Avoid wear and tear on your optical connections, this robust optical switch allows the convenient selection of up to three optical devices. A similar switch is available for "mini-jack" connectors.</i>	49.09	54.00												
23002-12	Audio Optical Switch Box 4 In 2 Out - T <i>A quality digital optical selector in a VERY "showy" case. This unit provides 4 x Toslink in and 2 x Toslink out.</i>	135.45	149.00												
23004-12	Audio Optical- Video / Analogue Convert <i>Input composite video and stereo audio and convert them to S-Video, digital audio and optical audio.</i>	117.27	129.00												
23032-12	Audio Optical/Video HD Switch Box 3 In <i>A High Definition A/V switch box with three inputs and one output. Input selection is with an infrared remote control. The Digital Audio / High Definition Video Selector supports 480i/p, 720p, 1080i and has the following inputs and outputs:</i>	108.18	119.00

Inputs	Outputs														
3 Component Video	1 Component Video	3 Stereo Audio	1 Stereo Audio												
3 Optical Audio	1 Optical Audio														
23023-12	Audio Optical/Video Switch Box 3 In 1 O <i>An A/V switch box with lots of connectors including optical audio. It is a really well built digital optical switch box with a remote control, able to switch three discrete input channels. Each channel has S-VHS, composite, audio and Optical audio inputs to a single output also with S-VHS, Composite and Optical audio.</i>	135.45	149.00												
23003-12	Audio Optical/Video Switch Box 3 In 1 O <i>An A/V switch box with lots of connectors including optical audio. It is a really well built digital optical switch box with a remote control, able to switch three discrete input channels. Each channel has S-VHS, composite, audio and Optical audio inputs to a single output also with S-VHS, Composite and Optical audio.</i>	135.45	149.00												
23021-12	Audio USB Sound Box to Toslink/Analogue <i>Convert your PC's sound through USB to either Analog sound (3.5mm stereo phono jack) or Digital (Optical Toslink socket). Perfect for recording to a mini-discs optical input or to your walkmans phono jack.</i>	71.82	79.00												
23026-12	Audio Video Switch Box 2 In 4 Out <i>An A/V switch box which has two RCA AV, and two S-Video inputs. On the output side it has four RCA AV, and four S-Video connectors.</i>	126.36	139.00												
23024-12	RCA to Firewire Convertor ADVC-100 <i>High-quality Bi-directional Analog/DV conversion Convert S-VHS, Hi8 and 8mm analog tapes to DV in one simple step using the ADVC100. ADVC100 connects with all analog and DV video equipment and is compatible with editing systems for Windows and Mac OS.</i>	635.45	699.00												
23025-12	USB to 5.1 Channel Sound Adapter <i>If you need 5.1 Channel Audio on your Desktop or Laptop, this USB2.0 adapter is the perfect solution for it. Comes with Dolby Digital Real Time Content Encoder, and Xear 3D Sound Technology software.</i>	90.00	99.00												

Barcode Readers - CCD

8987-12	Bar Code CCD ASP Zapper Int Dcder PS/2 <i>A High performance (200 scans per second) CCD Barcode Scanner. The Zapper only has AT or PS/2 connections. A depth of field 0-30mm with an image sensor 2048 bit CCD this 80mm hand scanner can grab any barcode that comes too near.</i>	290.91	320.00
1008178-12	Bar Code CCD Bluetooth Scanner+Dongle f <i>1008178 is a wireless barcode scanner featuring Bluetooth communication. This slim-line device utilises CCD technology and has a range of up to 10 metres with multiple slave units to one master. The low powered unit operates from 2 type AA batteries and has LED indications for system status. The dongle for the PC is included.</i>	726.36	799.00
8440-12	Bar Code CCD Hi Scan Int Dcder KB 80mm	499.09	549.00

1008197-12	Bar Code Scanner PSC Powerscan Cordless <i>This is the "gun" only, also need Cat No. 1008198 Base.</i>	999.09	1099.00
	<i>The PowerScan family of handheld laser bar code scanners has been designed from the ground up to meet the demands of industrial users needing fast, accurate scanning capabilities.</i>		
	<i>PowerScan scanners autodiscriminate all standard bar code symbologies and automatically adjust to read a wide range of code densities down to 2.5 mils. Meeting the most stringent drop specification in the industry, PowerScan scanners are manufactured from high impact-resistant material and incorporate protective rubber cushioning at every point of impact. In addition, the scan window is made from a shatterproof material and is diamond coated to resist scratching. Added protection, provided by a frictionless scan mechanism and shock mountings for all internal optical components, ensure that PowerScan is the most rugged family of industrial handheld scanners on the market.</i>		
1008198-12	BarCode Scanner PSC Powerscan Base for <i>This is the base station only for Cat No. 1008197 Bar Code Scanner PSC Powerscan Cordless Industrial</i>	699.09	769.00

Cables - Coax

9211-12	Wireless RF Adapter Set <i>Need an RF adapter? Make the one you need. There are two by 16 different connectors that can be assembled in any combination.</i>	217.27	239.00
---------	--	--------	--------

Cables - Firewire

9112-12	Firewire Cable 4 Pin to 4 Pin 1.8m <i>1.8 metre cable to connect from one digital device to another digital device.</i>	14.09	15.50
9276-12	Firewire Cable 4 Pin to 4 Pin 5m <i>5 metre cable to connect from one digital device to another digital device.</i>	23.00	25.30
9111-12	Firewire Cable 6 Pin to 4 Pin 1.8m <i>1.8 metre cable to connect from card to digital device.</i>	13.64	15.00
9113-12	Firewire Cable 6 Pin to 6 Pin 1.8m <i>1.8 metre cable to connect from one digital device to another digital device.</i>	13.18	14.50
9150-12	Firewire Cable 6 Pin to 6 Pin 5m <i>5 metre cable to connect from one digital device to another digital device.</i>	24.45	26.90
9274-12	Firewire Cable 9 Pin (Firewire 800) to <i>2m cable to connect from a Firewire 800 card to a digital device with a mini Firewire 4 pin connector.</i>	26.36	29.00
9275-12	Firewire Cable 9 Pin (Firewire 800) to <i>2m cable to connect from a Firewire 800 card to a digital device with a Firewire 6 pin connector.</i>	26.36	29.00
9244-12	Firewire Connection Convertor <i>IEEE 1394 6PF-4PM</i>	20.82	22.90

Cables - Games

9074-12	Game Ext Cable DB15 M/F <i>Two metre game extension cable with DB 15 pin Male and Female connectors. 15 pins in two rows.</i>	13.09	14.40
---------	---	-------	-------

Cables - Hard Drive

9163-12	Hard Disk Ribbon Cable - SCSI LVD-160 <i>This cable is designed to avoid cross talk when connecting LVD-160/UltraII SCSI drives. The cable has 68 cores and connects to 8 x 68 pin LVD/SE connectors. Approx 140cm. Ideal for use in Tower Cases.</i>	126.36	139.00
9187-12	Hard Disk Ribbon Cable IDE 80 Core 100/	6.36	7.00
9156-12	Hard Disk Ribbon Cable IDE UltraDMA 100 <i>This cable is designed to avoid cross talk when connecting Ultra DMA 100 IDE drives. The cable has 80 cores and connects to 3 x 40 pin IDC connectors. Approx 80cm. Ideal for use in Tower Cases.</i>	13.55	14.90
9109-12	Hard Disk Ribbon Cable IDE UltraDMA 33 <i>This cable is designed for DMA 33 drives. The cable has 40 cores and connects to 3 x 40 pin IDC connectors.</i>	5.91	6.50
9267-12	Laptop Hard Disk Cable 44 pin for 2.5 H <i>Cable for 2.5" laptop HD. 44 pin. 4cm Long.</i>	13.55	14.90
9272-12	Laptop Hard Disk Cable 44 pin for 2.5 H <i>Cable for 2.5" laptop HD. 44 pin. 4cm Long.</i>	13.55	14.90
9204-12	Ribbon to suit Eltron 2742 110 x 91 The	29.09	32.00

Cables - Keyboard

9045-12	Keyboard Extension Cable <i>We'll make up keyboard extension cables to the length you require, add the cost of fittings and \$10.00 for assembly.</i>	2.27	2.50
9102-12	Keyboard Extension Cable M/F 10m PS/2 <i>Ten metre keyboard extension cable with PS/2 Male/Female connectors.</i>	26.36	29.00
9035-12	Keyboard Extension Cable M/F 2m AT Conn <i>Two metre keyboard extension cable with 5-pin DIN Male/Female connectors.</i>	10.45	11.50
9043-12	Keyboard Extension Cable M/F 2m PS/2 <i>2 metre keyboard extension cable with 6-pin MINI DIN PS/2 connectors.</i>	8.64	9.50
9167-12	Keyboard Extension Cable M/F 3m PS/2 <i>Three metre keyboard extension cable with PS/2 Male/Female connectors.</i>	13.18	14.50
9066-12	Keyboard Extension Cable M/F 5m AT Con <i>Five metre keyboard extension cable with 5-pin DIN Male/Female connectors.</i>	24.64	27.10
9114-12	Keyboard Extension Cable M/F 5m PS/2 <i>Five metre keyboard extension cable with PS/2 Male/Female connectors.</i>	13.55	14.90
9101-12	Keyboard Extension Cable M/M 10m PS/2 <i>Ten metre keyboard extension cable with PS/2 Male/Male connectors.</i>	26.36	29.00

Cables - Keyboard

9042-12	Keyboard Extension Cable M/M 2m AT Conn <i>Two metre keyboard extension cable with 5-pin DIN Male/Male connectors.</i>	9.32	10.25
9046-12	Keyboard Extension Cable M/M 2m PS/2 <i>Two metre keyboard extension cable with 6-pin MINI DIN Male/Male PS/2 connectors.</i>	9.00	9.90
9069-12	Keyboard Extension Cable M/M 5m AT <i>Five metre keyboard extension cable with 5-pin DIN Male/Male connectors.</i>	21.82	24.00
9100-12	Keyboard Extension Cable M/M 5m PS/2 <i>Five metre keyboard extension cable with PS/2 Male/Male connectors.</i>	13.55	14.90
9097-12	Keyboard/Mouse PS/2 splitter cable <i>Used to connect a normal mouse and keypad (or Keyboard). 1 x MD6M - 2 x MD6F.</i>	14.09	15.50

Cables - Lengths

9144-12	Printer Cable Cent 36 to Cent M/M 2m	12.68	13.95
---------	---	-------	-------

Cables - Monitor

9087-12	Joystick Splitter Cable DA15m/DA15f x 2 <i>Joystick splitter cable allows the connection of 2 joysticks to share 1 games port. Ideal for playing games when each player has their own joystick.</i>	17.18	18.90
1008117-12	Printer Cable 20m DB25M - DB25F	28.18	31.00
9003-12	Serial Cable DB9 M/F 2m <i>Two metre monitor/mouse extension cable with DB 9-pin Male/Female connectors.</i>	7.27	8.00
9170-12	VGA Extension Cable 1.8m HD DB15 M/F Sh	14.73	16.20
9040-12	VGA Extension Cable 1.8m HD DB15 M/M	9.00	9.90
9171-12	VGA Extension Cable 1.8m HD15M-HD15M Sh	14.73	16.20
X1114-12	VGA Extension Cable 10m Shielded M/F	48.18	53.00
9135-12	VGA Extension Cable 10m Shielded M/M	44.55	49.00
9083-12	VGA Extension Cable 15m Shield HD15 M/F	62.73	69.00
9192-12	VGA Extension Cable 15m Shield HD15 M/M	62.73	69.00
X1115-12	VGA Extension Cable 20m Shielded M/F	71.82	79.00
X1192-12	VGA Extension Cable 20m Shielded M/M	71.82	79.00
9084-12	VGA Extension Cable 30m Shield HD15 M/F	126.36	139.00
1008084-12	VGA Extension Cable 30m Shield HD15 M/M	126.36	139.00
9142-12	VGA Extension Cable 5m HD15M-HD15F Shie	29.09	32.00
9206-12	VGA Extension Cable 5m HD15M-HD15M 1 x <i>5 mtr extended distance VGA cable. Minimal Shielding.</i>	10.91	12.00
9143-12	VGA Extension Cable 5m HD15M-HD15M Shie	29.09	32.00
9086-12	VGA Extension Cable DB15M to 2 x DB15F <i>Moulded version with thumbscrews cable to economically connect 2 monitors to 1 VGA video port on your PC.</i>	20.91	23.00
9073-12	VGA Extension Cable DB15M to 5 x BNC <i>Two metre VGA extension cable with DB 15-pin Male connector and five BNC connectors.</i>	41.36	45.50
9078-12	VGA Extension Cable DB15M to DB9M <i>Two metre VGA cable with DB 15 pin Male to DB 9 pin Male connectors.</i>	8.68	9.55

Cables - Parallel

9220-12	Parallel Cable DB25 M/M 3.0m	10.91	12.00
9072-12	Printer Cable 10m DB25M 36Cent <i>Ten metre printer cable fitted with DB 25-pin male connector and 36-pin Centronics plug.</i>	22.64	24.90
9000-12	Printer Cable 2m <i>Two metre printer cable fitted with DB 25-pin male connector and 36-pin Centronics plug.</i>	9.91	10.90
9090-12	Printer Cable 2m IEEE1284 Bitronics <i>Two metre printer cable fitted with DB 25-pin male connector and C36M plug (18 pair). To connect your IEEE Printer to your parallel port on your computer. Most of the newer laser printers require this standard in order to print faster. It is downward compatible so that it will work with a printer that does not require it.</i>	21.27	23.40
9120-12	Printer Cable 2m IEEE1284 Bitronics D25 <i>Used for connection between your computer and your parallel printer that is equipped with a small high density 36 pin centronics type C connector. It supports IEEE1284 high speed bi-directional communication.</i>	35.00	38.50

Cables - Parallel

Cat No	Description	RRP	Ex GST	Inc GST
9001-12	Printer Cable 3m <i>Three metre printer cable fitted with DB 25-pin male connector and 36-pin Centronics plug.</i>	11.91		13.10
9103-12	Printer Cable 5m IEEE1284 Bitronics <i>Five metre printer cable fitted with DB 25-pin male connector and C36M plug (18 pair). To connect your IEEE Printer to your parallel port on your computer. Most of the newer laser printers require this standard in order to print faster. It is downward compatible so that it will work with a printer that does not require it.</i>	38.41		42.25
9121-12	Printer Cable 5m IEEE1284 Bitronics D25 <i>Equipped with a small high density 36 pin centronics type C connector. It supports IEEE1284 high speed bi-directional communication, which allows a data transmission rate of up to 50 times faster than the standard Centronics parallel interface.</i>	44.55		49.00
9019-12	Printer Cable 5m Parallell DB25M-C36M <i>Five metre printer cable fitted with DB 25-pin male connector and 36-pin Centronics plug.</i>	14.36		15.80
9009-12	Printer Cable Cent to Cent 2m M/M <i>2 metre printer cable fitted with a 36-pin Centronics Male connector, and a 25 pin DB25 Connector.</i>	13.55		14.90

Cables - Power

Cat No	Description	RRP	Ex GST	Inc GST
9148-12	ATX MOLEX to P4 power convertor cable	10.82		11.90
1008037-12	Molex to modular RJ12 <i>Modular (or new) printer with an old cash drawer (molex-4pin)</i>	10.91		12.00
9018-12	Power Cable 5.25 to 3.5 for FDD <i>Provides two 3.5in power connectors from one 5.25in power cable.</i>	7.73		8.50
9021-12	Power Cable Double Adapter 2 x HDD and <i>Allows you to connect two hard drives and one floppy drive to one power connector.</i>	6.45		7.10
9155-12	Power Cord 3 Core Main Socket to IEC-C1	17.27		19.00
9020-12	Power Cord Aust plug-IEC socket 1.8m <i>1.8 metre length Australian mains lead with standard 3-pin plug on one end and 3-pin IEC socket on the other.</i>	11.82		13.00
9169-12	Power Cord European	10.27		11.30
9024-12	Power Cord IEC M/F 1.8m <i>An IEC power extension cable, primarily use as a monitor extension.</i>	9.91		10.90
9122-12	Power Tap from PS/2 Keyboard Cable - 5 <i>Taps 5 Volt DC from the keyboard. A 6 pin Mini DIN male/Female connectors fits between the keyboard and the computer. DC is provided via a 3.5mm connector.</i>	19.09		21.00
9149-12	Power Tap from USB Port - 5 Volt DC <i>Taps 5 Volt DC from the keyboard. A 6 pin Mini DIN male/Female connectors fits between the keyboard and the computer. DC is provided via a 3.5mm connector.</i>	15.45		17.00
1008071-12	RJ45 to Molex Cable	31.82		35.00

Computers / Terminals - Terminals

Cat No	Description	RRP	Ex GST	Inc GST
1154-12	Terminal TCP/IP Ethernet Serial / Ether <i>A small, light, terminal designed for use in UNIX networking environments. It provides support for SCO UNIX/Xenix, IBM RS/6000 AIX, Sun Solaris, Interactive UNIX, SVR4,...etc. A large range of ASCII serial terminal emulations are provided, including WY-60, WY-120, WY-50+, ADDS A2, plus many more. This is a flexible, direct replacement for existing terminals as well as for new installations. It connects via a 10BaseT ethernet connection or a serial connection.</i>	508.18		559.00
1215-12	Terminal Windows Based - 15in LCD CE.NE <i>This is a Windows Based Terminal, integrated in an LCD monitor. It operates under Windows CE.NET, and is suitable for both NT server and Unix host. Support is provided for Citrix ICA protocol as well as Microsoft's RDP. A VIA 533MHz CPU powers the terminal and it includes IE5.5 embedded in the system. In addition, it supports the following terminal emulations: SCO Console, VT 220/100/52, Wyse 120/60/50+/325, TV1925, TV1910, ADDS A2. Networking protocols include 10/100BaseT (RJ45), TCP/IP with DNS, DHCP and PPP. Ports provided include 10/100 ethernet, a DB25 parallel port, two DB9 serial ports, two USB ports, VGA DB 15, PS/2 mouse & keyboard ports and audio in & integrated speakers.</i>	1271.82		1399.00
1236-12	Terminal Windows Based - 17in LCD CE.NE <i>This is a Windows Based Terminal, integrated with a 17in LCD monitor. It operates under Windows CE.NET and uses a 533MHz VIA Eden CPU.</i>	1453.64		1599.00
1243-12	Terminal Windows Based - 17in LCD Linux <i>This is a Windows Based Terminal, integrated with a 17in LCD monitor. It operates with embedded Linux and Firefox browser. It has an 533MHz VIA Eden CPU and 128MB RAM. 3 year warranty on terminal and 1 year on LCD.</i>	1499.09		1649.00
1242-12	Terminal Windows Based - 17in LCD Win C <i>This is a Windows Based Terminal, integrated with a 17in LCD monitor. It operates with embedded Win CE.NET and IE6.0. It has an 533MHz VIA Eden CPU and 128MB RAM. 3 year warranty on terminal and 1 year on LCD.</i>	1544.55		1699.00
1244-12	Terminal Windows Based - 17in LCD XPe <i>This is a Windows Based Terminal, integrated with a 17in LCD monitor. It operates with embedded Win XP and IE6.0. It has an 800MHz VIA Eden CPU and 256MB RAM. 3 year warranty on terminal and 1 year on LCD.</i>	1708.18		1879.00
1233-12	Terminal Windows Based - Remote Managem <i>Management software for our Windows Based Terminals.</i>	226.36		249.00
1151-12	Terminal Windows Based - with PCCard So <i>This model has a 533MHz CPU, 16MB DOM, 64MB SDRAM and IE 5.5 built in. It also includes a PC Card socket to allow use of a wireless LAN card. Now with 3 year warranty.</i>	690.00		759.00
1159-12	Terminal Windows Based - with PCMCIA So <i>This model has a 533MHz CPU, 16MB DOM, 64MB SDRAM and IE 5.5 built in. It also includes a PCMCIA Card socket to allow use of a wireless LAN card. Now with 3 year warranty.</i>	690.00		759.00
1146-12	Terminal Windows Based - with Smart Car <i>This model has a 533MHz CPU, 16MB DOM, 64MB SDRAM and IE 5.5 built in. It also includes a smart card reader and smart card to provide secure access to the network. Now with 3 year warranty.</i>	753.64		829.00
1158-12	Terminal Windows Based - XP <i>This model has a 733MHz CPU, 256MB DOM, 256MB SDRAM and XPe built in. The Windows Based Terminal operates under Windows XPe, and is suitable for both NT/2000 server and Unix host. It supports both the Citrix ICA protocol as well as Microsoft's RDP. In addition, it also supports the following terminal emulations: SCO Console, VT 220/100/52, Wyse 120/60/50+/325, TV1925, TV1910, ADDS A2. Networking protocols include 10/100BaseT (RJ45), TCP/IP with DNS, DHCP and PPP. Ports provided include DB25 parallel port, two DB9 serial ports, two USB ports, VGA DB 15, PS/2 mouse & keyboard ports and audio in & out. Now with 3 year warranty.</i>	1180.91		1299.00
1245-12	Terminal Windows Based Mounted on 17 LC <i>This is a Windows based terminal (Cat No 1239) mounted onto a 17" LCD screen. Both the Terminal and LCD have a 3 year warranty.</i>	908.18		999.00
1239-12	Terminal Windows Based-Mount on LCD Mon <i>The best of both worlds - You only need one terminal, no matter what system you are using. It emulates SCO, DEC, Wyse etc terminals as well as being a Windows Based Terminal. It supports the full range of Windows RDP as well as Citrix ICA protocols. And the best part - it measures only 188 x 136 x 40 and has standard VESA (LCD monitor) mounting. This means that it can attach directly to the back of an LCD monitor. Now with a 3 year warranty.</i>	590.00		649.00

The WY-55 provides two serial ports, inbuilt rest timer, advanced ergonomic features and the firmware access door for easy future upgrades. It supports WY-60, WY-120, TUI-905/910+-925, ADDS Viewpoint A2 Hazeltine 1500, DEC VT52/100/220, PC Term, Unix Consol, Choose from a ASCII, ANSI, enhanced PC or ANSI 105 key keyboard.</i>	954.55	1050.00

Data Logging & Control - A/D & D/A

17077-12	12 Bit 16 CH A/D 2 CH D/A PCI <i>A PCI BUS based A/D D/A card with programmable I/O control. It may be configured as either unipolar or bipolar with input ranges of 0 to 10V, 0 to 20V or -5V to 5V and -10V to 10V. Gain is selectable from 1 to 8. It also has three independant 16 bit counters, internal or external A/D triggering, sample and hold as well as being interrupt or polling driven. 16 DIO are also included. Full details of the card, driver download and schematics are available at www.pciadda.com</i>	544.55	599.00
17000-12	12 Bit 16 CH A/D 1 CH D/A Unipolar ISA <i>A low cost card with surprisingly good performance, ideal for student projects etc. The input / output voltage range is 0 to 9 Volt (unipolar).</i>	180.00	198.00
17018-12	14 Bit 16 CH A/D SE 1 CH D/A ISA <i>This board provides 16 channels A/D with differential input and one D/A channel. The unipolar input range is selectable from 0~2.5V, 0~5V and 0~10V and bipolar range is selectable from -2.5V ~2.5V, -5V~5V and -10~10V. Conversion time is less than 28usec for each channel. The D/A output channel is also unipolar or bipolar selectable with the same ranges available and a conversion time of less than 2usec.</i>	362.73	399.00
17019-12	14 Bit 16 CH A/D SE 2 CH D/A ISA <i>Provides the same features as Cat. No. 17018 as well as an additional D/A output channel.</i>	453.64	499.00

Data Logging & Control - Analog to Digital

ACL8113-12	12 Bit 32 CH A/D Card <i>Provides 32 single-ended, bipolar or unipolar, 12 bit analogue input channels, with 500V DC Isolation. Includes on chip sample and hold and programmable gain control. Fully compatible with Advantech PCL-813.</i>	835.45	919.00
17031-12	Parallel Port 12 Bit A/D 0 - 10 V <i>Connects to the parallel port and provides eleven 12 bit A/D channels with an input range of 0 - 10 Volt</i>	162.73	179.00
17032-12	Parallel Port 12 Bit A/D 0 - 5 V <i>Connects to the parallel port and provides eleven 12 bit A/D channels with an input range of 0 - 5 Volt</i>	162.73	179.00

Data Logging & Control - Data Acquisition

ACL8111-12	Data Acquisition Card: Multi-Function <i>Provide 8 Single ended 12 bit analog input channels with five programmable input ranges from +-0.3125V to +-5.0V, one 12 bit monolithic multiplying analog output channel, 16 TTL digital output channels, 16 TTL digital input channels, three A/D trigger modes and programmable IRQ level for A/D data transfer. Conversion speed is 25us. Amplifier gain of 1, 2, 4, 8 and 16 is software controllable. There is support for IRQ2 - 7. It is fully compatible with Advantech's PCL-711B.</i>	683.64	752.00

Data Logging & Control - DI & Relay O/P

17066-12	16 CH Opto DI 16 CH Relay Dec ISA <i>Features 16 opto isolated digital input channels with a max 45 Volt DC input range. The input signal can be completely floated to prevent ground loops. 16 reed relays are also included on the card and have a contact rating of 150V DC, 1A and a life expectancy of 100 million operations at signal level load. Suitable for use with Windows 95/98/NT.</i>	244.55	269.00
ACL7225-12	16 CH Opto DI 16 CH Relay ISA <i>The ACL-7225 provides 16 electro-mechanical relays for output actuation and 16 isolated digital inputs. It can plug directly into an ISA slot. Each relay is matched with one red LED to reflect its ON/OFF status. Each input channel is jumper selectable to either AC or DC input control voltage. The isolation voltage is guaranteed at 1,000V, so that common-mode voltages and voltage spikes are safely isolated from the PC and the ACL-7225. The digital I/O is via two 37-pin D-type connectors.</i>	520.91	573.00
17092-12	16 CH Photo Relay PCI Dec	453.64	499.00
17075-12	4 CH Opto DI 4 CH Relay Output PCI Dec <i>A PCI interface card that features 4 opto isolated digital input channels with an operation level of 17 - 28 volt DC or TTL input range. 4 reed relays (changeover, ie NC and NO) are also included on the card and have a contact rating of 120V AC 1A, with an isolation resistance of 100M Ohm. All connections are via a DB25F on the backplane. Life expectancy is 100 million operations at signal level load.</i>	299.09	329.00
17067-12	8 CH Opto DI 8 CH Reed Relay Dec ISA <i>Features 8 opto isolated digital input channels with an input voltage range of 17Volt to 28 Volt or TTL level. The input signal can be completely floated to prevent ground loops. 8 reed relays are also included on the card and have a contact rating of 120V AC/DC, 1A and a life expectancy of 100 million operations at signal level load. Suitable for use with Windows 95/98/NT.</i>	217.27	239.00
17069-12	8 CH Opto DI 8 CH Relay Output Daughter <i>A daughter board that features 8 opto isolated digital input channels with 5 - 24 volt AC or DC, with don't care polarity input range, and a withstand voltage of 1000V. 8 reed relays are also included on the card and have a contact rating of 120V AC 0.5A or 30VDC 1A, breakdown voltage is 300V AC/DC min. LEDs indicate energised relays. It is an expansion daughter board for Cat No 17068.</i>	335.45	369.00
17074-12	8 CH Opto DI 8 CH Relay Output PCI Dec <i>A PCI interface card that features 8 opto isolated digital input channels with an operation level of 17 - 28 volt DC or TTL input range. 8 reed relays (changeover, ie NC and NO) are also included on the card and have a contact rating of 120V AC 1A, with an isolation resistance of 100M Ohm. All connections are via a DB37F on the backplane. Life expectancy is 100 million operations at signal level load. Available in either 4 or 8 port, this device allows your computer to either control external devices or receive input. <i>This might be information from PIR sensors, pressure mats or even the simple window sensors. Similarly these cards could be used to control gate/door locks, camera servos, or even major industrial or domestic appliance via relays, etc.</i></i>	362.73	399.00
17003-12	8 Ch Opto Input 8 Ch Reed Relay Board <i>Provides eight opto isolated digital inputs, 1500V isolation, and eight reed, SPDT relay outputs. It interfaces to a PC via Cat.No 17002 or 17054.</i>	362.73	399.00
17035-12	Parallel Port 8 Opto 8 Reed Relay Termi <i>An external addon card that plugs into the parallel port module 17034 and provides eight opto isolated inputs with a nominal max input voltage of 15 Volts and eight reed relay outputs with a contact rating of 120V AC/DC 1 Amp.</i>	180.91	199.00

Data Logging & Control - Digital I/O

17005-12	16 Channel Opto Input Board <i>The 16 channel isolator input board provides 16 opto-isolated digital input channels, which allow the input signals to be completely floated and prevent the ground loop. Features include internal & external power selectable, input signals are buffered with voltage comparators, input threshold voltage adjustable and breakdown voltage of 1500VDC. Includes 26-pin flat cable. It interfaces to a PC via the cat no. 17002(ISA) or 17054(PCI).</i>	253.64	279.00
AX5214-12	48 Bit Dig I/O optional SSR ISA <i>The AX5214 is a 48-bit digital I/O board that can be used with TTL low-level I/O circuitry or with solid state relay module (8, 16 or 24 channel versions) providing 2500V isolation for interfacing with high level AC and DC signals. The 48 DIO lines are arranged into two separated groups. Each group, emulates 8255 programmable peripheral interface chip mode 0 but with stronger driver capability, is further divided into three 8-bit ports (Port A,B & C). These ports can be functionally programmed as either digital inputs or outputs. A unique feature is interrupt on change of state which frees up the PC since there is no need to poll the digital input port for an event to occur.</i>	317.27	349.00
AX5215-12	96 Bit Dig I/O Optional SSR ISA <i>The AX5215 is a 96 channels (bits) digital input and output board that can be used with TTL low-level I/O circuitry or with AX754, AX755, AX756 and AX1416/24 providing isolation for interfacing with high level I/O signals. This board has an interrupt on change of state. Interrupt generation occurs when one of the 8 digital input channels changes state in a single port.</i>	590.00	649.00

Data Logging & Control - Digital I/O

17053-12	Digital I/O 48 Ch & 3 Counters 8255-825 <i>Provides 48 digital I/O lines on a PCI PnP interface card. Has three 16bit counters with a maximum count rate of 10MHz. More details and software available at www.pci8255.net</i>	226.36	249.00
17059-12	Digital I/O 48 TTL USB <i>This product provides 48 digital TTL inputs or buffered TTL outputs on two 50-pin IDC ribbon cables.</i>	880.91	969.00
17082-12	Digital I/O 8 Opto 8 Reed Relay USB <i>This product provides eight isolated digital inputs and eight Form C (SPDT) relay outputs capable of carrying up to 2A of current.</i>	635.45	699.00
17002-12	Industrial Control Card ISA <i>Just the answer if you want to connect to the real world but are not interested in working at the TTL level. This card provides four headers each of which supports an I/O card connected via ribbon cable, ie Cat Nos 17003, 17004 and 17005 in any quantity or combination. A total of 64 I/O are therefore supported. More details and drivers available at www.smatlab.com</i>	180.91	199.00
17054-12	Industrial Control Card PCI <i>Provides 4 digital I/O ports on a PCI PnP interface card. Each port has 16 I/O lines and can be programmed as input or output. It connects to the reed relay and opto input cards. More details and drivers available at www.smatlab.com</i>	362.73	399.00
17034-12	Parallel Port Digital I/O <i>Allows eight digital inputs and eight digital outputs to be controlled and operated via a parallel port.</i>	162.73	179.00
17065-12	Remote Power Control Box <i>Additional power control box for use with Cat No 17064.</i>	326.36	359.00
17087-12	SMS I/O Controller <i>Features Inputs / Outputs: Remote programming and diagnostics using SMS, User definable input and output text descriptions, User definable input status messages, Password protection, RS485 expansion port, Terminated Inputs and Relay outputs, Compact Size (W170mm, D120mm, H50mm), Durable construction, 8 x Inputs (NC) with EOL monitoring, 4 x Relay Outputs (SPDT), (Relay contact rating 2Amp@12V), Optional 4 x Relay Output board, System Requirements: 10 - 30 Volts DC, 1 x Mini Sim (Vodafone, Telstra, Optus) A CDMA version should be available early in 2005.</i>	935.45	1029.00

Data Logging & Control - DIO & Timer/Counter

ACL8454-12	16 DI 8 DO 12 CH Timer/Counter <i>The ACL-8454 is a general purpose timer/counter and digital I/O card for IBM PC/AT or compatibles. It provides four 8254 programmable interval timer, twelve 16-bit down counters, 8 digital outputs and 16 digital inputs. Other features include flexible clock source and gate control setting, internal periodic and external interrupt source with IRQ selectable from 3 to 15.</i>	452.73	498.00
ACL7130-12	32 Isolated DIO with Counter <i>Provides 32 isolated digital I/O channels and 32 TTL digital I/O channels. The isolated I/O channels are isolated to 2500Vrms (excluding cables). Multiple interrupt sources can be selected with hardware jumper settings. There are 16 isolated inputs (up to 24 V input range) and 16 isolated outputs (200mA sink current) along with 16 TTL Inputs and 16 TTL outputs. There is also a programmable counter.</i>	382.73	421.00
AX5216-12	5 CH Timer/Counter 8 DIO ISA <i>The AX5216 is a 5 channel 16-bit counter/timer and 8-bit digital I/O board. The integrated timing control circuit provides enormous flexibility in permitting hundreds of programmable configurations that count events, generate square waves with simple or complex duty cycles, support external timing sources, triggers, and gates, also provide time-of-day clock and alarm functions.</i>	441.82	486.00
SI82551-12	Digital I/O 48 Ch & 3 Counters ISA 8255 <i>This programmable interval timer/counter allows the generation of accurate time delays under software control & provides 48 digital I/O channels. It is a programmable peripheral interface for PC/XT, PC/AT, 80386, 80486 or compatible and contains one 8253 chip and two 8255 chips. The 8253 chip provides programmable interval timer/counter functions and the 8255 chips provide programmable I/O functions. The 8244 contains three 8-bit ports all of which are software configurable giving a total of 48 I/O TTL lines.</i>	172.73	190.00

Data Logging & Control - Expansion Boards

17043-12	Parallel Port Expansion Case	44.55	49.00
17036-12	Parallel Port Extension Kit <i>Provides five parallel expansion sockets to allow multiple parallel port modules to be connected at one time. May be daisy chained to allow support for up to 16 modules.</i>	71.82	79.00

Data Logging & Control - Industrial Computers

17071-12	9 Slot Active Back Plane <i>An active backplane to the PICMG standard, it has 3 ISA slots (2 PICMG in line) and 6 PCI slots.</i>	362.73	399.00
PAC100-12	Ind Computer Chassis: 6 slots & PS <i>This industrial wall mounted chassis consists of 6 AT slot passive backplane, 100W power supply, 37 CFM filtered fan and supports one 3.5" 1.44MB FDD and one 3.5" half-height HD. Dimensions are 402.2 mm(L) x 272 mm(W) x 185 mm(H) and weight is 6.5kg.</i>	892.73	982.00
17057-12	Ind CPU Card Celeron 2S1P 2IDE FDC VGA <i>Accepts Intel Celeron (Socket 370) CPU. Supports up to 512MB EDO/SDRAM in two DIMM sockets, four IDE drives/devices, two floppy drives, one RS232 serial port, one RS232/422/485 port, one SPP/EPP/ECP parallel port, VGA display and 16 level watchdog timer. The CPU is not included.</i>	1278.18	1406.00
17055-12	Industrial Case 19in 4U 14 slot <i>Rack mounted 19" industrial case which caters for up to 14 slots and has 2 x 5.25" and 2 x 3.5" drive bays. Physically accepts standard PS/2 power supplies - we recommend Cat No 8894. The power supply and passive back plane are separate items.</i>	1020.00	1122.00
17056-12	Industrial Passive Backplane 10ISA 4PCI <i>Passive backplane with 10 ISA (3 PICMG) and 4 PCI slots for Cat No 17055. Has connectors for both AT(PS/2) and ATX power supplies. A number of different backplane layouts are available.</i>	258.18	284.00
17088-12	Rack Mount Black 2U 19 Server Chassis <i>Dimensions: 493mm(D) x 422mm(W) x 88mm(H), Riser Card with 3 PCI slots, Drive bays: 1 x 5.25"(External), 1 x 3.5"(External), 4 x 3.5" (1" height, Internal)</i>	335.45	369.00
17091-12	Rack Mount Black 4U 19 Server Chassis N <i>Dimensions (mm) : 177(H) x 422(W) x 590(D), Drive bays : External 3 x 5.25", External 2 x 3.5", Internal 4 x 3.5", M/B type : Extended ATX (12" x 13")</i>	317.27	349.00

Data Logging & Control - Industrial Control

17079-12	Hard Disk Restore Card <i>The fastest and easiest PC recovery System. With a Hard Disk Restore Card installed in your computer you will save valuable time and you will no longer need to: Reset any unwanted changes made to the system, Fix corrupt files and programs, Reset changes made to the CMOS settings, delete unwanted files and programs saved on C:/, Clean your system of temp files, manage user profiles, Run scan disk or defrag your C:/, Clean unwanted cookies from internet access.</i>	126.36	139.00
AX740-12	Prototype Development Board <i>This Universal Development panel permits user's application to be easily connected to any data acquisition and control interface board with 50-pin mating or 37-pin D-type connector. There are two 50-pin mating connectors on the LHS and two 37-pin D-type connectors on the RHS. It also permits "daisy-chaining" to other accessory panels. All system I/P's or O/P's are available to the user via miniature screw terminal connectors on the panel. A breadboard area facilitates the construction of user interface circuits such as filters, attenuators, amplifiers and other special circuits.</i>	130.91	144.00
17042-12	Sensor Mark Sensor Red/Green Dual Light <i>The use of a dual light source (Red/Green) greatly enhances the colour discrimination of this sensor. The sensing distance is 8mm and the sensitivity can be continuously adjusted. A Yellow/Blue model is optionally available.</i>	235.45	259.00
17039-12	Sensor Photoelectric Diffuse Reflective <i>Allows the detection of transparent materials within the range of 0 to 200mm at a switching rate up to 1kHz.</i>	80.91	89.00
17038-12	Sensor Photoelectric Retro Reflective <i>Consists of a light source and sensor in one unit along with a reflector. It provides one side wiring with a range of 0 to 2.4m and has a maximum switching rate of 1kHz. It also allows parallel operation.</i>	80.91	89.00
17037-12	Sensor Photoelectric Thru Beam <i>A sender and a receiver unit allows a range of up to 10m with a 1ms response time. Maximum switching speed is 500Hz.</i>	90.00	99.00
17040-12	Sensor Proximity Non Shielded <i>The proximity sensor will detect an iron target 18mm x 18mm x 1mm at a distance of 8mm and a max switching rate of 1kHz</i>	40.91	45.00
17041-12	Sensor Proximity Shielded <i>Similar to Cat No 17040 except that the sensor is shielded and the maximum detection distance is 5mm.</i>	44.55	49.00
17046-12	Temp & Humidity Measurement Card 12 Bit <i>A data logging and control card designed to measure temperature and humidity. The temperature signal conditioning module and sensor(Cat. No. 17047)are included with the card.</i>	326.36	359.00
17084-12	USB Auto Reset - Watchdog <i>This watchdog timer connects to a USB port and to the reset contacts on the computer motherboard. If the computer stops responding a hardware reset is applied to the computer. There is native support for Windows ME, 2000, XP and .NET. Support is also provided for Win98 and Linux. An API is also provided.</i>	153.64	169.00

Data Logging & Control - Industrial Control

17090-12	USB Humidity & Temperature Sensor <i>The USB-Humidity measures the relative humidity and air temperature through a hole in the Middle of the housing. The device contains a calibrated precision sensor with a measurement accuracy of ±2 % relative humidity and ±0.4° Celsius in most part of measurement range.</i>	290.00	319.00
17083-12	USB Switch / Watchdog <i>Configure as a USB controlled switch that can be operated over your network or as a USB watchdog that turns the power off and on to restart a computer. Contacts are rated at 240V 15A. There is native support for Windows ME, 2000, XP and .NET. Support is also provided for Win98 and Linux. An API is also provided.</i>	162.73	179.00
17085-12	USB Temperature Sensor <i>This USB temperature sensor simply plugs into the USB port and allows the pc to monitor and log the temperature wherever the sensor is placed. The unit does not require drivers and comes with an API for easy integration into the users own applications. Up to 127 sensors can be connected to one pc using USB hubs. These devices cannot be used where failure of the sensor could harm people.</i>	153.64	169.00
17050-12	Watch Dog Timer Card II ISA <i>If your application program locks up, this card will turn off the power to the computer after a selectable period. This is done by writing to the card base address to reset the internal counter. This is usually done in the main loop of your program. The power unit connects between the wall power outlet and the computer and simply turns off the power and then turns it back on again. Utility software is included for DOS, Windows 3.1/95/NT, OS/2 and UNIX. The advantage of the Watch Dog Timer II over the Watch Dog I is that the Watch Dog II has an expansion power control box that can control an external component.</i>	180.91	199.00
17076-12	Watch Dog Timer Card II PCI <i>If your application program locks up, this card will turn the power to the computer off and on after a selectable period. This is done by writing to the card base address to reset the internal counter. This is usually done in the main loop of your program. Utility software is included for DOS, Windows 3.1/95/NT, OS/2 and UNIX. For full details and software see www.pciwatchdog.com</i>	590.00	649.00
17044-12	Watch Dog Timer Card ISA <i>If your application program locks up, this card will apply a hardware reset to the computer after a selectable period. This is done by writing to the card base address to reset the internal counter. This is usually done in the main loop of your program. Utility software is included for DOS, Windows 3.1/95/NT, OS/2 and UNIX.</i>	150.00	165.00
17070-12	Watch Dog Timer Card PCI <i>If your application program locks up, this card will apply a hardware reset to the computer after a selectable period. This is done by writing to the card base address to reset the internal counter. This is usually done in the main loop of your program. Utility software is included for DOS, Windows 3.1/95/NT, OS/2 and UNIX. For full details and software see www.pciwatchdog.com</i>	271.82	299.00

Data Logging & Control - Relay

17004-12	16 Channel Reed Relay Output Board <i>This card provides 16 SPDT relays to drive 16 different output lines. Maximum contact rating is 150VDC/2A and 125VAC/2A and breakdown voltage AC/DC 500V minimum. Includes one 26-pin flat cable. It interfaces to a PC via the 17002 or 17054 Industrial Control Card.</i>	271.82	299.00
AX756-12	24 CH Relay Actuator Panel <i>The AX756 relay actuator panel is designed for control applications. It contains 24 channel electro-mechanical SPDT relays driven by 24-bit digital output port of AX5214 and AX56014M digital I/O module of AX5611C series boards. Each switch can handle 2 amp at 100VDC or 125 peakVAC. The normal open, normally closed and common contacts of each relay are brought out strip connections.</i>	334.55	368.00
PIODC5A-12	AC SSR 200V 5A for PI940 <i>DC Solid State O/P module for 8 channel SSR I/O and 8 Opto isolated I/P expansion board (Cat. No. PI940). Rated at 200VDC, 5A.</i>	48.86	53.75
PIOAC5A-12	DC SSR AC 5A for PI940 <i>AC Solid State O/P module for 8 channel SSR I/O and 8 Opto isolated I/P expansion board (Cat. No. PI940). Rated at 240VAC, 5A.</i>	48.86	53.75
ACLD779-12	Relay Isolated Amplifier & Multiplexer <i>Features 1000VDC channel to channel and input to output isolation. It multiplexes 8 differential inputs into an analog input and has cold junction compensation for thermocouple input. The instrumentation amplifier has switch selectable gains of 1, 10, 50, 100, 200, and 1000. There are built-in conditioning functions for signal filtering and it operates from a single +5v power supply. It may be connected to the ACL812PG or ACL711B.</i>	756.36	832.00

Data Logging & Control - Software

ACL17050-12	Data Acquisition DLL for A/D D/A Win 95 <i>Top performance DLL data acquisition drivers for developing custom applications under Windows 95 for ACL series Multi-Function Data Acquisition cards (ACL-8112, ACL-8111, ACL-6126). These drivers are all DLL (Dynamic-Link Library) and can work with any Windows programming language that allows calls to a DLL, such as C/C++ & Visual Basic.</i>	400.91	441.00
ACL17049-12	Data Acquisition DLL for A/D D/A Win NT <i>Top performance DLL data acquisition drivers for developing custom applications under Windows NT for ACL series Multi-Function Data Acquisition cards (ACL-8112, ACL-8111 and ACL6126). These drivers are all DLL (Dynamic-Link Library) and can work with any Windows programming language that allows calls to a DLL, such as C/C++ & Visual Basic.</i>	401.82	442.00
ACL17048-12	Data Acquisition DLL for Dig I/O Win 95 <i>Top performance DLL data acquisition drivers for developing custom applications under Windows 95 for ACL series Digital I/O cards ACL-7120, ACL7125 and PET-48DIO. These drivers are all DLL (Dynamic-Link Library) and can work with any Windows programming language that allows calls to a DLL, such as C/C++ & Visual Basic.</i>	239.09	263.00
ACL17047-12	Data Acquisition DLL for Dig I/O Win NT <i>Top performance DLL data acquisition drivers for developing custom applications under Windows NT for ACL series Digital I/O cards ACL-7125, ACL-7120 and PET-48DIO. These drivers are all DLL (Dynamic-Link Library) and can work with any Windows programming language that allows calls to a DLL, such as C/C++ & Visual Basic.</i>	239.09	263.00
ACL17046-12	Data Acquisition Software Kit Win95 <i>The kit comprises of a high performance data acquisition software driver for developing custom applications with the ACL series data acquisition cards as well as demonstration programs in C/C++ and Visual Basic.</i>	525.45	578.00
ACL17051-12	LabVIEW Driver for ACL DIO Cards <i>Link the ACL series Digital I/O cards to LABVIEW's virtual instruments (VI's) to produce interactive instrument panels. It supports ACL-7120, ACL-7125 and PET-48DIO cards.</i>	308.18	339.00
ACL17052-12	LabVIEW Driver for ACL M/function Cards <i>Link the ACL series Multi-Function Data Acquisition cards to LABVIEW's virtual instruments (VI's) to produce interactive instrument panels. It supports ACL-7120, ACL-7125 and PET-48DIO.</i>	354.55	390.00
17029-12	Opto / Relay I/O Control Software <i>Control software to simply program the ACL725 and the FPC046 opto isolated input and reed relay output cards. If you need custom software for any of our control cards, give us a call.</i>	168.18	185.00

Data Logging & Control - Terminal Boards

AX750-12	General Purpose Screw Terminal Panel <i>General purpose screw terminal panel, with 1 metre cable and 50-pin connector, convenient connection interface for A/D, D/A and DIO signals. It has standoffs to allow table-top operation and provides easy connection, via 80 barrier strip connections, to all analog and digital I/O signals to the AXIOM DA & C series boards.</i>	203.64	224.00
17033-12	Parallel Port 12 Bit A/D Term Board <i>Plugs into the parallel port A/D modules and provides terminal blocks and breadboard area.</i>	71.82	79.00
ACL17053-12	Terminal Board 16 Opto 8 Relay <i>An external terminal board which connects via 50 pin ribbon cable. It provides 16 opto isolated inputs and 8 single pole double throw reed relay outputs, the relay coils are 12 Volt. It has 24 LEDs for line status indication and is suitable for use with ACL7122, PET48DIO and ACL7124.</i>	438.18	482.00
17010-12	Terminal Board for 17001 AD/DA <i>For cat no 17001. It includes 1 ribbon cable.</i>	117.27	129.00
ACLD9137-12	Terminal Board for ACL 7125 etc <i>A screw terminal board which plugs directly into the DB37 connector on the back of ACL cards. It is suitable for use with ACL8111, ACL8112, ACL8113, ACL6126, ACL8454, ACL7125 and ACL7225.</i>	130.00	143.00
ACLD8125-12	Terminal Board for ACL 8112 <i>Uses a DB37 connector to connect to an ACL8112 card. Has onboard cold junction compensation and breadboard area for signal conditioning circuitry. Includes screw type terminal connectors.</i>	224.55	247.00
ACLD9881-12	Terminal Board for ACL 8113 <i>Suitable for the ACL-8113, it connects via a DB37 cable which is included with the board.</i>	143.64	158.00
3067-12	Terminal Board for SI8255-1 DIO <i>Designed for Cat No SI8255-1 it includes 2 Ribbon Cables, 64 Screw terminals and power LED.</i>	162.73	179.00

Device Programmers - EPROM Programmers

3442-12	Eprom Adapter DIP-32 to PLCC-32 (512K) <i>Supports 32pin PLCC EPROM ranging from 2764 to 27512.</i>	301.82	332.00

Device Programmers - EPROM Programmers

Cat No	Description	RRP	Ex GST	Inc GST
3104-12	EPROM Eraser <i>Combining good performance and low cost, the DATARASE II ACT EPROM eraser accommodates 4 devices and up to 40 pin packages. It suits small-scale developers. Timer is adjustable from 2 to 24 minutes. Plastic construction.</i>	180.91		199.00
3159-12	EPROM Writer Parallel 1 Burner 32 pin 8 <i>Manufactured in the USA, this is one of our more popular programmers. It connects to LPT1, 2 or 3 and the software automatically searches for the connection. It has a 32 pin ZIF socket and will program from 16k to 8M. A large range of optional adapters are available, including:- 40 pin adapter, serial adapter for 8 pin serial EEPROMs, 874X adapter, 875X adapter, 5 gang 28 pin socket, 2716-27256 EPROM emulator adapter, PLCC adapter, Pic adapter, 16 pin X4 & X8 adapter, Static RAM tester adapter and a 2708 adapter (Cat 3293). It accepts binary, Intel/Extended Intel, Motorola S19/S28/S37 and Tektronics Hex formats. Windows based programming software operates under Windows 95/98/NT/2000/XP.</i>	435.45		479.00
3473-12	EPROM Writer Parallel 1 Burner 32/28/24 <i>Manufactured in the USA, this is one of our more popular programmers. It connects to LPT1, 2 or 3 and the software automatically searches for the connection. It has a 32 pin ZIF socket and will program from 16k to 8M. A large range of optional adapters are available, including:- 40 pin adapter, serial adapter for 8 pin serial EEPROMs, 874X adapter, 875X adapter, 5 gang 28 pin socket, 2716-27256 EPROM emulator adapter, PLCC adapter, Pic adapter, 16 pin X4 & X8 adapter, Static RAM tester adapter and a 2708 adapter. It accepts binary, Intel/Extended Intel, Motorola S19/S28/S37 and Tektronics Hex formats. Windows based programming software operates under Windows 95/98/NT/2000/XP.</i>	425.45		468.00
3293-12	EPROM Writer Parallel 2708 Adapter <i>A 2708 adapter for programming three supply 2708 EPROMs. An optional adapter for the Pocket Parallel Port EPROM Programmer (Cat.No.3159).</i>	790.00		869.00
3124-12	EPROM Writer Parallel 40 pin Adapter <i>EP-16: A 40-pin adapter for 16-bit EPROMs (27C210, 27C220, etc). Optional adapter for Pocket Parallel Port EPROM Programmer (Cat. No. 3159).</i>	166.36		183.00
3161-12	EPROM Writer Parallel 5 Gang Adapter <i>An adapter for cat no 3159 that allows five 28 pin EPROMs to be programmed at once.</i>	217.27		239.00
3291-12	EPROM Writer Parallel 8 pin Serial EEPR <i>Adapter for 8 pin serial EEPROMs (24(C)XX, 85(C)XX & 93(C)XX). Optional adapter for Pocket Parallel Port EPROM Programmer (Cat. No. 3159).</i>	156.36		172.00
3158-12	EPROM Writer Parallel 82S & 74SXXX Adap <i>For programming 16 pin X4 & X8 PROMs (82S / 74SXXX). Optional adapter for Pocket Parallel Port EPROM Programmer (Cat. No. 3159).</i>	321.82		354.00
3292-12	EPROM Writer Parallel 874X Adapter <i>874X Adapter: For programming 8741/42/48 & 49 MCU's. Optional adapter for Pocket Parallel Port EPROM Programmer (Cat. No. 3159).</i>	152.73		168.00
3286-12	EPROM Writer Parallel 875X Adapter <i>For programming 8751/52/54 & 58 MCU's. Optional adapter for Pocket Parallel Port EPROM Programmer (Cat. No. 3159).</i>	156.36		172.00
3562-12	EPROM Writer Parallel AVR Adapter <i>For programming Atmel 89C1051 (12V) 1K X 8 20 Pin 89C2051 (12V) 2K X 8 20 Pin AT90S1200 (12V) 1K X 8 20 Pin AT90S2313 (12V) 2K X 8 20 Pin AT90S4414 (12V) 4K X 8 40 Pin AT90S8515 (12V) 8K X 8 40 Pin 89C4051 (12V) 4K X 8 20 Pin It is an optional adapter for Pocket Parallel Port EPROM Programmer (Cat. No. 3159).</i>	162.73		179.00
3296-12	EPROM Writer Parallel EPROM Emulator Ad <i>Will emulate 2716 to 27256 EPROMS. Optional adapter for Pocket Parallel Port EPROM Programmer (Cat. No. 3159).</i>	435.45		479.00
3137-12	EPROM Writer Parallel Lo Voltage Adapte <i>Allows the programmer to be used with 3 Volt devices.</i>	90.00		99.00
3287-12	EPROM Writer Parallel Pic 16C5X Adapter <i>For programming 16C5X Pic Microcontrollers. Optional adapter for Pocket Parallel Port EPROM Programmer (Cat. No. 3159).</i>	208.18		229.00
3290-12	EPROM Writer Parallel PLCC Adapt 28 & 3 <i>Adapter for PLCC packaging, supports both 28 and 32 pinouts. Optional adapter for Pocket Parallel Port EPROM Programmer (Cat. No. 3159).</i>	180.91		199.00

Device Programmers - EPROM Programmers

3363-12	EPROM Writer Parallel PLCC Adapter 44 p <i>For programming 8751/52/54 & 58 MCU's. Optional adapter for Pocket Parallel Port EPROM Programmer (Cat. No. 3159).</i>	156.36	172.00
---------	---	--------	--------

Device Programmers - Universal Programmers

3167-12	Universal Programmer & Tester Parallel <i>A flexible universal programmer that connects via a parallel port.</i>	1715.45	1887.00
3107-12	Universal Programmer adapter ADP-68701	285.45	314.00
3281-12	Universal Programmer adapter ADP-751	385.45	424.00
X1126-12	Universal Programmer adapter ADP-EP32	285.45	314.00
X1181-12	Universal Programmer Adapter ADP-RAM1A	531.82	585.00
3156-12	Universal Programmer Adapter ADP-Z86E08	386.36	425.00
3049-12	Universal Programmer Adapter PLCC-MPU51	256.36	282.00

Disk Drives - Accessories

6243-12	2.5in to 3.5in HDD Mounting Frame <i>Includes mounting rails to allow 2.5in HDD to be mounted in a 3.5in bay as well as screws and 5.25in power/IDE cable adapter.</i>	20.91	23.00
6072-12	3.5 Front Access Drive in 5.25in Frame <i>Allows a 3.5in Floppy, Zip, LS-240 drive to be mounted and electrically connected in a 5.25in bay.</i>	16.00	17.60
6115-12	3.5in Floppy Disk Drive Lock <i>Prevent unauthorised down loading of your data, this device clips onto the front of drive and locks in place to prevent use. All key locks are different for further security.</i>	35.45	39.00
6073-12	3.5in HDD 5.25in Mounting Frame <i>Consists of mounting rails to allow a 3.5in hard drive to fit a 5.25in bay.</i>	14.55	16.00
6728-12	Mobile Rack Frame Only for Cat 6660	35.45	39.00
6612-12	Mobile Rack HDD Frame Kit SCSI - 50 Pi <i>The kit consists of a 5.25" mounting rack and a removable tray for a 3.5" hard disk. A latch lock prevents inadvertant or unauthorised removal. Includes a power switch and cooling fan. Take your "computer" home or put it in the safe at night.</i>	17.27	19.00
6802-12	Mobile Rack HDD Frame Kit IDE All Alumi <i>Designed for IDE hard drives with a data transfer rates of 133 MB/s in a removable rack. The tray and frame are both made of aluminium with a plastic front panel. There is a power LED as well as an HDD activity LED. It also has a ball bearing fan.</i>	71.82	79.00
6615-12	Mobile Rack HDD Frame Kit IDE UATA-100 <i>The kit consists of a 5.25" mounting rack and a removable tray for a 3.5" hard disk. It supports Ultra-DMA 100 speed drives. A latch lock prevents inadvertant or unauthorised removal. Includes a power switch and three cooling fans. Take your "computer" home or put it in the safe at night. Software for hot-swap feature does not support Linux, Win NT4/2000/XP. Also, backwards compatible UATA-33</i>	35.45	39.00
6817-12	Mobile Rack HDD Frame Kit IDE UATA-100 <i>Frame only part of the kit 6615</i>	20.91	23.00
6769-12	Mobile Rack HDD Frame Kit IDE UATA-133/ <i>This removable drive case permits you to move your IDE devices from one machine to another AND lock them in place.</i>	35.45	39.00
6787-12	Mobile Rack HDD Frame Kit SATA All Alum <i>Designed for SATA hard drives to provide data transfer rates of 150 MB/s in a removable rack. The tray and frame are both made of aluminium with a plastic front panel. It has a 64pin industrial DIN type connector and allows hot swapping.</i>	126.36	139.00
6236-12	Mobile Rack IDE to SATA 7200rpm Alumi <i>Standalone parallel ATA to serial ATA device bridge chip. Compliant with ATA specifications, Compatible with Ultra ATA133, Integrated serial ATA link and PHY logic, Full compliant with serial ATA 1.0 specifications, Support serial ATA generation 1 transfer rate of 1.5Gb/s, Support ATAPI device</i>	90.00	99.00
6327-12	Removable HDD Frame Kit SCSI Fast Wide <i>The kit consists of a 5.25" mounting rack and a removable tray for 3.5" drives. A slide switch unlocks the tray from the frame. A power LED and HDD access LED is located on the slide switch. Simply connect the power and SCSI cable to the drive and place the drive inside the cartridge. A metal top cover protects the hard disk drive.</i>	174.55	192.00

Disk Drives - CD ROM Drives

6694-12	CD ROM Duplicator 1 to 3 Case and Contr <i>A stand alone case with five 5.25in bays, 300W power supply and a 1 to 3 CD duplicator controller with LCD display.</i>	790.00	869.00

Disk Drives - CD ROM Drives

6702-12	CD ROM IDE 52x Sony	53.64	59.00
6385-12	CD ROM IDE Controller Card ISA <i>When you only have one IDE channel and two hard drives, this card will allow you to simply add a CD ROM drive.</i>	40.91	45.00
6706-12	CD ROM Verbatim CDR 700Mb - 50 Spindle <i>This Verbatim 700MB 48x recordable compact disc provides 80 mins of recording.</i>	26.36	29.00
6781-12	CD RW IDE Sony 52x52x32 <i>This unit comes bundled with NERO Software</i>	80.91	89.00
6777-12	CDRW/DVD ROM Combo Slim <i>This is a great little drive combining a DVD ROM and a CDRW drive. With CD writing speeds up to 24x it is the perfect addition for your laptop or Mini ITX computer.</i>	226.36	249.00
6668-12	PC Card Drive ATA to IDE Front Access H <i>This unit is an ATA Flash card drive which connects to the IDE port of a standard PC. It can use a PCMCIA ATA Flash, ATA Hard Disk Drive or Compact Flash card (with an adapter Cat No 21028). The system BIOS accesses the card directly as an IDE Drive. The computer can be configured to boot from the Flash Card - ideal for industrial control. This hardware, in conjunction with the firmware BIOS allows hot swapping of the memory cards. Supports Win98/ME/2000/XP. The drive has a 3.5" FDD form factor, allowing it to mount in a 3.5" FDD bay, the 40 pin connector is connected directly to an IDE interface. ATA devices do not require card and socket services.</i>	90.00	99.00

Disk Drives - DVD Drives

6849-12	CD IDE DVD+/-RW Dual Layer 16x SONY OEM	144.55	159.00
6716-12	DVD ROM SONY 16x	62.73	69.00
6848-12	DVD+/-RW Dual Layer 16x Pioneer DVR-109 <i>Beige. Nero OEM Suite 3</i>	126.36	139.00

Disk Drives - Floppy Drives

6745-12	1.44Mb (3.5in.) External SONY USB Flopp <i>Windows and Mac compatible, Small and portable, stylish design</i>	80.91	89.00
6012-12	1.44Mb (3.5in.) Floppy Drive	17.27	19.00
6712-12	LS-240MB 3.5in Ultra HD FDD Internal <i>IBM or PC compatible with available E-IDE interface and BIOS support for removable media. 318Mb unformatted, 243Mb formatted. 1736 tracks x 2 side. 1500rpm, Drive dimensions 25.4mm H, 96 mm W, 126mm D.</i>	344.55	379.00
6713-12	LS-240MB 3.5in Ultra HD FDD USB <i>IBM or PC compatible with available E-IDE interface and BIOS support for removable media. 318Mb unformatted, 243Mb formatted. 1736 tracks x 2 side. 1500rpm, Drive dimensions 25.4mm H, 96 mm W, 126mm D.</i>	399.09	439.00

Disk Drives - Hard Drives

6749-12	HD SCSI LVD 160 36GB SEAGATE 15000 RPM SCSI 68 PIN CONNECTION	908.18	999.00
---------	---	--------	--------

Disk Drives - PCMCIA

6741-12	CF Card Drive ATA to IDE Front Access <i>This unit is a Compact Flash ATA Flash card drive which connects to the IDE port of a standard PC. The system BIOS accesses the card directly as a IDE Drive. The computer can be configured to boot from the Compact Flash Card - ideal for industrial control. This hardware, in conjunction with the included software allows hot swapping of the memory cards. Supports Win98/ME/2000/XP.</i>	126.36	139.00
---------	--	--------	--------

The drive has a 3.5" FDD form factor, allowing it to mount in a 3.5" FDD bay, the 40 pin connector is connected directly to an IDE interface. ATA devices do not require card and socket services. A similar model is also available which has rear access for PC Card/PCMCIA cards.

6771-12	IDE to CF Card Adapter <i>A small adapter that allows a CF card to be plugged straight into an IDE port on your motherboard.</i>	40.91	45.00
---------	--	-------	-------

6794-12	MAC - PC Monitor Adaptor for PC to use <i>A small adapter that allows a PC to use a Mac monitor.</i>	18.64	20.50
---------	--	-------	-------

6539-12	PCI to PCMCIA Adapter - Use PCMCIA Card <i>The PCI to PCMCIA adaptor adds a PCMCIA port to any desktop, so you don't have to buy two of everything - one for your notebook and one for your desktop. Its features include: Support Type I, II and III PCMCIA Cards Compliant with PCI Local Bus Specification 2.2 Compliant with PC Card Standard Release 8.0 Specification Support 16-bit (PCMCIA 2.1/JEIDA 4.2) and 32-bit (CardBus) PC card with 3.3V/5V operation Support Hot Swapping One rear access PC Card (Type I/II/III PCMCIA card) slot Support ATA Flash Card, PC Card Adapter, Bluetooth and Wireless LAN Card , etc</i>	62.73	69.00
---------	--	-------	-------

6458-12	PCMCIA Drive & Cont & 3.5 in FDD Combo <i>It's a floppy drive and a PCMCIA drive all in the physical size of a standard 3.5 in floppy drive. The floppy drive plugs into a standard controller while the PCMCIA drive plugs into its' own ISA controller card.</i>	180.91	199.00
---------	--	--------	--------

6121-12	PCMCIA Drive & ISA Cont Int 2 Sockets <i>Transfer your PCMCIA based data to your desktop PC. This "drive" supports two type I (memory cards or I/O) or one Type II card (Fax/Modem, network, SunDisk ATA interface cards, Intel Corporation's ExCA cards) and one Type III card (ATA 1.3" and 1.8" hard disk drives).</i>	135.45	149.00
---------	---	--------	--------

6469-12	PCMCIA Drive ATA to IDE Front Access C <i>This unit is an ATA Flash card drive which connects to the IDE port of a standard PC. It can use a PCMCIA ATA Flash, ATA Hard Disk Drive or Compact Flash card (with an adapter Cat No 21028).</i>	108.18	119.00
---------	--	--------	--------

Disk Drives - Removable Media

6807-12	USB 2.0 Portable Storage Drive 128Mb <i>Simplest method of convenient, fast and reliable data storage. With a transfer rate of up to 480Mbps. Comes with security zone software that allows you to partition the memory size and password protect your private data. Package content: Pocket disk, USB extension cable, Necklace, driver and application software.</i>	42.73	47.00

Interface Cards - Combination Cards

2794-12	Serial/Parallel 2S(16650)/1P EPP/ECP IS <i>A serial/parallel card where each serial port is configurable as COM1 to COM8 on IRQs 3 to 15. The LPT port is ECP/EPP/SPP/PS/2 compatible and can be configured as LPT1 to LPT 6 and can also be set on IRQ 3 to 15. Both serial ports are fitted with 32 Byte FIFO compatible with the 16C650 with clock speeds of 1.8432 - 7.372MHz. Each serial and parallel port can be disabled separately.</i>	146.36	161.00
2255-12	Serial/Parallel Card 2S/1P 16550 Hi IRQ <i>A serial/parallel card where each serial port is configurable as COM1 to COM8 on IRQs 3 to 15. The LPT port is bi-directional and can be configured as LPT1 to LPT 6 and can also be set on IRQ 3 to 15. Both serial ports are fitted with 16 Byte FIFO compatible with the 16C550. Each serial and parallel port can be disabled separately.</i>	101.82	112.00
2620-12	Serial/Parallel Card 2S/1P PnP PCI <i>Includes two serial ports and one bi-directional printer port on the PCI BUS. Installation is simple with the Plug n Play BIOS support. Operating system support includes DOS, Win95 and WinNT.</i>	118.18	130.00
2842-12	Serial/Parallel Card 2S/1P PnP PCI Low <i>Includes two serial ports and one ECP/EPP/SPP/BPP port on the PCI BUS. Installation is simple with the Plug n Play BIOS support. Operating system support includes DOS, Win9x ME and WinNT/2000. DB44M to 2xDB9F & 1x DB25F cable included.</i>	108.18	119.00
2274-12	Serial/Parallel Card 2S/2P 16550 Hi IRQ <i>Combination cards where serial ports are configurable as COM 1-4 with each port capable of being set to IRQ3, 4, 5, 7, 9, 10, 11, 12, 14 or 15. They also contain addresses 2A0, 2A8, 180 and 188 for SCO UNIX, XENIX on IRQs 3 to 15. The parallel ports may be jumpered as LPT1-2, 2-3 or 1-3 on IRQs 5, 7, 9, 11 or 12. Serial ports have DB9 connectors. Parallel ports can be disabled</i>	89.09	98.00
2298-12	Serial/Parallel Card 4S/3P 16550 Hi IRQ <i>These combination cards allow each serial port to be configurable as COM1 to 4 on IRQs 3 to 15. All serial ports have 16C550 compatible UARTs. The LPT ports can be configured as LPT1, LPT2 or LPT3 and can also be set on IRQ 3 to 15. They are jumper selectable as standard port or bi-directional.</i>	209.09	230.00

Interface Cards - Display Cards

3545-12	Low Profile Backplane to suit FX5200/MX	16.36	18.00
3520-12	VGA AGP GeForce4 64MB MX440 Video Card	62.73	69.00
3557-12	VGA AGP Lead-Tek FX6800 256MB Ultra Vid	1080.91	1189.00
3503-12	VGA AGP Matrox Parhelia 512 OEM	908.18	999.00
3568-12	VGA AGP MX4000 Video Card 8xAGP TVOUT	80.91	89.00
2223-12	VGA ISA 1024x768 16 bit 1MB TR8900D <i>ISA VGA 16 bit TR8900D graphics card with super-high resolution, 256-colour capability, fast screen redraw and compatibility with most software and hardware. It is compatible with Multi-Sync and PS/2 monitors and features 1024 x 768 70Hz refresh.</i>	66.36	73.00
3548-12	VGA PCI FX5200 128MB Video Card TV Out <i>This card comes with 2 backplanes, full height and low profile.</i>	126.36	139.00
3474-12	VGA PCI SIS 32MB Video Card	68.18	75.00
3566-12	Video Card Nvidia PCIEx 6200TC 256Mb DV <i>XpertVision GF 6200TC (TurboCache) 256MB 64bit (Local Memory: 128MB 64bit) DDR, The Additional Local Memory provides Better Performance, PCI-Express interface, I/O connections include: DVI, TV Out, HDTV support, supports DirectX 9.0 and OpenGL 1.5; NVIDIA technologies include: CineFX 3.0, UltraShadow II, Intellisample 3.0, nView, Digital Vibrance. Nvidia TurboCache technology shares the bandwidth and capacity of dedicated video memory and dynamically available system memory for turbocharged performance and larger graphics memory. For full 256MB support, 512MB system memory required.</i>	135.45	149.00

Interface Cards - FireWire

2823-12	FireWire and USB 1.1 Combo Card <i>Our combination card provides 3 external FireWire IEEE 1394 (with one of them re-routed to internal) connectors plus a FireWire IEEE 1394 connection mounted for an internal device. Also there are two external USB connectors. The USB ports are V1.1 compliant. Includes Video Studio SE V4.0, this can be upgraded at time of purchase to Media Studio 6.0 VE, using Cat No 70406.</i>	117.27	129.00
2877-12	FireWire and USB 2.0 Combo Card <i>A 4-port USB 2.0 & 3-port FireWire combination card suitable for PCs. It has three USB & two FireWire external connectors and one USB and one FireWire internal connectors. The USB ports support USB 1.1 and USB 2.0 devices and are EHCI compliant - 480Mbps USB 2.0 as well as OHCI compliant - 12Mbps USB 1.1. The FireWire ports are OHCI 400Mbps compliant. Both the USB and FireWire ports auto select the appropriate speed and auto-sense USB 2.0/1.1 devices. USB 2.0 drivers for Windows 98 SE, ME, Windows 2000, XP are included.</i>	153.64	169.00

Interface Cards - FireWire

2997-12	FireWire Card PCI 3 + 1 ports 1394B/A <i>The 1394B standard is a high-speed serial bus designed to deliver high data transfer speeds at a low cost, and with a low degree of latency required by a peripheral bus or by a backup to a traditional parallel bus. The card is compatible with 32 and 64 bit PCI BUS. The card has two external 1394B ports, and two legacy 1394A ports, one internal and one external. The card is compatible with Windows 98SE, ME, 2K, XP and Mac OS.</i>	90.00	99.00
2998-12	FireWire Card PCI 3 ports 1394B/A 64bBc <i>Suitable for 32 bit and 64 bit PCI BUS (64bBc - bit BUS compatible). Has 2 x 9 pin 1394B and one 6 pin 1394A connectors on the back plane.</i>	90.00	99.00
2621-12	FireWire Card with Video Studio SE <i>Connect your digital video camera to your PC. Our Firewire card allows IEEE 1394 FireWire devices (most digital camcorders available today) to connect to your PC at speeds up to 400Mbps. A maximum of 63 FireWire devices can be connected together in a similar manner to USB devices. The card has three external and one internal connectors to allow connections to hard drives, scanners, VCRs, HDTV, printers etc. Editing your videos is simplified with the bundled Ulead Video Studio V7.0 SE software. Win98 and Win 2000 drivers are also included, (not Win NT). A 6 pin to 4 pin 2m cable completes the package. Microsoft has chosen FireWire, in lieu of USB 2.0, as the standard interface for Windows XP.</i>	71.82	79.00

Interface Cards - Floppy Controllers

2878-12	SCSI Ultra 2 Wide PCI Controller <i>68 pin 160Mb "TEKRAM"</i>	335.45	369.00
---------	---	--------	--------

Interface Cards - Hard Drive Controllers

2902-12	DynaBacker RAID Rack <i>Two hard 2.5inch drives in separate cartridges for realtime backup. The assembly fits into one 5.25inch bay. An USB 2.0 module (Cat No 2903) allows the cartridges to be taken to another computer and accessed via a USB port. Ideal for taking your office backup home. Excludes the drives.</i>	453.64	499.00
2903-12	DynaBacker USB 2.0 Adapter <i>Allows a cartridge from Cat No 2902 to be connected to another computer via a USB port.</i>	153.64	169.00
2812-12	HDD Cont IDE Raid Cont - Spare Frame	96.36	106.00
2564-12	HDD Cont ISA BIOS Card to Invoke LBA <i>If your mother board BIOS does not support LBA (Logical Block Addressing) or hard drive capacities greater than 528MB to 8GB. This BIOS card will set up the mother board BIOS correctly to overcome these limitations by simply plugging it in and turning on your computer.</i>	58.18	64.00
2055-12	HDD Cont ISA IDE 2HDD/FDD 2 16550S 1P&G <i>A versatile interface card that supports 2 FDD, 2 HDD As well as 2 16550 compatible serial ports, 1 ECP/EPP printer port and 1 games port.</i>	53.64	59.00
2588-12	HDD Cont ISA IDE 4HDD2 16550 1P/1G BIOS <i>This enhanced IDE card with multi I/O supports 4 IDE drives with capacities greater than 528MB even if the motherboard BIOS doesn't accomodate Logical Block Addressing. It is ATAPI compatible and supports two floppy drives, two 16550 serial ports, one SPP/EPP/ECP parallel port and one game port. Software drivers are not needed for DOS, Windows, Windows 95/NT, OS/2, SCO Unix etc.</i>	157.27	173.00
2565-12	HDD Cont ISA IDE 4HDD2FDD Mode3 BIOS Cd <i>This Controller BIOS card will set up the mother board BIOS correctly in LBA mode to overcome the 528 MB limitation by simply installing the controller and turning on your computer. Provides support for four drives each with a capacity up to 8.4GB and data transfer rate of 8.33 Mb/sec.</i>	130.91	144.00
2585-12	HDD Cont ISA SCSI-II FAST 16 Bit <i>A low cost 16 Bit SCSI-II FAST controller with a data transfer rate of 10 MB/s. It is fully compatible with the Adaptec-1520/22 and will connect up to 6 SCSI devices. Software drivers are included for DOS and Windows, while it is natively supported by Windows 95, Windows NT, SCO Unix R3.2.4 and later, Novell Netware 4.x and later and OS/2 V2x, Warp and later. It has an external DB25 female plug.</i>	92.73	102.00
2906-12	HDD Cont PCI 4 Channel SATA Rocket RAID <i>Transfer rates of up to 1.5Gb/s are possible with this PCI interface card. It supports 4 SATA drives for video and audio editing, database servers and high performance computing. Can be configured for RAID 0, 1, 5, 10 and JBOD.</i>	226.36	249.00
2905-12	HDD Cont PCI 8 Channel SATA Rocket RAID <i>Sustained transfer rates of 450MB/s are possible with this 64 bit PCI interface card. (also works in a 32 bit slot). It supports 8 SATA drives for video and audio editing, database servers and high performance computing. Can be configured for RAID 0, 1, 5, 10 and JBOD. Supports Win 9x/ME/NT/2000/XP.</i>	590.00	649.00

Interface Cards - Hard Drive Controllers

2886-12	HDD Cont PCI IDE RAID Ultra DMA 133 Std <i>This combined standard and RAID controller has dual Ultra DMA133 IDE channels designed to provide data security and performance. It supports RAID 0, 1 and 10 and is suitable for use with Windows 95/98, NT, 2000 & XP. Includes Std and Low Profile back plane brackets.</i>	90.00	99.00
2708-12	HDD Cont PCI SCSI Adaptec MIO-29160 Ult <i>Single channel card. Connects SCSI hard drives and other SCSI hard drives, internally and externally. 64-bit PCI (32-bit compatible). One 68pin internal connection for LVD SCSI, one 68pin for Ultra Wide SCSI and one 50pin for Ultra SCSI. Will handle up to 15 devices. Windows NT 4.0, 95, 98, 2000. adaptec EZ-SCSI software and supported operating system drivers.</i>	544.55	599.00
2694-12	HDD Cont PCI SCSI Ultra2 DUAL <i>A high performance PCI Dual Ultra2 SCSI-3 adapter with data transfer rate up to 80 MB/s It features PCI Bus support for both 32 and 64 Bit.</i>	390.00	429.00
2584-12	HDD Cont PCI SCSI-II FAST <i>A SCSI-II FAST PCI controller with a data transfer rate of 10 Mb/s. It is fully PCI DMA Bus Master and Plug & Play compliant and will connect up to 7 SCSI devices. SYMBIOS SDMS (SCSI Device Management System) software is bundled with the card. It supports DOS and Windows, Windows 95, Windows NT, SCO Unix, Interactive UNIX, NeXTSTEP, UnixWare, Novell Netware, OS/2 etc. It has an external HD50 female socket in addition to the internal IDC50 male header.</i>	135.45	149.00
2586-12	HDD Cont PCI SCSI-II Ultra FAST-20 <i>A SCSI-II Ultra FAST-20 PCI controller with a data transfer rate of 20 MB/s. HD 50 on back plane</i>	108.18	119.00
2874-12	HDD Controller IDE Raid & Hot Swap Fram <i>The RAID frame includes the controller and two removable frames which accept two IDE drives. The controller provides RAID Level 1 (disk mirroring) and supports hot swappable drives and auto-rebuild in the event a new drive is installed, without user intervention. (Can also be used as an on-line hard drive copier) The frame fits into two 5.25" bays. EIDE, ATA-100, Ultra DMA 66/33 or PIO 4 hard drives are supported. The complete assembly is operating system independant and appears as a standard IDE drive to the hdd controller.</i>	708.18	779.00

Interface Cards - Miscellaneous Cards

2014-12	XBOX Wireless Controller <i>Powered by the latest 2.4GHz Frequency Hopping technology, this controller has been designed with every feature that a gamer would demand. Equipped with pressure-sensitive buttons, gamers will be able to enjoy accurate & responsive game movements with every single touch. In addition, the built-in vibration feedback motors stimulate real-life crashes and explosions, bringing the gaming sensation closer to you.</i>	71.82	79.00
---------	--	-------	-------

Interface Cards - Parallel Cards

2337-12	1 Port EPP Parallel DB25 PCMCIA <i>High speed parallel adapter conforming to IEEE 1284 EPP standards with a DB-25 connector. Certified for Windows 95/98/2000/NT/XP. Support for HP palmtops upon request. Low power consumption to maximise battery life.</i>	362.73	399.00
2923-12	Converter 12V IDE to 2 x Serial ATA <i>Converts the common IDE power connector to the new Serial ATA type. (Same Voltage)</i>	10.00	11.00
2899-12	Converter 12V IDE to Serial ATA <i>Converts the common IDE power connector to the new Serial ATA type. (Same Voltage)</i>	9.05	9.95
2891-12	Converter IDE Drive to Serial ATA - Hor <i>Plugs directly into a standard IDE hard drive to provide a serial ATA interface. This model protrudes approx 40mm directly out from the back of the drive in a horizontal plane. (does not obscure the rear of the drive). Supports UDMA transfer rates of 66,100,133 and 150Mbps. (33Mbps is not supported). Suitable for use with ATAPI devices, CD ROMs, CD-R/RW etc. Includes one SATA cable and power adapter cable. No software necessary (OS support is provided by the SATA motherboard interface).</i>	71.82	79.00
2892-12	Converter IDE Drive to Serial ATA - Ver <i>Plugs directly into a standard IDE hard drive to provide a serial ATA interface. This model plugs into the IDE connector and extends the length of the drive by the thickness of the PCB and the SATA connector. The PCB is in the vertical plane. A cutout in the PCB provides access to the drive power connector and jumpers of most current drives. Supports UDMA transfer rates of 66,100,133 and 150Mbps. (33Mbps is not supported). Suitable for use with ATAPI devices, CD ROMs, CD-R/RW etc. Includes one SATA cable and power adapter cable. No software necessary (OS support is provided by the SATA motherboard interface).</i>	71.82	79.00
2893-12	Converter Mother Board IDE to Serial AT <i>This converter provides two serial ATA connectors from an IDE motherboard connector. Jumpers are provided to select master - Slave. It protrudes vertically from the motherboard. Supports UDMA transfer rates of 66,100,133 and 150Mbps. (33Mbps is not supported). Includes one power adapter cable. Supported by Windows 98/ME/NT4.0/4000/XP</i>	53.64	59.00

Interface Cards - Parallel Cards

Cat No	Description	RRP	Ex GST	Inc GST
2890-12	HDD Cont PCI IDE SATA Card One Ext One <i>New hard drives will be even faster with a Serial ATA interface. This PCI interface card allows you to fit one external and one internal serial ATA drive to mother boards that only have onboard IDE interfaces. Co-resides with existing onboard IDE devices. Includes one SATA cable. Support is provided for Win 98SE/ME/NT4.0/2000/XP.</i>	90.00		99.00
2872-12	HDD Cont PCI SATA Card Two Int Connecto <i>New hard drives will be even faster with a Serial ATA interface. This PCI interface card allows you to fit two internal serial ATA drives to mother boards that only have onboard IDE interfaces. Co-resides with existing onboard IDE devices. Includes one SATA cable. Power cable Cat No 2923, is not included. Support is provided for Win 98SE/ME/NT4.0/2000/XP & Linux. H/drives over 137Mb included</i>	90.00		99.00
2314-12	Printer Card 1 P LPT1-7 IRQ3-15 Bi-Dir <i>This bi-directional parallel port with an 32 byte FIFO buffer can be configured to LPT1(3BC), LPT2(378), LPT3(278), LPT4(368), LPT5(268), LPT6(358)or LPT7(258) and can also be set on interrupts 3 through to 15 (jumperable).</i>	46.36		51.00
2840-12	Printer Card 1 Port ECP/EPP/SPP PCI Low <i>A Low Profile ECP/EPP/SPP printer card using the PCI BUS. Installation is simple with its Plug n Play BIOS support. It is able to replace faulty mother board printer ports as LPT1/2. Operating system support includes DOS, Win9x ME and WinNT/2000/XP. Cable DB44M to DB25F included.</i>	85.45		94.00
2687-12	Printer Card 1 Port ECP/EPP/SPP PnP PCI <i>An ECP/EPP/SPP printer card using the PCI BUS. Installation is simple with its Plug n Play BIOS support. It is able to replace faulty mother board printer ports as LPT1/2. Operating system support includes DOS, Win95/98, NT 2000 and XP.</i>	80.91		89.00
2724-12	Printer Card 1 Port ECP/EPP/SPP PnP PCI <i>An ECP/EPP/SPP printer card using the PCI BUS. It will operate on 3.3V or 5V. Installation is simple with its Plug n Play BIOS support. It is able to replace faulty mother board printer ports as LPT1/2. Operating system support includes DOS, Win95/98/ME, NT, 2000,2003, XP and Linux.</i>	80.91		89.00
2235-12	Printer Card 1 Port LPT1-7 ECP/EPP ISA <i>Add the speed of an ECP/EPP parallel port to your computer. It contains all the necessary input/output signals to be configured as a Centronics printer port SPP, an ECP (compatible with IEEE1284 standard) or an EPP (compatible with EPP version 1.9 and 1.7) smart printer port. The ISA card can be configured as LPT1-7 with addresses 3BC, 378, 278, 368, 268, 358, 258 plus it provides 7 DMA settings for ECP mode. It supports ten IRQs 3, 4, 5, 7, 9, 10, 11, 12, 14 & 15. Data transfer rates up to 1MB/sec are possible compared to 180kB/sec with a Standard Parallel Port. Win 98 incl</i>	74.55		82.00
2618-12	Printer Card 1 Port PnP PCI <i>A bi-directional printer card with an 32 byte FIFO using the PCI BUS. Installation is simple with its Plug n Play BIOS support. It is able to replace faulty mother board printer ports as LPT1/2 or LPT2/3. Operating system support includes DOS, Win95 and WinNT....(NT4 and Win 2000 on our file server).</i>	62.73		69.00
2315-12	Printer Card 2 P LPT1-7 IRQ3-15 Bi-Dir <i>A bi-directional parallel port with an 32 byte FIFO buffer that can be configured to LPT1(3BC), LPT2(378), LPT3(278), LPT4(368), LPT5(268),LPT6(358) or LPT7(258) and set on interrupts 3 through to 15.</i>	60.00		66.00
2841-12	Printer Card 2 Port ECP/EPP/SPP PCI Low <i>A Low Profile ECP/EPP/SPP printer card using the PCI BUS. Installation is simple with its Plug n Play BIOS support. It is able to replace faulty mother board printer ports as LPT1/2. Operating system support includes DOS, Win95/98 ME and WinNT/2000. DB44M to 2xDB25F cable included.</i>	111.82		123.00
2688-12	Printer Card 2 Port ECP/EPP/SPP PnP PCI <i>An ECP/EPP/SPP printer card using the PCI BUS. Installation is simple with its Plug n Play BIOS support. It is able to replace faulty mother board printer ports as LPT1/2 as well as providing additional printer ports. Operating system support includes DOS, Win95/98 and WinNT.</i>	117.27		129.00
2236-12	Printer Card 2 Port LPT1-7 ECP/EPP ISA <i>This card is high in both quality and versatility, where each port has 7 selectable I/O addresses (26C,27C,258,268,278,378,3BC) and 10 selectable IRQs (IRQ3-IRQ15), plus 2 selectable DMA channels (1 & 3). You can also the select printer modes for each port between SPP(Bi-directional standard printer port) EPP(compatible with EPP version 1.9 and 1.7) and ECP (compatible with IEEE1284 standard).</i>	73.64		81.00
2619-12	Printer Card 2 Port PnP Bi-Dir PCI <i>A bi-directional printer card with an 32 byte FIFO using the PCI BUS. Installation is simple with its Plug n Play BIOS support. It is able to replace faulty mother board printer ports as LPT1/2 or LPT2/3. Operating system support includes DOS, Win95 and WinNT.</i>	99.09		109.00
2316-12	Printer Card 3 P LPT1-7 IRQ3-15 Bi-Dir <i>A bi-directional parallel port with an 32 byte FIFO buffer that can be configured to LPT1(3BC), LPT2(378), LPT3(278), LPT4(368), LPT5(268),LPT6(358) or LPT7(258) and set on interrupts 3 through to 15.</i>	88.18		97.00

Interface Cards - Serial Cards

2324-12	1 Port RS232 16550 COM1-4 PCMCIA <i>High speed serial adapter based on the 16550 UART chip capable of up to 115.8k baud with a DB-9 connector. Certified for Windows 95/98 and Windows CE and Windows NT compatible. Supports Apple Powerbook, Apple Newtown, Sharp Zaurus and HP palmtops. Low power consumption to maximise battery life.</i>	271.82	299.00
2297-12	1 Port RS232 16550 ISA COM1-8 IRQ3 to 1 <i>These serial cards provide Interrupts 3, 4, 5, 7, 9, 10, 11, 12 and 15 in conjunction with A 16550 UART as well as the flexibility of being configurable as COM1 - 8. One DB9 connector on the backplane.</i>	62.73	69.00
2616-12	1 Port RS232 16550 PnP PCI <i>A 32 bit PCI based serial card that uses the 16550 UART with a 16 bit FIFO and a baud rate up to 921.6 KBs. It is very easy to setup with its Plug n Play BIOS support. It can replace faulty on board serial ports as COM1/2 (can auto select next COM port and IRQ). Support is provided for DOS, Win3.1/9x/2000/NT and Linux.</i>	72.73	80.00
2850-12	1 Port RS232 16750 PnP PCI ReMap DOS I/ <i>A versatile low profile (as required by new Gateway etc computers) PCI serial card that can have the I/O ports re-mapped to 3F8, 2F8, 3E8, 2E8, a feat not possible with many PnP PCI serial cards. It solves the problem of software that will only work at these addresses when operating under DOS or Windows 3.1/95/98. In addition it has a 16750 UART with a 64byte FIFO buffer as opposed to our standard cards which have 16550 UARTs with a 16 byte FIFO buffer. They will operate at a baud rate up to 921.6 KBs. Operating system support is provided for DOS, Win3.1/9x/2000/NT and Linux.</i>	99.09	109.00
2921-12	1 Port RS232 16750 PnP PCI ReMap to DOS <i>A versatile PCI serial card that can have the I/O ports re-mapped to 3F8, 2F8, 3E8, 2E8, a feat not possible with many PnP PCI serial cards. It solves the problem of software that will only work at these addresses when operating under DOS or Windows 3.1/95/98. In addition it has a 16750 UART with a 64byte FIFO buffer as opposed to our standard cards which have 16550 UARTs with a 16 byte FIFO buffer. They will operate at a baud rate up to 921.6 KBs. Operating system support is provided for DOS, Win3.1/9x/2000/NT and Linux.</i>	95.45	105.00
2825-12	1 Port RS232 16750 PnP PCI ReMap to DOS <i>A versatile PCI serial card that can have the I/O ports re-mapped to 3F8, 2F8, 3E8, 2E8, a feat not possible with many PnP PCI serial cards. It solves the problem of software that will only work at these addresses when operating under DOS or Windows 3.1/95/98. In addition it has a 16750 UART with a 64byte FIFO buffer as opposed to our standard cards which have 16550 UARTs with a 16 byte FIFO buffer. They will operate at a baud rate up to 921.6 KBs. Operating system support is provided for DOS, Win3.1/9x/2000/NT and Linux.</i>	95.45	105.00
2239-12	2 Port RS232 16550 ISA COM1-8 IRQ3 to 1 <i>While providing Interrupts 3, 4, 5, 7, 9, 10, 11, 12 and 15 in conjunction with two 16550 UARTS, this card also has the flexibility of being configurable as COM1, 2, 3, 4, 5, 6, 7, or 8. Two DB9 connectors are provided.</i>	80.91	89.00
2722-12	2 Port RS232 16550 PCCard <i>Add two high-speed RS-232 ports to your mobile computer with our Dual Serial I/O Card. Drivers for Win XP and 2000 only. Please note that there are compatibility problem with some Notebooks, including Compaq Evo 6, Packard Bell 3.06, Pearl Celeron 1.2. The alternative (more expensive) product is Cat No 2324</i>	244.55	269.00
2617-12	2 Port RS232 16550 PnP PCI <i>A two port version of the PCI based serial card Cat No 2616. This card is supplied with 2 X DB9 ports and operating system support is provided for DOS, Win3.1/9x/2000/NT and Linux. Can be configured as COM 3/4.</i>	80.91	89.00
2870-12	2 Port RS232 16550 PnP PCI 3.3 Volt 64b <i>A two port PCI Ver 2.2 serial card for 3.3 Volt systems ie it is 64 bit BUS compatible. This card is supplied with 2 X DB9 ports and operating system support is provided for DOS, Win3.1/9x/2000/NT/XP and Linux. Can be configured as COM 3/4.</i>	135.45	149.00
2838-12	2 Port RS232 16550 PnP PCI Low Profile <i>A Low Profile 32 bit PCI based serial card that uses the 16550 UARTs with a 16 bit FIFO and a baud rate up to 921.6 KBs. It is very easy to setup with its Plug n Play BIOS support. It can replace faulty on board serial ports as COM1/2. Support is provided for DOS, Win9x ME and Win NT/2000,XP & Linux. DB44M to 2xDB9M cable included.</i>	90.00	99.00
2826-12	2 Port RS232 16750 PnP PCI ReMap to DOS <i>A versatile 2 port PCI serial card that can have the I/O ports re-mapped to 3F8, 2F8, 3E8, 2E8, a feat not possible with many PnP PCI serial cards. It solves the problem of software that will only work at these addresses when operating under DOS or Windows 3.1/95/98,NT/2000/Linux In addition it has a 16750 UARTs with 64byte FIFO buffers as opposed to our standard cards which have 16550 UARTs with a 16 byte FIFO buffers. They will operate at a baud rate up to 921.6 KBs.</i>	117.27	129.00

Interface Cards - Serial Cards

2658-12	2 Port RS232/422/485/CurrentLoop Opto I <i>These 16 bit serial cards contain two optically isolated RS232/422/485/Current Loop ports with 2500V isolation and 1500V surge protection. The baud rate is programmable up to 57.6k. The ports are configurable from COM 1 to 256 and IRQ3 to 15 and they are jumper selectable as full duplex or half duplex. The current loop can use the onboard or an external current source. Overlay map I/O addressing is also supported (Multiple ports can be mapped to the same I/O address). Drivers are provided for DOS & Win3.1.</i>	409.09	450.00
2053-12	2 Port RS422 16550 ISA Serial <i>This 8 bit card will operate at up to 56K Baud at a maximum distance of 1200m. It is supplied with 2-DB25 Male Connectors (via DB37 cable from backplane) and is also configurable as COM 1 & 2 or COM 3 & 4 on interrupts IRQ2, 3, 4, 5, 6 or 7.</i>	200.91	221.00
2800-12	2 Port RS422 PnP PCI DB9 <i>The PCCOM PCI bus two port adapter is a 32 bit PCI bus board with Plug and Play features. It provides two asynchronous RS422 serial communication ports (9-pin male), which link the computer and serial peripheral devices such as terminals, modems, serial printers, plotters, etc. Each 16550 port contains 16 bytes FIFO buffer and can be set at normal speed mode (baud rate up to 115200) or high-speed mode (baud rate up to 460K). More details, drivers and support at www.pccompci.com</i>	244.55	269.00
2996-12	2 Port RS422 PnP PCI Opto Isolated <i>The PCCOM PCI bus two port adapter is a 32 bit PCI bus board with Plug and Play features. It provides two asynchronous RS422 serial communication ports (9-pin male) with Opto Isolation. Each 16550 port contains 16 bytes FIFO buffer and can be set at normal speed mode (baud rate up to 115200) or high-speed mode (baud rate up to 460K). More details, drivers and support at www.pccompci.com</i>	308.18	339.00
2999-12	2 Port RS422/485 Cardbus <i>Add two RS-422/485 ports to your mobile computer with our Dual Serial I/O Card.</i>	453.64	499.00
2991-12	2 Port RS422/485 COM1-4 PCMCIA <i>Add two RS-422/485 ports to your mobile computer with Socket's Dual Serial I/O Card. The card features simultaneous and independent operation of both ports while requiring only one interrupt, making it ideal for applications such as data collection or equipment monitoring and control. Separate cables gives you the flexibility to use only one port without leaving a cable dangle from the unused port.</i>	544.55	599.00
2926-12	2 Port RS422/485 PCI Surge/Opto Isolate <i>This two port PCI card supports both RS422 or RS485 protocols. It has 16C650 compatible UARTS and operate on both 3.3-volt 64-bit PCI, PCI-X slots and 5-volt 32-bit PCI slots in accordance with the PCI Ver2.2 specification. The cards also have Microsoft WHQL approval. They are designed for industrial applications and feature 2.5KV isolation and 600W surge protection.</i>	335.45	369.00
2673-12	2 Port RS422/485 PnP PCI DB9 <i>This Plug and Play (PnP) PCI card with RS-422/485 serial interface provides two external 25-pin D-SUB male connectors for attaching peripherals. The RS422/485 adapter provides the PCs with a longer and more reliable communication.</i>	262.73	289.00
2912-12	2 Port RS422/485 PnP PCI Opto Isolated <i>The PCCOM PCI bus two port adapter is a 32 bit PCI bus board with Plug and Play features. It provides two asynchronous RS422 or 485 serial communication ports which are jumper selectable. Each 16550 port contains 16 bytes FIFO buffer and can be set at normal speed mode (baud rate up to 115200) or high-speed mode (baud rate up to 460K). Isolation is rated at 2500V rms. It has two DB9 connectors. More details, drivers and support at www.pccompci.com</i>	299.09	329.00
2822-12	2 Port RS485 PnP PCI <i>The PCCOM PCI bus two port adapter is a 32 bit PCI bus board with Plug and Play features. It provides two asynchronous RS485 serial communication ports (9-pin male), which link the computer and serial peripheral devices such as terminals, modems, serial printers, plotters, etc. Each 16550 port contains 16 bytes FIFO buffer and can be set at normal speed mode (baud rate up to 115200) or high-speed mode (baud rate up to 460K). More details, drivers and support at www.pccompci.com</i>	210.91	232.00
2077-12	4 Port RS232 16550 ISA AST FourPort/AT+ <i>An 8 bit serial card with 4 x DB25 Male connectors on an octopus cable. Suitable for XENIX, UNIX, CC DOS, MultiUser DOS, Linux, Windows NT and OS/2, it is compatible with AST Fourport/AT Plus. It also works under Windows 95 with one interrupt for all four ports. Select the interrupt vector jumper and whilst "System" shows a clash, four modems run happily. Contains cable DB37M to 4xDB25M</i>	215.45	237.00
2326-12	4 Port RS232 16550 ISA COM1-8 IRQ3 to 1 <i>While providing Interrupts 3, 4, 5, 7, 9, 10, 11, 12 and 15 in conjunction with four 16550 UARTS, this card also has the flexibility of being configurable as COM1, 2, 3, 4, 5, 6, 7, or 8. (will run under Win95). Contains cable DB37M to 4xDB25M</i>	262.73	289.00
2083-12	4 Port RS232 16550 ISA COM1-lots IRQ2 t <i>These versatile serial cards are jumper selectable to virtually any address, as well as IRQ 2, 3, 4, 5, 7, 10, 11, 12, 14 & 15. They are also IRQ Vector addressable and emulate the Digichannel PC/4. UARTS are socketed. Drivers for WIN 95 and WIN NT. Contains cable DB37M to 4xDB25M</i>	332.73	366.00

Interface Cards - Serial Cards

Cat No	Description	RRP	Ex GST	Inc GST
2723-12	4 Port RS232 16550 PnP PCI 3.3 / 5.0 Vo <i>Universal PCI is a relatively new standard for PCI cards which can be plugged into either 3.3V or 5V slots (standard PCI is 5V only). Currently many servers come with 3.3V slots and over the next few years, 3.3V cards are likely to become the standard for all PCs. This half size card provides 4 industry standard RS232 serial COM ports in a single PCI slot. A fully moulded quad cable terminated in 9 pin male 'D' plug ensures a neat and easy connection. In a PC with 4 free PCI slots that gives 16 ports!</i>	817.27		899.00
2674-12	4 Port RS232 16550 PnP PCI Dec <i>The PCCOM 32-bit PCI bus 4 port adapter provides four asynchronous RS232 serial communication ports which link the computer and serial peripheral devices such as terminals, modems, serial printers, plotters,...etc. IRQ and I/O address are detected by BIOS automatically, so you don't need to set switches & jumpers. The card has a 37-pin female connector on the backplane which links to the expansion cable with 4 x DB25 pin connectors. More details, drivers and support at www.pccompci.com</i>	435.45		479.00
2839-12	4 Port RS232 16550 PnP PCI Low Profile <i>A Low Profile 32 bit PCI based serial card that uses the 16550 UARTs with a 16 bit FIFO and a baud rate up to 921.6 KBs. It is very easy to setup with its Plug n Play BIOS support. It can replace faulty on board serial ports as COM1/2. Support is provided for DOS, Win9x ME and Win NT/2000. 4 ports DB9</i>	368.18		405.00
2656-12	4 Port RS232 16650 PnP PCI Sx <i>Provide 4 RS232 Serial ports with 16650 UARTs (32Byte FIFO buffer). Data transfer rate is from 50 to 921,600 Baud. It is fully Plug and Play and may only be used with a Plug and Play motherboards. The I/O address is set automatically and the IRQ is set by the motherboard, the ports share one IRQ. Drivers are provided for Win 95/98 and WinNT4.x Win 2000. An adapter cable with four DB25F connectors is included.</i>	398.18		438.00
2205-12	4 Port RS232 Card ISA & Multiplexer Box <i>This 4 Port serial card transmits on a 6 core telephone line to a multiplexer box which separates the signal to four standard ports. Maximum transmission distance is 500m.</i>	590.00		649.00
2834-12	4 Port RS232 Card ISA (for Multiplexer <i>This 4 Port serial card transmits on a 6 core telephone line to a multiplexer box which separates the signal to four standard ports. Maximum transmission distance is 500m.</i>	294.55		324.00
2835-12	4 Port RS232 Card ISA - Multiplexer Bo <i>This 4 Port serial card transmits on a 6 core telephone line to a multiplexer box which separates the signal to four standard ports. Maximum transmission distance is 500m.</i>	253.64		279.00
2725-12	4 Port RS232/422/485 Opto Isolated PnP <i>The 32-bit PCI bus 4 port adapter provides four asynchronous RS232/422/485 jumper selectable serial communication ports. It has opto isolation, rated at 2500 Volts rms. The card has a 37-pin female connector on the backplane which links to the expansion cable with 4 x DB25 pin connectors. More details, drivers and support at www.pccompci.com</i>	540.91		595.00
2247-12	4 Port RS422 16550 8 Bit ISA <i>The PC COM 4 port adapter provides 4 asynchronous serial communication ports(RS422) which link the computer & serial peripheral devices such as modems, serial printers, plotters,etc. The adapter may be configured with up to 4 individually addressable RS422 ports for any IBM PC/XT, PC/AT, PC/386 or hardware compatible system under MSDOS, or any other multi-user operating system such as PC-MOS/386, Concurrent DOS(DR M DOS), PICK, XENIX, UNIX, MUMPS, QNX, OS/2, etc. Interrupt selectable IRQ 2 -7.</i>	313.64		345.00
2675-12	4 Port RS422 PnP PCI <i>The PCCOM 32-bit PCI bus 4 port adapter provides four asynchronous RS422 serial communication ports which link the computer and serial peripheral devices such as terminals, modems, serial printers, plotters...etc. IRQ and I/O address are detected by BIOS automatically, so you don't need to set switches & jumpers. The card has a 37-pin female connector on the backplane which links to the expansion cable with 4 x DB25 pin connectors. More details, drivers and support at www.pccompci.com</i>	400.00		440.00
2910-12	4 PORT RS422/485 PCI OPTO <i>Provides four native windows COM ports which are compatible with Windows serial communication applications. Each port is configurable as either RS422 or RS485. Includes Opto Isolation of the ports.</i>	703.64		774.00
2927-12	4 Port RS422/485 PCI Surge/Opto Isolate <i>This four port PCI card supports both RS422 or RS485 protocols. It has 16C650 compatible UARTS and operate on both 3.3-volt 64-bit PCI, PCI-X slots and 5-volt 32-bit PCI slots in accordance with the PCI Ver.2.2 specification. The cards also have Microsoft WHQL approval. They are designed for industrial applications and feature 2.5KV isolation and 600W surge protection.</i>	453.64		499.00
2913-12	4 Port RS422/485 PnP PCI Opto Isolated <i>The PCCOM PCI bus 4 port adapter is a 32 bit PCI bus board with Plug and Play features. It provides two asynchronous RS422 or 485 serial communication ports which are jumper selectable. Each 16550 port contains 16 bytes FIFO buffer and can be set at normal speed mode (baud rate up to 115200) or high-speed mode (baud rate up to 460K). It has four DB25 connectors on an octopus cable. Isolation is rated at 2500V rms. More details, drivers and support at www.pccompci.com/4p232_422_485_iso_ca.html</i>	426.36		469.00

2676-12	4 Port RS485 PnP PCI <i>The PCCOM 32-bit PCI bus 4 port adapter provides four asynchronous RS232 serial communication ports which link the computer and serial peripheral devices such as terminals, modems, serial printers, plotters..etc. IRQ and I/O address are detected by BIOS automatically, so you don't need to set switches and jumpers. The card has a 37-pin female connector on the backplane which links to the expansion cable with 4 x DB25 pin connectors. More details, drivers and support at www.pccompci.com</i>	476.36		524.00
2836-12	4/8 Port RS232 ISA & Multiplexer Box - <i>This 4 Port serial card transmits on a 6 core telephone line to a multiplexer box which separates the signal to four standard ports. Maximum transmission distance is 500m.</i>	153.64		169.00
2206A-12	8 Port RS232 16550 ISA - Card for Multi <i>Operates in a manner similar to catalogue number 2205, except it supports eight channels. Part of Cat#2206.</i>	361.82		398.00
2206B-12	8 Port RS232 16550 ISA - Multiplexer Bo <i>Operates in a manner similar to catalogue number 2205, except it supports eight channels.</i>	289.09		318.00
2206-12	8 Port RS232 16550 ISA and Multiplexer <i>Operates in a manner similar to catalogue number 2205, except it supports eight channels.</i>	726.36		799.00
2571-12	8 Port RS232 16550 ISA Exp Box w RJ45 <i>These cards are IRQ3,4,5,7,10,11,12,15 selectable as well as vector selectable. The expansion box has 8 DB25 female connectors and 8 DB25 male to RJ45 female connectors. Includes a DB62 MM cable from card to expansion box. Suitable for Xenix/Unix, ick, MS/DOS, PC-MOS/386, Concurrent DOS, MS/Windows, OS/2, QNX, Prologue, MUMPS....etc.</i>	726.36		799.00
2641-12	8 Port RS232 16550 ISA Octopus Cables <i>This 16 bit card is suitable for Windows, MS DOS, XENIX, UNIX and OS/2. It is complete with a DB62 to an 8 DB25 octopus cable adaptor. Device drivers for Windows V3.1, Windows 95, Windows NT and Linux are included.</i>	579.09		637.00
2334-12	8 Port RS232 16550 ISA with Expansion B <i>This serial card is IRQ3, 4, 5, 7, 10, 11, 12, 15 selectable, as well as interrupt vector selectable. It is complete with an expansion box with 2x4 DB25 female connectors. The UARTS are socketed . It operates with Windows 3.1/95 and Windows NT as well as UNIX/XENIX, PC MOS, Multi User DOS, Pick, and OS/2.</i>	728.18		801.00
2213-12	8 Port RS232 Multiplexer Box (set of 2) <i>Combining 8 serial ports onto a 4 wire twisted pair, these multiplexer boxes have the ability to transmit at 200K Baud over 500m. Currently only the 8 port version is available, however a 4 port version is expected in the near future.</i>	662.73		729.00
2657-12	8 Port RS232 PnP PCI 32bit/64bBc <i>Provide 8 RS232 Serial ports with 16650 UARTs (32Byte FIFO buffer). Data transfer rate is from 50 to 921,600 Baud. It is fully Plug and Play and may only be used with a Plug and Play motherboards. It has a 32 bit BUS and is 64 bit BUS compatible (bBc) and will operate on 3.3 Volts as well as 5 Volts. The I/O address is set automatically and the IRQ is set by the motherboard, the ports share one IRQ. Drivers are provided for Win 95/98 and WinNT4.x/5.x. Two adapter cables each with four DB9M connectors are included.</i>	609.09		670.00
2678-12	8 Port RS232 PnP PCI with Expansion Box <i>The PCCOM PCI bus 8 port adapter provides eight asynchronous serial RS232 communication ports which link the computer and serial peripheral devices such as terminals, modems, serial printers, plotters,...etc. IRQ and I/O address are detected by BIOS automatically, so you don't need to set switches & jumpers. This card has a 62-pin female connector on the backplane which connects to a 62-pin male cable linking the card to an expansion box with eight DB25 pin female connections. More details, drivers and support at www.pccompci.com</i>	690.00		759.00
2677-12	8 Port RS232 PnP PCI with Octopus Cable <i>The PCCOM PCI bus 8 port adapter provides eight asynchronous serial RS232 communication ports which link the computer and serial peripheral devices such as terminals, modems, serial printers, plotters,...etc. IRQ and I/O address are detected by BIOS automatically, so you don't need to set switches & jumpers. This card has a 62-pin female connector on the backplane and connects to octopus cables with 8 DB25 male connectors. More details, drivers and support at www.pccompci.com</i>	609.09		670.00
2795-12	8 Port RS232 PnP w RJ12 8 way <i>Comprises Cat #2336 8 Port RS232 PnP PCI Card, Cat #2792 DB62M to Cent 50M Cable Cat #2796 Centronics 50F to 8xRJ12 Adaptor</i>	695.45		765.00
2610-12	8 Port RS232 RISC Stallion DB25 ISA <i>EasyIO is the right solution for connecting a small number of serial devices to Windows NT, UNIX and NetWare servers simply and cost-effectively. Supporting data rates of up to 460 Kbps per port, EasyIO gives you all the performance you will ever need. Available as PCI and ISA bus adapters, EasyIO delivers effective server-based serial access for today's Pentium-class servers. These low cost smart cards use RISC based processors for fast throughput on UNIX systems.</i>	744.55		819.00

Available as PCI and ISA bus adapters, EasyIO delivers effective server-based serial access for today's Pentium-class servers. These low cost smart cards use RISC based processors for fast throughput on UNIX systems.</i>	817.27	899.00
2307-12	8 Port RS232 Serial Intelligent ISA <i>And now with Win NT drivers! This intelligent serial card contains two CL-CD1400 RISC chips and is suitable for XENIX, UNIX, LINUX and MS DOS. It is ISA BUS IRQ selectable (IRQ 3 to IRQ 15), as well as supporting IRQ sharing or daisy chaining. The I/O address is selectable over a wide range with a DIP Sw. There are 12 bytes FIFO for each transmit and each receive channel.</i>	805.45	886.00
2086-12	8 Port RS422 16550 8 Bit Octopus Cables <i>The PC COM 8 port serial adapter provides eight asynchronous serial communications ports(RS422), which link the computer and serial devices such as modems, serial printers, plotters, etc. The adapter is particularly suited to facilitate the connection of terminals (VDU's) in multi-user operating systems. To accomodate a variety of OS, three switch banks permit maximum flexibility of configuration.</i>	907.27	998.00
2679-12	8 Port RS422 PnP PCI Oct Cables <i>Same as Cat. No. 2677 but with RS422 communication ports. More details, drivers and support at www.pccompci.com</i>	632.73	696.00
2928-12	8 Port RS422/485 PCI Surge/Opto Isolate <i>This eight port PCI card supports both RS422 or RS485 protocols. It has 16C650 compatible UARTS and operate on both 3.3-volt 64-bit PCI, PCI-X slots and 5-volt 32-bit PCI slots in accordance with the PCI Ver2.2 specification. The cards also have Microsoft WHQL approval. They are designed for industrial applications and feature 2.5KV isolation and 600W surge protection.</i>	817.27	899.00
2680-12	8 Port RS485 PnP PCI Oct Cables <i>Same as Cat. No. 2677 but with RS485 communication ports. More details, drivers and support at www.pccompci.com</i>	781.82	860.00
2837-12	A3378 1 Port RS232 16550 PnP PCI Low P <i>A Low Profile 32 bit PCI based serial card that uses the 16550 UART with a 16 bit FIFO and a baud rate up to 921.6 Kbs. It is very easy to setup with its Plug n Play BIOS support. It can replace faulty on board serial ports as COM1/2. Support is provided for DOS, Win3.1/9x/2000/NT and Linux.</i>	77.27	85.00
2721-12	HDD Cont PCI SCSI Adaptec Card ADA2906	144.55	159.00
2924-12	PCI 2 Port Velocity Ultra RS422/RS485 <i>This half size card can run at an amazing speed of up to 15,000,000 baud. It provides 2 industry standard RS422/485 serial ports for PC compatibles in a single PCI slot. The card has on-board zener diodes giving transient spike protection to the inputs - making it ideal for factory automation installations.</i>	508.18	559.00
2939-12	PCI 4 Port Velocity Ultra RS422/RS485 <i>This universal PCI Velocity 4 Port RS422/485 Serial PCI Card provides four serial ports independently configurable as RS422 with and without hand-shaking, or RS485 full or half duplex. The card has on-board zener diodes giving transient spike protection to the inputs, making this card ideal for factory automation installations. The megabaud data transfer rates and the 64 byte deep FIFO, coupled with the RS485 Half Duplex Autogating guarantees uncompromising performance and fault-free use.</i>	680.91	749.00
2726-12	PCMCIA to 2 Port RS232 Serial Adapter <i>This PCMCIA card provides an easy way to add serial ports on your notebook computer via PCMCIA (16-bit) slots. The serial port is 16C550, 950 compatible.</i>	244.55	269.00

Interface Cards - Special Purpose

3374-12	Hard Drive Recovery Card <i>Recover Data from your hard drive after FDISK, FORMAT or DELETE. Works with DOS, Win 3.x, Win 95 and OS/2. Even recover from Virus destruction.</i>	26.36	29.00
---------	---	-------	-------

Interface Cards - USB Cards

2865-12	USB 2.0 Card 3 Port PCI 480 Mbps <i>Provides 2 external and 1 internal USB 2.0 ports. Each port has a data throughput of 480Mbps. They support real time dynamic insertion and removal of up to 127 devices. A low profile model is also available (Cat No 2866).</i>	31.82	35.00
2866-12	USB 2.0 Card 3 Port PCI 480 Mbps Low Pr <i>Provides 2 external and 1 internal USB 2.0 ports. Each port has a data throughput of 480Mbps. They support real time dynamic insertion and removal of up to 127 devices.</i>	53.64	59.00
2897-12	USB 2.0 Card 4 Port PCI 480 Mbps <i>Provides 4 external USB 2.0 ports. Each port has a data throughput of 480Mbps. They support real time dynamic insertion and removal of up to 127 devices.</i>	40.00	44.00

16000-12	DynaPulse Blood Pressure Recorder - Hom <i>The DynaPulse is a clinical accuracy blood pressure and pulse monitoring device that connects to your computer via a serial port. It displays the actual blood pressure waveform on screen as a visual confirmation of measurement accuracy. More importantly, systolic, diastolic, and mean arterial pressures are actually measured rather than calculated. Measurements are stored in a data base allowing long term trends as a result of diet, exercise, or hypertensive medication to be viewed. The home version maintains data for up to six people.</i>	481.82		530.00

Memory & ICs - Memory Card Readers

Cat No	Description	RRP	Ex GST	Inc GST
6765-12	Memory Card R/W 6 in 1 Bay USB2.0 FWire <i>Six in 1 - Will read and write Compact Flash, Smart Media, Multimedia, Secure Digital and Memory Stick and IBM MicroDrive memory cards via a USB 2.0 connection. Plus 3 USB 2.0 connectors plus 2+1 Firewire repeater plus audio in/out plus 5volt/12volt out. It will operate with Win 98SE or later and Mac OS 8.6. It fits in a 5.25in drive bay to provide front access to the various ports.</i>	117.27		129.00
6782-12	Memory Card Reader Multi card to PCMCIA <i>Six in 1 - Will read and write Compact Flash, Smart Media, Multimedia, Secure Digital and Memory Stick and IBM MicroDrive memory cards via a USB connection. It will operate with Win 98 or later. A USB cable is included.</i>	50.00		55.00
6785-12	Memory Card Reader/Write 6 in 1 Inc PCM <i>Six in 1 - Will read and write full size PCMCIA ATA, Smart Media, Multimedia, Secure Digital and Memory Stick, and Memory Stick Pro memory cards via a USB connection. Operates with Win 98 or later on a USB 1.1 or USB 2.0 port.</i>	90.00		99.00
6786-12	Memory Card Reader/Write 8 in 1 Inc xD <i>Eight in one - Will read and write xD, Compact Flash I/II, Smart Media, Multimedia, Secure Digital and Memory Stick, Memory Stick Pro and IBM MicroDrive memory cards via a USB 2.0/1.1 connection. It will operate with Win 98 or later.</i>	44.55		49.00
6753-12	Memory Card Reader/Write Six in One USB <i>Six in 1 - Will read and write Compact Flash, Smart Media, Multimedia, Secure Digital and Memory Stick and IBM MicroDrive memory cards via a USB connection. It will operate with Win 98 or later. A USB cable is included.</i>	35.45		39.00
6766-12	Memory Card Reader/Write Six in One USB <i>Six in 1 - Will read and write Compact Flash, Smart Media, Multimedia, Secure Digital and Memory Stick and IBM MicroDrive memory cards via a USB connection. It will operate with Win 98 or later. A USB cable is included for connection to a USB 1.1 or USB 2.0 port.</i>	26.36		29.00
6843-12	Memory Card Reader/Writer Compact Flash <i>A Memory Card reader/writer that will read Compact Flash only and connects via Firewire.</i>	53.64		59.00
6656-12	Memory Card Reader/Writer Memory Stick <i>Will read and write Memory Stick memory cards (as used in some digital cameras) via a USB connection. It will operate with Win 98 or later and Mac OS 8.6. A USB cable is included.</i>	8.18		9.00
6657-12	Memory Card Reader/Writer MMC & SD - US <i>Will read and write Multimedia memory cards and Secure Digital memory cards (as used in Palm M50x etc) via a USB connection. It will operate with Win 98 or later and Mac OS 8.6. A USB cable is included.</i>	17.27		19.00
6744-12	Memory Card Reader/Writer Six in One Ba <i>Six in 1 - Will read and write Compact Flash, Smart Media, Multimedia, Secure Digital and Memory Stick and IBM MicroDrive memory cards via a USB 2.0 connection. It will operate with Win 98SE or later and Mac OS 8.6. It fits in a 3.5in drive bay to provide front access and connects to a motherboard USB header.</i>	35.45		39.00

Modems - Miscellaneous

10136-12	ADSL Inline Filter RJ12/600 Series <i>Indoor low pass filter required for telephones and faxes when running an ADSL service. Blocks high frequency energy on an ADSL service. Input can be connected to Telstra 600 series socket or via RJ12 connector. The filtered output is via an RJ12 socket.</i>	20.00	22.00
10143-12	ADSL Inline Filter Splitter 600 Series <i>Indoor low pass filter required for telephones and faxes when running an ADSL service. Blocks high frequency energy on an ADSL service. Plugs into a Telstra 600 series socket and has a filtered 600 series outlet socket for the telephone and an RJ12 unfiltered outlet socket for the ADSL modem.</i>	22.73	25.00
10142-12	ADSL Inline Filter Splitter RJ12 Connec <i>Indoor low pass filter required for telephones and faxes when running an ADSL service. Blocks high frequency energy on an ADSL service. Has one RJ12 input socket and two RJ12 output sockets, one unfiltered for the ADSL modem and one filtered for the telephone.</i>	20.00	22.00
10148-12	Fax/Modem 56K Dynalink V90/56K	117.27	129.00
10174-12	Fax/Modem 56K PCMCIA or Compact Flash (<i>A Compact Modem that can be used in CF slots (PocketPC/PDA) and includes an adapter for use with PC Card/PCMCIA slots in Laptops.</i>	206.36	227.00
10052-12	Fax/Modem DLink External 56Kbps <i>Rockwell Video Ready synchronous access modes support host based communication protocol. Voice speakerphone function - tone detection/generation and call discrimination. Supports digital telephone answering machine, voice annotation and audio recording playback applications.</i>	99.09	109.00
10158-12	Modem D-Link Ethernet ADSL Modem <i>1 x RJ-11 connector, 1 x 10/100Mbps, RJ-45 G.dmt 8 Mbps/1 Mbps; G.lite down1.5Mbps/up512Kbps Built-in SNMP-based Mgt</i>	117.27	129.00
10153-12	Modem D-LINK USB 56K Voice/Data Modem	90.00	99.00
10131-12	Modem ISDN 128k External <i>Reliable, fast and seamless connection at either 64 or 128k bits/sec. compatible with OnRamp and Microlink ISDN services. Controlled via AT command set, hence it works with virtually any operating system. Supports Data over Voice DOV ie If you have OnRamp Home Highway installed, you can make 64kbps data calls over the voice channel - untime local</i>	517.27	569.00
10115-12	Modem ISDN 128k PCI Card <i>Reliable, fast and seamless connection at either 64 or 128k bits/sec. compatible with OnRamp and Microlink ISDN services. PCI plug and play, no jumpers or switches for PC bus configuration. Compatible with Win 95, 98, NT4.0 or Linux.</i>	217.27	239.00
10175-12	Serial GSM/GPRS Modem - Dual Band GSM90 <i>This small and lightweight GSM & GPRS modem is capable of interfacing with any industrial plant and equipment or commercial assets.</i> <i>The dual band GSM modem is capable of transmitting data, short messages (SMS) & fax messages via the GSM/GPRS mobile network. The unit communicates with the remote device via an RS232 interface. Compatible with the AT-Hayes commands set the unit communicates at baud rates of 300 to 115200 bits/second through the RS232 serial link (network capability limits the modem to 14400bps for GSM, the GPRS unit is capable of 85.6kbps - check network provider for GPRS limits).</i> <i>It includes an antenna and power supply.</i>	526.36	579.00
10094-12	Tele Boot <i>Turn your computer on or off while you are away. Simply dial your phone and key-in your security code. No software involved.</i>	281.82	310.00

Modems - Netcomm

10088-12	Fax/Modem/Voice 56k Netcomm V90 PCI Har	111.82	123.00
10155-12	Inmodem 56K/V92 Netcomm Modem Internal	44.55	49.00
10089-12	Modem Netcomm Mega I 56k V90 External	99.09	109.00
10149-12	PCI Low Profile Netcomm Modem <i>The InModem 56k connection delivers high-speed voice, data and fax transmission. 10135-12	Dialup Gateway 4 Serial 8 LAN w VPN <i>Ideal for connecting branch offices. Will aggregate up to 4 POTS or ISDN lines.</i>	1090.00	1199.00
11447-12	Ethernet 1000Base-TX to Fibre SC Media <i>Convert fibre optic to UTP or vice versa in minutes without adding new equipment, re-configuring existing equipment or re-wiring your network. This 1000Mbps, Gigabit Ethernet Media converter comes with one UTP RJ45 connector and one multi mode fibre SC port. It is suitable for distances up to 550m.</i>	426.36	469.00
11325-12	Ethernet 100Base-TX to Fibre SC Convert <i>Convert fibre optic to UTP or vice versa in minutes without adding new equipment, re-configuring existing equipment or re-wiring your network. This 100Mbps Fast Ethernet Media converter comes with one UTP connection (with two RJ45 connectors) that allow you to connect to a 100Base-TX device such as a workstation, hub or switch and one multimode fibre connection (SC type connector) that allows you to connect a 100Base-FX device. Call for single mode models with 15km, 30km and 50km range.</i>	199.09	219.00
11326-12	Ethernet 100Base-TX to Fibre ST Convert <i>Convert fibre optic to UTP or vice versa in minutes without adding new equipment, re-configuring existing equipment or re-wiring your network. This 100Mbps Fast Ethernet Media converter comes with one UTP connection (with two RJ45 connectors) that allow you to connect to a 100Base-TX device such as a workstation, hub or switch and one multimode fibre connection (ST type connector) that allows you to connect a 100Base-FX device. Call for single mode models with 15km, 30km and 50km range.</i>	162.73	179.00
11363-12	Ethernet Adapter 64bit PCI Gigabyte 3Co	480.91	529.00
11341-12	Ethernet Adapter Card Bus 10/100 UTP 32 <i>The Card Bus (32 bit, as opposed to PCMCIA which is 16 bit) Ethernet card is a credit card size Ethernet adapter that connects a notebook PC to an IEEE 802.3 standard Ethernet network. It automatically negotiates 10Mbps or 100Mbps connection rate, depending on the speed of the network.</i>	62.73	69.00
11465-12	Ethernet Adapter CardBus Giga/100/10 UT <i>. Data Transfer Rate Up to 1000 Mbps. . Supports PCMCIA Type II, 32-bit slot. . Compatible with IEEE802.3 10Base-T, 100Base-T and 1000Base-T. . RJ45 connector to 10/100/1000 Mbps Ethernet networks, auto-sensing. . Full/Half Duplex auto-negotiation for IEEE802.3 10, 100 and 1000Base-T. . Full-duplex design to double the performance to 20/200/2000Mbps. . Supports Category 3, 4, 5 for 10Base-T, 5 for 100Base-T and 6 for 1000Base-T. . LED indicator lights for Link/Active status. . Crossover Detection & Auto-Correction. . Plug-n-Play and Hot-swapping. . Compatible with Windows 98SE/ME/2000/XP/2003, Linux and Mac.8.x 9.x.</i>	71.82	79.00
11300-12	Ethernet Adapter PCMCIA 10/100 UTP 16 B <i>The PCMCIA Ethernet card is a credit card size Ethernet adapter that connects a notebook PC to an IEEE 802.3 standard Ethernet network. It features 16-bit PCMCIA architecture and automatically negotiates 10 or 100Mbps connection rate, depending on the speed of the network.</i>	62.73	69.00
11302-12	Ethernet Card ISA BNC/UTP PnP Jumperles <i>16 Bit ISA 10Base LAN adapter. Has RJ45 and BNC connectors. Full duplex support NE2000 compatible.</i>	35.45	39.00
11332-12	Ethernet Card PCI Intel 21143 10/100 Mb <i>Designed for file server applications, the Intel 21143 chipset (formerly known as the DEC 143), will deliver high networking performance. The 21143 features a high-bandwidth PCI interface and extended PCI commands to maximize data throughput and device utilization. It incorporates a powerful on-chip DMA capability to minimize CPU overhead and also features interrupt mitigation on transmit and receive; this batching mechanism can increase Windows NT* server performance by lowering the CPU overhead.</i>	99.09	109.00

11469-12	Ethernet Card PCI Intel 21143 10/100 Mb <i>Designed for file server applications, the Intel 21143 chipset (formerly known as the DEC 143), will deliver high networking performance. The 21143 features a high-bandwidth PCI interface and extended PCI commands to maximize data throughput and device utilization. It incorporates a powerful on-chip DMA capability to minimize CPU overhead and also features interrupt mitigation on transmit and receive; this batching mechanism can increase Windows NT* server performance by lowering the CPU overhead.</i>	99.09		109.00
11282-12	Ethernet Card PCI UTP/STP 10/100 Mbps <i>Able to auto sense either 10Mbps or 100Mbps operation, this Plug and Play PCI Ethernet card uses the Bus Master architecture to maximise throughput. Drivers for all popular operating systems are included. This card is on the "Microsoft Hardware Compatibility List" for Win ME/2000 Combines with Cat# 11348 Back Plane to make Cat# 11347 Low Profile card.</i>	24.55		27.00
11347-12	Ethernet Card PCI UTP/STP 10/100 Mbps L <i>Designed for use in low profile cases, eg as used by Gateway Computers, where standard size cards won't fit. This Plug and Play PCI ethernet card is able to auto sense either 10Mbps or 100Mbps operation, and uses the Bus Master architecture to maximise throughput. Drivers for all popular operating systems are included.</i>	39.09		43.00
11359-12	Ethernet Gigabit Adapter 32 Bit <i>A Gigabit NIC with a 32 Bit BUS.</i>	37.27		41.00
11360-12	Ethernet Gigabit Adapter 64 Bit <i>A Gigabit NIC with a 64 Bit BUS.</i>	153.64		169.00
11381-12	Ethernet Gigabit Smart Switch 4 Port Co <i>This is a desk-top switching hub with four Gigabit ports with RJ45 connectors</i>	362.73		399.00
11382-12	Ethernet Gigabit Smart Switch 8 Port Co <i>This is a desk-top switching hub with eight Gigabit ports with RJ45 connectors</i>	544.55		599.00
11353-12	Ethernet Gigabit Switch 1 Gigabit 8x10/ <i>This is a desk top switching hub with one Gigabit port with an RJ45 connector and eight 10/100 BaseTX auto negotiation ports with RJ45 connectors. It is ideal for the backbone of your LAN.</i>	580.91		639.00
11338-12	Ethernet Hub 16 Port 10/100Mbps Plastic <i>A low cost, plastic case, 16 port (15 port plus uplink) Fast Ethernet hub. It is perfect for improving the performance of a small network. It supports 10/100Mbps auto-negotiation on all ports and automatically senses half or full duplex connections for high speed server or switch-to-switch configurations. It is a desktop model.</i>	308.18		339.00
11327-12	Ethernet MII to 100Mbps Fibre SC Conv <i>This 100Mbps Fast Ethernet transceiver provides one MII (media independent interface) connector and one 100BaseFX port(SC connector) that can connect to a multi-mode fiber optical cable. When the fiber link is set to full-duplex transmission mode, the distance between Fast Ethernet devices can be up to 2km.</i>	395.45		435.00
11328-12	Ethernet MII to 100Mbps Fibre ST Conv <i>This 100Mbps Fast Ethernet transceiver provides one MII (media independent interface) connector and one 100BaseFX port(ST connector) that can connect to a multi-mode fibre optic cable. When the fiber link is set to full-duplex transmission mode, the distance between Fast Ethernet devices can be up to 2km.</i>	321.82		354.00
11323-12	Ethernet Switch Hub 16 Port 10/100BaseT <i>This is a sixteen port rack mount switching hub with 10/100 BaseTX auto negotiation ports. All ports support half and full duplex transmission. If your network has continual collisions (with consequent drop in network performance) this hub will switch a dedicated path between the sending and receiving computers thus preventing collisions and improving performance and usable bandwidth.</i>	153.64		169.00
11384-12	Ethernet Switch Hub 24 Port 10/100 2Por <i>This is a smart managed, stackable, rack mounted switching hub with 24 10/100 ports and two 10/100/1000 fibre ports.</i>	1180.91		1299.00
11324-12	Ethernet Switch Hub 24 Port 10/100BaseT <i>This is a twenty four port rack mount switching hub with 10/100 BaseTX auto negotiation ports. All ports support half and full duplex transmission. If your network has continual collisions (with consequent drop in network performance) this hub will switch a dedicated path between the sending and receiving computers thus preventing collisions and improving performance and usable bandwidth.</i>	186.36		205.00
11356-12	Ethernet Switch Hub 32 Port 10/100BaseT <i>This is a thirty two port rack mount switching hub with 10/100 BaseTX auto negotiation ports. All ports support half and full duplex transmission. If your network has continual collisions (with consequent drop in network performance) this hub will switch a dedicated path between the sending and receiving computers thus preventing collisions and improving performance and usable bandwidth.</i>	426.36		469.00
11333-12	Ethernet Switch Hub 5 Port 10/100Mbps <i>This 5 port Fast Ethernet switch is perfect for improving the performance of a small network. It supports 10/100Mbps auto-negotiation on all ports and automatically senses half or full duplex connections for high speed server or switch-to-switch configurations. It is a desktop model.</i>	71.82		79.00

Networking - Hardware

11334-12	Ethernet Switch Hub 8 Port 10/100Mbps <i>This 8 port Fast Ethernet switch is perfect for improving the performance of a small network. It supports 10/100Mbps auto-negotiation on all ports and automatically senses half or full duplex connections for high speed server or switch-to-switch configurations. It is a desktop model.</i>	62.73	69.00
10104-12	Internet Access Server 2 Port (2 Modems) <i>Give all stations on your network simultaneous access to the internet through this access server. Hardware based firewall ensures your security, while dial on demand minimises your connect time. It has a built in DHCP server and includes software to provide clients with their own email address.</i>	345.45	380.00
10162-12	Internet Broadband Router 1 WAN 4 LAN 1 <i>A broadband router suitable for sharing an internet connection with multiple users. Features include:</i> <i>- Multiple users sharing one internet connection</i> <i>- IP routing and NAT/PAT support</i> <i>- Supports PPPoE / PPTP client function for xDSL connection</i> <i>- DMZ redirects WAN port's Public IP address to a LAN's Private IP address</i> <i>- Address Mapping, Virtual Servers, Bridge Mode</i> <i>- Protocols : TCP/IP, UDP, ICMP, PPPoE, PPTP, NAT/PAT, DHCP (Client/Server)</i> <i>- Natural firewall (NAT), private IP addresses not accessible from the Internet</i> <i>- IP Packet Access Control</i> <i>- Hacker Attack Prevention (DoS)</i> <i>- PAP/CHAP/MS-CHAP authentications</i> <i>- VPN PPTP Client / IPSec pass through</i> <i>- Web-based GUI, Remote Management</i>	117.27	129.00
10111-12	Internet Router 1 LAN 4 WAN 10Mbps <i>Can be used as an Internet Access Server or for Remote Access or for LAN to LAN routing. It has 4 WAN (RS232) and 1 LAN (UTP).</i>	1030.91	1134.00
10145-12	Internet Router ADSL Multihomed 2 WAN <i>ADSL dropping out? Connect to two different providers and double your chances of staying online. It features load balancing and failover between the WAN lines and also has a 4 port 10/100 hub built in.</i>	244.55	269.00
10139-12	Internet Router ADSL Multihomed 4 WAN <i>ADSL dropping out? Connect to two different providers and double your chances of staying online. In fact our multihomed router will allow you to connect to four different sources and share the band width between them.</i>	471.82	519.00
10164-12	Internet Security Router Including VPN <i>Provide secure connections to your travelling salesmen or wireless users with up to 100 VPN tunnels. The features of this product include: Up to 100 VPN tunnels, PPPoE client, Interoperable IP-VPN, Supports L2TP remote VPN, Stateful Firewall Security, Application Content Filtering for Java, ActiveX, cookies, keywords, URL filtering, Active Intrusion Detection Engine, Flexible Traffic Management, bandwidth control, Flexible management via console, Web and SNMP/RMON, NAT. See the data sheet for full details.</i>	771.82	849.00
11900-12	Network Starter Kit <i>Contains 2 x PCI UTP/STP 10/100 Mbps network cards and 1 x 5 Port UTP 100BaseTx hub and 2 x 5 metre cables and a very good installation manual.</i>	80.91	89.00
11352-12	Printer Server 1 Parallel Port 10/100Mb <i>There's no need for a computer just to operate as a printer server, or you can avoid slowing down a work station when a print job is running by installing this small print server. It connects directly to the printer and a UTP cable. Suitable for Windows 95,W98, W98SE, 2000, XP, Windows NT, Novell, TCP/IP and Unix. Has a 36-pin male Centronics connection.</i>	190.00	209.00
11383-12	Printer Server 1 USB Port <i>USB printer with NT4? Here is the answer. Connect the USB printer server to the network via a 10/100 port and all computers have access to the printer.</i>	171.82	189.00
11362-12	Printer Server 2 USB 1 Parallel Port 10 <i>There's no need for a computer just to operate as a printer server, or you can avoid slowing down a work station when a print job is running by installing this small print server. It connects directly to two USB printers and one parallel printer and a UTP cable. Supports IPP (Internet Printing Protocol). It auto detects the speed of the network, ie 10Mbps or 100Mbps. It is suitable for use with Windows 95/98/98SE/Me, Windows NT 4.0/2000/XP, Mac OS 8.1 or higher, UNIX/Linux, NetWare (Bindery/NDS).</i>	235.45	259.00
11293-12	Printer Server 3 Parallel Port 10/100Mb <i>There's no need for a computer just to operate as a printer server, or you can avoid slowing down a work station when a print job is running by installing this small print server. It connects directly to three parallel printers and a UTP cable and auto detects the speed of the network, ie 10Mbps or 100Mbps. Suitable for Windows 95, Windows NT, Novell and TCP/IP.</i>	144.55	159.00
11305-12	RG58 Cable Stripper	60.91	67.00
11307-12	UTP 6 & 8 Core Cable Stripper	104.55	115.00
11290-12	UTP LAN Cable .5 Metre with RJ45 Connec <i>Half metre UTP LAN cable with RJ45 connectors.</i>	6.05	6.65

Networking - Hardware

10152-12	Wireless Access Point Linksys WRV54G PO <i>The Wireless-G VPN Broadband Router is the advanced, complete networking solution for your small business, incorporating four essential networking functions in one high-powered box. First, there's the Wireless Access Point, which lets you connect Wireless-G (802.11g) or Wireless-B (802.11b) devices to the network. There's also a built-in 4-port full-duplex 10/100 Switch to connect your wired-Ethernet devices. Connect four PCs directly, or daisy-chain out to more hubs and switches to create as big a network as you need.</i>	408.18	449.00
10154-12	Wireless Power Over Ethernet (POE) Adap <i>Simplify your network installations with power and data on one cable! The Linksys Power Over Ethernet Adapter Kit lets you put your access points almost anywhere, by removing the requirement of nearby power outlets. By using the existing Category 5 Ethernet cabling to deliver power to any standard 5 volt access point or other network device, you save the time, hassle, and expense of running AC power to the access point's installation location.</i>	90.00	99.00
10141-12	Wireless Presentation Gateway LINKSYS	862.73	949.00

Networking - Wireless

11390-12	Antenna DLINK Air Indoor/Outdoor 5Dbi G <i>This Omni-Directional antenna is the ideal, cost effective solution when you need a discrete installation or when space is an issue.</i>	235.45	259.00
11672-12	D-Link Ethernet to Wireless Bridge 2.4G <i>Converts virtually any ethernet device to a wireless network device. 802.11b</i>	153.64	169.00
11445-12	Tripod Roof Mount and Mast - Tile	40.00	44.00
11449-12	Tripod Roof Mount and Mast - Tin	40.00	44.00
11450-12	Wireless 4 Way Splitter Outdoor 2.4GHz <i>Frequency Range: 1.8 to 2.5GHz Insertion Loss 1.8~2.5GHz: 6.5dB(typ) / 7.0dB(max) Isolation Loss 1.8~2.5GHz: 24dB(typ) / 20dB(max) V.S.W.R.: 1:1.3(typ) / 1: 1.5(max) Power Rating: 50W Impedance: 50 Ohm Connectors: N-Type Female</i>	126.36	139.00
11424-12	Wireless AP/Bridge/Client 200mW	435.45	479.00
11451-12	Wireless HotSpot <i>Our wireless HotSpot integrates "access control" and "wireless network access" into one system and simultaneously supports both 802.11b and 802.11g dual wireless transmission modes. No need for users to install any extra software or make changes to their IP settings. Has a built-in user database designed for Hotspot operation. Support external authentication mechanisms, such as RADIUS, POP3, POP3S and LDAP/AD. Also supports "traffic isolation" so that clients cannot "see" each other Supports traffic control from Layer2 to Layer4 through integration with IEEE802.1x standard An optional Ticket Printer prints on the spot tickets with user name and password along with the amount of time purchased.</i>	862.73	949.00
11357-12	Wireless LAN Access Point - Repeating B <i>Don't have line of sight between your end points? Just position a centre access point with line of sight to each end and this will repeat any received data to the other end. It is an IEEE 802.11b, high data rate, standard compatible access point. It supports an IEEE 802.3 10BaseT and 100BaseTX port for easy interfacing to an Ethernet backbone and contains a direct console port for local configuration. HTML for Web management is also supported. The product uses Direct Sequence Spread Spectrum Technology for immunity to interference. The Access Point is a key component of a wireless network, in that it connects the wireless stations to the distribution system in a network. This model supports Infrastructure, Point to Point Bridging and Point to Multi Point Bridging with Repeat configurations. Either WEP-64, WEP-128 (Wired Equivalent Privacy) or no encryption may be selected in the configuration. Theoretically 128 users can connect to the access point, but since they all share the 11Mbps bandwidth, a practical limit may be 6 to 10 users depending on usage.</i>	453.64	499.00
15139-12	Wireless LAN Access Point D-Link 802.11 <i>The 15139 can be configured to perform in any one of four modes - as a wireless access point, as a point-to-point bridge with another access point, as a point-to-multi-point wireless bridge, or as a wireless client. It also includes an embedded DHCP server that once enabled will automatically assign IP addresses to wireless clients.</i>	190.00	209.00

11391-12	Wireless LAN Antenna 2 Way Splitter <i>This 2.4GHz outdoor unit allows two antennas to be connected to one transmitter. Insertion loss is 0.4dB. Connectors are N Type female with gold pins.</i>	90.00	99.00	
11378-12	Wireless LAN Antenna 95 deg Directional <i>Provides a suitable antenna for an access point in Infrastructure mode or Point to Multi Point mode. It is a high gain resonant wave guide slot antenna specifically designed to operate in the 2.4GHz range with horizontal polarisation only. It is manufactured from rigid aluminium extrusion with a single sided 4 slot construction. This gives it a gain of 12dBi. It has a 50 ohm passive feed and has a Type N female connector.</i>	662.73	729.00	
11460-12	Wireless LAN Antenna 95 deg Directional <i>This wave guide style antenna is suitable for access points in Infrastructure mode or Point to Multi Point mode. It is a high gain resonant wave guide slot antenna specifically designed to operate in the 2.4GHz range with horizontal polarisation only. It is manufactured from rigid aluminium extrusion with a single sided 12 slot construction. This gives it a gain of 16.5dBi. It has a 50 ohm passive feed and has a Type N female connector.</i>	0.00	0.00	
11350-12	Wireless LAN Antenna Directional - 15 d <i>A high gain antenna specifically designed to operate in the 2.4GHz range with highly directional characteristics. It is a parabolic grid type antenna of a wire welded construction with gain of 15 dBi. The reflector dimensions are approximately 290mm x 350mm. The passive feed dipole has a Type N female connector.</i>	180.91	199.00	
11351-12	Wireless LAN Antenna Directional - 19 d <i>A high gain antenna specifically designed to operate in the 2.4GHz range with highly directional characteristics. It is a parabolic grid type antenna of a wire welded construction with gain of 19 dBi. The reflector dimensions are approximately 420mm x 600mm. The passive feed dipole has a Type N female connector.</i>	199.09	219.00	
11364-12	Wireless LAN Antenna Directional - 25 d <i>A high gain antenna specifically designed to operate in the 2.4GHz range with highly directional characteristics. It is a parabolic grid type antenna of a wire welded construction with gain of 25 dBi. The reflector dimensions are approximately 710mm x 825mm. The passive feed dipole has a Type N female connector.</i>	271.82	299.00	
11419-12	Wireless LAN Antenna Directional 26 dBi <i>A high gain antenna specifically designed to operate in the 5.8GHz range with highly directional characteristics. It is a parabolic grid type antenna of a wire welded construction with gain of 26 dBi. The reflector dimensions are approximately 520mm x 450mm. The passive feed dipole has a Type N female connector.</i>	426.36	469.00	
11442-12	Wireless LAN Antenna Directional 26 dBi <i>A high gain antenna specifically designed to operate in the 5.8GHz range with highly directional characteristics. It is a parabolic grid type antenna of a wire welded construction with gain of 26 dBi. The reflector dimensions are approximately 520mm x 450mm. The passive feed dipole has a Type N female connector.</i>	390.00	429.00	
11367-12	Wireless LAN Antenna Directional Panel <i>A medium gain antenna designed for WISP CPE applications. It is a panel design and has dimensions of 100mm x 100mm x 28mm with an SMA female antenna connection. It operates in the 2.4GHz ISM band. It includes a U clamp mounting bracket for 50mm mast</i>	117.27	129.00	
11467-12	Wireless LAN Antenna Directional Panel <i>Provides a suitable antenna for an access point in Infrastructure mode or Point to Multi Point mode. It is an 12dB, vertically polarised designed to operate in the 2.4GHz range. It has a 50 ohm passive feed and has a Type N female connector.</i>	99.09	109.00	
11431-12	Wireless LAN Antenna Directional Panel <i>A medium gain antenna designed for WISP CPE applications. It is a panel design and has dimensions of 240mm x 180mm x 60mm with an N female antenna connection. It operates in the 2.4GHz ISM band. It includes a U clamp mounting bracket for 50mm mast</i>	226.36	249.00	
11470-12	Wireless LAN Antenna Directional Panel <i>A medium gain antenna designed for WISP CPE applications. It is a panel design and has dimensions of 240mm x 180mm x 60mm with an N female antenna connection. It operates in the 2.4GHz ISM band. It includes a U clamp mounting bracket for 50mm mast</i>	226.36	249.00

11468-12	Wireless LAN Antenna Directional Panel <i>Provides a suitable antenna for an access point in Infrastructure mode or Point to Multi Point mode. It is an 16dB, vertically polarised designed to operate in the 2.4GHz range. It has a 50 ohm passive feed and has a Type N female connector.</i>	117.27		129.00
11430-12	Wireless LAN Antenna Directional Panel <i>Provides a suitable antenna for an access point in Infrastructure mode or Point to Multi Point mode. It is an 8dB, vertically polarised designed to operate in the 2.4GHz range. It has a 50 ohm passive feed and has a Type N female connector.</i>	108.18		119.00
11454-12	Wireless LAN Antenna Field Adjustable 12 <i>A sector antenna that can be field adjustable in terms of gain (12 to 18dBi) and beamwidth (60 to 120 degree). It has an N female connector.</i>	362.73		399.00
11453-12	Wireless LAN Antenna Omni Directional - <i>Provides a suitable antenna for an access point in Infrastructure mode or Point to Multi Point mode. It is a 12dBi, vertically polarised designed to operate in the 2.4GHz range. It has a 50 ohm passive feed and has a Type N female connector.</i>	180.91		199.00
11393-12	Wireless LAN Antenna Omni Directional - <i>Provides a suitable antenna for an access point in Infrastructure mode or Point to Multi Point mode. It is an 8dB, vertically polarised designed to operate in the 2.4GHz range. It has a 50 ohm passive feed and has a Type N female connector.</i>	126.36		139.00
11420-12	Wireless LAN Antenna Omnidirectional 11 <i>An omnidirectional antenna specifically designed to operate in the 5.8GHz range of the 802.11a standard. dimensions are approximately 700mm x 25mm dia. It has a Type N male connector.</i>	362.73		399.00
11441-12	Wireless LAN Antenna Omnidirectional 8d <i>An omnidirectional antenna specifically designed to operate in the 5.8GHz range of the 802.11a standard. It has a Type N female connector.</i>	362.73		399.00
11387-12	Wireless LAN AP - Bridge 22 Mbps D-LINK <i>This 802.11b compliant Access Point offers a versatile wireless Solution with a maximum bandwidth of 22Mbps (with Airplus products). WEP Encryption is included for added network protection.</i>	190.00		209.00
11416-12	Wireless LAN Booster Amplifier 2.4GHz 0 <i>Boost the output of your base station to the maximum allowed by the ACA. Ideal for Wireless ISPs. The ACA allows a maximum of 4 Watts EIRP, you need to do your sums to select the right antenna/amplifier combination. A 10 km to 15 km range is possible.</i>	490.00		539.00
11443-12	Wireless LAN Card PCI 802.11g 32/64 bBc <i>An economical Wireless LAN card which is complete with an integral wireless transmitter/receiver, ie it can't be removed separately. A dipole antenna is included for attachment to the card or alternatively a higher gain antenna can be connected via the reverse SMA connector. It has a 32 bit PCI BUS and is 64 bit BUS compatible (bBc).</i>	90.00		99.00
11457-12	Wireless LAN Ceiling Antenna Directional <i>Provides a ceiling mounted antenna with a directional beam. Ideal for siting at the edge of a building. It is an 8dB, vertically polarised antenna designed to operate in the 2.4GHz range. It has a 50 ohm passive feed and has a Type N female connector.</i>	144.55		159.00
11458-12	Wireless LAN Ceiling Antenna Omni 6dBi <i>Provides a ceiling mounted antenna with an omnidirectional beam. It is a 6dB, vertically polarised antenna designed to operate in the 2.4GHz range. It has a 50 ohm passive feed and has an SMA female connector.</i>	162.73		179.00
11377-12	Wireless LAN Compact Flash Card <i>Wireless LAN Compact Flash (CF) card complying with 802.11b and suitable for use with PDAs.</i>	235.45		259.00
11440-12	Wireless LAN Customer Premises Equipmen	544.55		599.00
15145-12	Wireless LAN D-Link PCI Adapter DWL-G52 <i>The D-Link AirPlus DWL-520+ is an enhanced 802.11b wireless PCI adapter featuring advanced silicon chip design from Texas Instruments that utilizes their patented Digital Signal Processing™ technology. The DWL-520+ is fully compatible with the IEEE 802.11b standard making it interoperable with all existing 802.11b compliant devices. When the DWL-520+ is connected to standard 802.11b devices, transfer rates can be up to 20% faster. When connected to other D-Link AirPlus products, the performance is even greater - up to 22Mbps!</i>	144.55		159.00
15146-12	Wireless LAN D-Link PCMCIA Card 802.11g	99.09		109.00
11418-12	Wireless LAN Mini PCI adapter 802.11a+g <i>A wireless mini PCI card that operates in the 2.4GHz and 5.8GHz range. It is compatible with 802.11a/b and g.</i>	144.55		159.00
11375-12	Wireless LAN PC Card Station Adapter In <i>This PCMCIA Wireless Station Adapter will fit straight into your notebook PCMCIA slot.</i>	180.91		199.00

Networking - Wireless

11388-12	Wireless LAN PCI Adapter 22Mbps DWL-520 <i>Allows a PCMCIA station adapter to be connected to a computer via a PCI slot. This 802.11b compliant device offers a versatile wireless Solution with a maximum bandwidth of 22Mbps (with Airplus products). WEP Encryption is included for added network protection.</i>	180.91	199.00
11373-12	Wireless LAN PCMCIA Station Adapter 100 <i>This PCMCIA Wireless Station Adapter is suitable for remote stations in Wireless ISPs (WISP) applications. It has a full 100mW output and reverse MMCX connections for external antennas. Cat No 9151 will convert to N Female. Please note that whilst we attempt to maintain stock of this item, if we are out of stock there is up to six weeks lead time.</i>	126.36	139.00
11374-12	Wireless LAN PCMCIA Station Adapter 200 <i>This PCMCIA Wireless Station Adapter is suitable for remote stations in Wireless ISPs (WISP) applications. It has a full 200mW output and reverse MMCX connections for external antennas. Cat No 9151 will convert to N Female. Please note that whilst we attempt to maintain stock of this item, if we are out of stock there is up to six weeks lead time.</i>	135.45	149.00
11343-12	Wireless LAN PCMCIA Station Adapter Ext <i>This Wireless Station Adapter is an IEEE802.11b high-speed PCMCIA card with an external antenna. It fully supports data rate of 11Mbps, 5.5Mbps, 2Mbps and 1Mbps. Using Direct Sequence Spread Spectrum technology for immunity to interference. It is easy to install on computers that have a PCMCIA type II slot. The adapter has an SCX connector to attach the antenna. The typical operating range indoors is as follows: 30m @ 11Mbps, 50m @ 5.5Mbps, 100m @ 2Mbps, 120m @ 1Mbps.</i>	171.82	189.00
11344-12	Wireless LAN PCMCIA to PCI Adapter <i>Allows a PCMCIA station adapter to be connected to a computer via a PCI slot.</i>	117.27	129.00
11389-12	Wireless LAN Surge Protector 50 Ohm <i>Reduce the chances of lightning damage to your wireless LAN installation. Our surge protector connects between an external antenna and an amplifier or Access Point to shunt any surges to earth. It has N type female connectors on both sides and has an insertion loss of less than 0.1dB.</i>	62.73	69.00
11372-12	Wireless LAN to Ethernet Bridge <i>Wireless network your Xbox, GameCube or PlayStation 2 to play games with your friends. The Ethernet to Wireless bridge allows any network device to be wireless enabled. It allows network printers, scanners etc. to join your wireless network. It supports both ad-hoc and infrastructure modes. Web based configuration provides for easy installation and setup. It supports 802.11b networks and has an integral antenna (not suitable for use with a wired external antenna).</i>	235.45	259.00
11466-12	Wireless LAN to Ethernet Bridge Senao <i>Access point that supports 802.11b/g, client separation, bridge mode, ap mode, advanced encryption.</i> <i>Ideal for Point to Point links or WISP CPE. Can also be used to Wireless network your Xbox, GameCube or PlayStation 2 to play games with your friends. The Ethernet to Wireless bridge allows any network device to be wireless enabled. It allows network printers, scanners etc. to join your wireless network. It supports both ad-hoc and infrastructure modes. Web based configuration provides for easy installation and setup. It supports 802.11b networks and has an integral antenna (not suitable for use with a wired external antenna).</i>	271.82	299.00
11438-12	Wireless LAN USB Dongle 802.11b <i>Plug this dongle into the USB port of a PC or Laptop to access a wireless network.</i>	62.73	69.00
11345-12	Wireless LAN USB Station Adapter <i>A wireless LAN station adapter which connects to a computer via a USB port.</i>	153.64	169.00
11461-12	Wireless LAN USB Station Adapter 6dBi <i>A 802.11g wireless LAN station adapter which connects to a computer via a USB port and has a built-in high gain antenna</i>	108.18	119.00
11452-12	Wireless POE Kit for 11424	0.00	0.00
11434-12	Wireless USB Adapter 802.11b <i>Wireless USB Adapter with complete set of industry standards, which fully supports high data rate up to 11Mbps, 5.5Mbps, 2Mbps and 1Mbps by using Direct Sequence Spread Spectrum (DSSS) technology.</i>	126.36	139.00

Power Supplies - Computer Power Supplies

X1205-12	Power Supply Switch P/Button Spade Term	14.55	16.00
X1168-12	Power Supply Switch Toggle Spade Term.	14.55	16.00

Power Supplies - Inverters

8184-12	Inverter 12V DC to 240V AC for N'book e <i>This power house delivers 140 watts continuous and 400 watts peak to power notebooks, TVs, VCRs, lights etc. It is fitted with a cigarette lighter plug and will auto shutdown on overload, short circuit or under voltage.</i>	118.18	130.00
---------	--	--------	--------

Power Supplies - Miscellaneous

8131-12	ATX Power Supply Tester <i>Allows quick and easy testing. Built-in 25W 5.4 ohm load to generate steady outputs, POWER_OK green LED indicates that power supply is working +5V, +3.3V & 12V leads for volt metering to check output voltages</i>	44.55	49.00
X1384-12	PENTIUM Fan Cable <i>Pentium Fan cable for a 3 pin fan to connect to power supply plug.</i>	6.27	6.90

Power Supplies - Plug Packs

8542-12	Power Pack 12V AC 1A <i>Power adapter (12 VAC/1A) supplied with 7 interchangeable plugs.</i>	25.23	27.75
8270-12	Power Pack 12V DC 1A <i>Power pack (12VDC/1A) supplied with 7 interchangeable plugs.</i>	21.82	24.00
8985-12	Power Pack 12V DC 2A <i>Power pack (12VDC/2A) supplied 1.8m input lead and 1.9m output lead with 2.5mm DC plug.</i>	40.91	45.00
8548-12	Power Pack 17V AC 1.25 Amp with Earth	29.09	32.00
8424-12	Power Pack 24V DC 1A Regulated	44.55	49.00
8323-12	Power Pack 24V DC 500mA <i>Supplied with 2.1mm DC plug only.</i>	19.00	20.90
1008004-12	Power Pack 24V DC 500mA	17.18	18.90
8305-12	Power Pack 3 4.5 6 7.5 9 12V DC 1A Swit <i>Overload protected high current model. Suits continuous use intercoms, high current cassette recorders, toys, etc. Screw terminations and mains cord and lead.</i>	26.36	29.00
8762-12	Power Pack 3V - 12V DC 300mA Switchable <i>High current DC supply suitable for devices which need more power. Six voltage selection makes it ideal for a large range of products. Supplied with multi-way adapter and has selectable polarity.</i>	20.00	22.00
8241-12	Power Pack 3V - 12V DC 500mA Switchable <i>High current DC supply suitable for devices which need more power. Six voltage selection makes it ideal for a large range of products. Supplied with multi-way adapter and has selectable polarity.</i>	25.45	28.00
1008025-12	Power Pack 5V DC 2.5 Amp Switchmode	31.82	35.00
8454-12	Power Pack 9V AC 1A <i>Power adapter (9VAC/1A) supplied with 7 interchangeable plugs.</i>	25.23	27.75
1008046-12	Power Pack 9V AC 200mA	15.36	16.90
8433-12	Power Pack 9V DC 1A <i>Power adapter (9VDC/1A) supplied with 7 interchangeable plugs.</i>	25.23	27.75
8240-12	Power Pack 9V DC 200mA <i>An economical supply that's suitable for equipment that uses 9V DC or a 9V transistor type battery. Comes with a 3.5mm plug (tip positive).</i>	14.55	16.00
1008055-12	Power Pack 9V DC 300mA 2.1 plug <i>An economical supply that's suitable for equipment that uses 9V DC or a 9V transistor type battery.</i>	17.18	18.90
8453-12	Power Pack 9V DC 500mA	13.09	14.40
8242-12	Power Pack Travel Converter <i>Multi-reverse adapter converts USA, Japan, Europe and many other mains plug to the Australian system. Earthed for safety. Does not convert voltage.</i>	11.91	13.10

Power Supplies - Surge Suppressors

8648-12	Filter - Power <i>Protection against surges for your PC.</i>	111.82	123.00
9063-12	Filter - Power Modem/Fax & Phone <i>Protects fax machines, modems etc from surges entering the equipment via both the telephone line and the power line.</i>	135.45	149.00
8138-12	Mains Muffler 4 outlet <i>Max 1000 Watts</i>	326.36	359.00

5430-12	Canon BJC-7000/7100 Photo R'fl Ink Tank Replaceable PhotoRealism ink tank. 530 page capacity in HQ mode	60.91		67.00
5813-12	CANON i6100 Colour Bubble Jet Printer An affordable large format printer for the home or small office. Print speed up to 12ppm in black and white, 2400 x 1200 dpi, individual ink tanks, Up to A3 size printing - 329x483mm, includes image s/w suite with easy photo print. Needs a USB cable of the length you require.	553.64		609.00
5510-12	Canon i80 Portable Printer Colour - USB The i80 Bubble Jet printer is everything you'd expect from a high-performance desktop printer, in a lightweight, portable design. It combines impressive document print speeds and outstanding quality photo printing with the convenience of direct photo printing from compatible digital cameras. Add to this the optional addition of a Bluetooth adaptor for wireless printing from any Bluetooth-enabled computer, mobile phone or PDA and the result is complete mobile printing freedom. Needs a USB cable of the length you require.	408.18		449.00
5856-12	CANON i965 Colour Bubble Jet Printer The Canon i965 has been specifically designed for professional quality photographic printing. Using a combination of six high/low density colour inks and Canon's 2 picolitre Advanced MicroFine Droplet Technology, the i965 achieves 4800dpi resolution to deliver superb image sharpness and colour reproduction. Better still, this high quality does not come at the expense of speed, with the i965 producing a high resolution 8"x10" glossy photo in around a minute. Needs a USB cable of the length you require.	499.09		549.00
5802-12	CANON i9950 Colour Bubble Jet Printer Up to A3 ⁺ Needs a USB cable of the length you require.	908.18		999.00
5854-12	CANON iP3000 Colour Bubble Jet Printer Needs a USB cable of the length you require.	226.36		249.00
5858-12	CANON iP5000 Colour Bubble Jet Printer The PIXMA iP5000 Bubble Jet printer is capable ejecting microscopic 1 picolitre ink droplets and achieving 9600 x 2400 dpi to ensure even smoother gradation by eliminating graininess. Needs a USB cable of the length you require.	326.36		359.00
5487-12	Canon LBP-1120 10ppm Laser Printer A 10ppm laser with face up or down paper delivery, 125 page multi-purpose tray. Needs a USB cable of the length you require.	235.45		259.00
5522-12	Canon LBP-2410 Colour Laser Printer Needs a USB cable of the length you require.	726.36		799.00
5892-12	CANON Multi Printer Copier Scanner Fax The imageCLASS MF5650 is a professional solution for growing businesses. It combines a fax, scanner, digital copier and a laser printer in one flatbed design, saving much needed office space. The MF5650 provides the business essentials for busy offices at an exceptional price, without compromising on performance. The convenient all-in-one design brings wide appeal to a variety of customers for business automation. Copy with ease at 18 cpm* and colour scan to your PC easily with a 50-page Automatic Document Feeder (ADF). The MF5650 has many convenient copy features such as electronic collating, 2-in-1 copying and 50% to 200% reduction/enlargement. Professional laser print resolution of 600 x 600 dpi at up to 18 ppm*. Huge fax memory of up to 250 pages** plus storage for 130 speed dials. Standard with 250-sheet paper cassette, single sheet multi-stack bypass and all-in-one toner cartridge.	544.55		599.00

Sharing & Extending Devices - Radio Frequency

11810-12	Audio Video RF Link - Additional Transm <i>Cat No 11808 provides one transmitter and one receiver to transfer audio/video from your cable/satellite decoder to a remote TV. This additional transmitter allows you to transmit from two devices on different channels. The receiver can switched to the appropriate channel. However please note that the channel selector switch is not designed for repetitive use.</i>	108.18	119.00
11808-12	Audio Video RF Link with Infrared Repea <i>Our audio video RF link includes a transmitter and receiver operating at 2.4GHz as well as an infrared repeater. It transmits high quality colour video and stereo audio from one room to another and allows control of the source using your existing remote control. The RF signal penetrates walls, floors and ceilings (depending on construction) and the included directional antenna allows a link to extend up to 100m line of sight. It transmits on 3 channels, 2434 MHz, 2453MHz and 2411MHz. The infrared is repeated back up to 50m. The video quality is absolutely first class, as is the stereo audio signal. It is ideal for relaying satellite and cable TV or a VCR to a second TV set etc. (make sure your TV has Audio/Video inputs). The kit includes a transmitter, a receiver, an IR transmitter, two power packs and two sets of audio/video cables with RCA connectors. You will probably need another infrared remote control, our Cat No 8924 is the only one we could find that works with Foxtel satellite.</i>	62.73	69.00
1008056-12	Infrared Remote Control Signal Extender <i>Extend the range of your remote controls from one room to another. Uses RF which will pass through residential walls. Transmission range is approximately 20 m free space or 10-12 m inside concrete buildings.</i>	117.27	129.00

Sharing & Extending Devices - Serial

12011-12	Sw. Box Serial ABCD Manual DB25 Female <i>Two way version of Cat.No. 12009.</i>	40.00	44.00
12019-12	Sw. Box Serial Crossover Man.	65.45	72.00
12009-12	Sw. Box Serial/Par AB Manual DB25F <i>Switch one printer between two computers or one computer between two printers. Suitable for parallel or serial printers, plotters etc. All connections are DB25 female. Cat. No. 9012 DB25 M/M cable if required.</i>	27.27	30.00

Sharing & Extending Devices - USB

12056-12	Sw. Box USB Manual Data Switch 2 Port <i>The 2 port USB manual switch allows up to two PC's and/or Macs to share the use of a single USB peripheral device (printer, scanner, modem, etc), on a one-at-a-time basis. The active computer is selected by means of a pushbutton switch. Standard USB cables are required to connect the computers to the switch box. (Type A Male to Type B Male. eg. Cat 9159).</i>	30.00	33.00
12049-12	Sw. Box USB Manual Data Switch 4 Port <i>The US-401 4 port USB manual switch allows up to four PC's and/or Macs to share the use of a single USB peripheral device (printer, scanner, modem, etc), on a one-at-a-time basis. The active computer is selected by means of a pushbutton switch. Standard USB cables are required to connect the computers to the switch box. (Type A Male to Type B Male. eg. Cat 9159).</i>	50.00	55.00
12058-12	USB 1.1 Sharing Switch - 1 PCs Share 4	62.73	69.00
12055-12	USB 1.1 Sharing Switch - 4 PCs Share 1 <i>4 x BF + 1 x AF</i>	53.64	59.00
12060-12	USB 2.0 Sharing Switch - 2 PCs Share 1 <i>This intelligent switch allows two computers to share one USB2.0 scanner, printer or other device. It has 2 x USB B Receptacles + 1 x USB A Receptacle. Only one computer may access the USB device at a time. The computer is selected via push button.</i>	44.55	49.00
12059-12	USB 2.0 Sharing Switch - 4 PCs Share 1 <i>This intelligent switch allows four computers to share one USB2.0 scanner, printer or other device. It has 4 x USB B Receptacles + 1 x USB A Receptacle. Only one computer may access the USB device at a time. The computer is selected via push button.</i>	71.82	79.00

Software - Utility

70406-12	Media Studio Pro 6.0 VE <i>Our FireWire card, Cat No 2621, is bundled with Media Studio V4.0 SE, this may be upgraded at time of purchase to Media Studio Pro 6.0 VE (DV + MPEG2). Please check the data sheet for a comparison of the features between the full version and the VE version.</i>	80.91	89.00
70485-12	VET Net Surfer Anti Virus - OEM <i>Vet automatically detects and cleans conventional file and bot sector viruses as well as macro viruses which infect Word Documents, Excel spreadsheets and Access databases. It provides excellent protection against Internet and email-borne viruses, protecting your PC from infected files against Internet and email-borne viruses, protecting your PC from infected files downloaded from web sites around the world and from infected attachments sent to your via email.</i>	44.55	49.00

Telephone - Telephone - Remote

19003-12	Remote Device Activator 240V Power Rela <i>This 240V Power Relay provides for safe connection or disconnection of your 240VAC electrical supply to your equipment, when used in conjunction with a Remote Device Activator.</i>	47.27	52.00
19006-12	Remote Device Activator PC Reset Unit <i>This PC Reset Unit allows for a remote reset of your PC by telephone, when used in conjunction with a Remote Device Activator. The PC Reset Unit, which connects to an expansion slot at the rear of your PC, provides for a convenient interface from a Remote Device Activator and the reset connection of your motherboard.</i>	53.64	59.00
19004-12	Remote Device Activator Power Control U <i>This 240V Power Control Unit provides for safe connection or disconnection of your 240VAC electrical supply to your equipment, It must be used in conjunction with a Remote Device Activator, either Cat No 19002 or Cat No 19005.</i>	99.09	109.00
19002-12	Remote Device Activator Via Telephone-1 <i>The Remote Device Activator allows one electrical appliance to be switched on or off by using your normal telephone line.</i>	174.55	192.00
19005-12	Remote Device Activator Via Telephone-2 <i>The Remote Device Activator allows two electrical appliances to be switched on or off by using your normal telephone line.</i>	208.18	229.00
19007-12	Remote Telephone Activator RTA-2 PRO <i>Provides TWO independent outputs, which can be used to independently control TWO separate devices. Connect either 19004 or 19006 to each of the outputs.</i>	299.09	329.00

Test Equipment - Diagnostics

3128-12	Diagnostic Card - ISA <i>Just plug into a vacant ISA slot and turn on the computer. A LED display shows a numeric error code indicating the area of the fault. By checking the error code against the appropriate BIOS listing, the type of fault can be identified. The error code messages for AMI BIOS, PHOENIX BIOS and AWARD BIOS are listed in the manual.</i>	70.91	78.00
3422-12	Diagnostic Card - PCI <i>Just plug into a vacant PCI slot and turn on the computer. A LED display shows a numeric error code indicating the area of the fault. By checking the error code against the appropriate BIOS listing, the type of fault can be identified. The error code messages for AMI BIOS, PHOENIX BIOS and AWARD BIOS are listed in the manual.</i>	89.09	98.00

Test Equipment - Miscellaneous

3053-12	BUS Expansion ISA/Interface Protector <i>Provides six slots external to the computer. Interface cards may be inserted and removed without switching off the computer. This makes it ideal for quality control testing, teaching labs, prototype development etc. Mounted in a small metal case.</i>	318.18	350.00
---------	---	--------	--------

Test Equipment - Network

11520-12	Cable Tracer - Tone Generator and Probe <i>Features a single or multi-tone signal, two test leads and a 4-conductor modular cable.</i>	117.27	129.00
11515-12	Network Multi Modular Cable Tester Pro <i>Tests a range of Modular cables including 10Base-T (Category 3-5), as well as 10Base-2(coax)thin ethernet.</i>	170.00	187.00
11519-12	Network Tester w LCD Display <i>Tests a range of Modular cables including 10Base-T (Category 3-5). The LCD display shows the pin connections as well as the wiring scheme detected eg 100Base / Hub.</i>	135.45	149.00

Universal Serial Bus - Accessories

2895-12	Bay 5.25in USB 2.0 Hub 3 Port <i>A USB 2.0 hub that has one up-stream port and three down-stream ports. Fits into a 5.25in bay to provide front access.</i>	62.73	69.00
2896-12	Bay 5.25in USB 2.0 Hub 3 Port + 6 in 1 <i>A USB 2.0 hub with three down-stream ports and a six in one memory card reader. Fits into a 5.25in bay to provide front access.</i>	95.45	105.00
2853-12	Converter USB to 1 RS-422/485 with Opto <i>Provides a native windows RS-422/485 COM port which is compatible with Windows serial communication applications. Includes 2000V optical isolation and 25kV ESD protection.</i>	226.36	249.00
