XtSetMultiClickTime, XtGetMultiClickTime – set and get multi-click times

```c
void XtSetMultiClickTime(Display* display, int time);
int XtGetMultiClickTime(Display* display);
```

display Specify the display connection.
time Specifies the multi-click time in milliseconds.

**XtSetMultiClickTime** sets the time interval used by the translation manager to determine when multiple events are interpreted as a repeated event.

**XtGetMultiClickTime** returns the time in milliseconds that the translation manager uses to determine if multiple events are to be interpreted as a repeated event for purposes of matching a translation entry containing a repeat count.
