

AIX 5L Essentials on CD-ROM

Training without travel

Can't take time away from work? Limited or no training budget? We have the answer! AIX 5L Essentials: computer-based training courses that offer the latest in AIX technology. With maximum flexibility, you set your own pace and don't need to be web-connected.

AIX 5L Essentials provides leading edge content in an enjoyable, multimedia, cost-effective option. Receive the same content as our highly-rated classroom training, except you pick and choose the topics you need. Experience simulations within each course with no risk to your production system! And, you can prepare for AIX technical certifications. You can also go back to review a topic since you'll have these courses for reference. Order them individually, or for substantial savings of \$430, purchase the CD containing all four courses.
