Superior power and availability in a versatile, enterprise-class server

IBM Netfinity 5500 M20

Highlights

Powerful performance
Speed, power and agility—hour after hour, day after day

Easy, flexible growth
Enterprise-class features offer superior capacity and flexibility to grow

Control grants confidence
Systems management hardware and top-rated software deliver convenience and peace of mind

New
Netfinity 99.9% Availability Guarantee Program²
A robust suite of required services from IBM Global Services wrapped around specific bounded clusters help you better avoid unplanned downtime

Powerful, reliable performance
The IBM Netfinity® 5500 M20 answers the call for optimal performance with the latest Intel® processors balanced with the right amount of memory. And, the Netfinity 5500 M20 delivers confidence with the reliability features inherited from its award-winning¹ predecessors—hot-plug components, Predictive Failure Analysis³ and Light-Path Diagnostics.

Built to grow as you grow
What some of our competitors call “options,” we consider standard for enterprise-class performance and value. Active PCI slots, four-way SMP capability and support for up to 4GB of memory make for easy system expansion and minimal downtime. You also get integrated Ethernet, internal RAID and Lotus® Domino® Application Server⁴ to help you unleash the power of the Internet.

Superior system control
Integrated Advanced System Management processor and Netfinity Manager™ deliver proactive remote control of your system. With ECC memory and integrated RAID, the Netfinity 5500 M20 is designed to protect business-critical data and peace of mind.

IBM service and support—one of the best values around
With the three-year, limited onsite IBM warranty¹, 90-day IBM StartUp Support, technology-enabled services like Remote Connect, an extensive list of compatibility-tested ServerProven™ solutions, Options by IBM and flexible financing, you get excellent server performance backed by outstanding service.

IBM service and support—one of the best values around

Netfinity

e-business tools
With 3 Netfinity 5500s and 3 Netfinity EXP15s with ten 7 MHz only measures internal clock speed, not application performance. Many factors affect application performance.

With 3 Netfinity 5500s and 3 Netfinity EXP15s with ten 35.4GB hard disk drives installed in each. When referring to hard disk drive capacity, GB equals one billion bytes. Total user-accessible capacity may vary depending on operating environments.

Variable read rate. Actual playback speed will vary and is often less than the maximum possible.

Netfinity Manager had the top satisfaction marks according to the 1998 User Ratings Survey of PC Servers, performed by Datapro as part of the GartnerGroup. IBM makes no representations or warranties, express or implied, regarding non-IBM ServerProven products and services, and disclaims all such warranties in connection with hard disk drives, CPU, VRMs, cooling fans, power supplies and memory.

Notes:
1. Netfinity Manager had the top satisfaction marks according to the 1998 User Ratings Survey of PC Servers, performed by Datapro as part of the GartnerGroup. Available only on selected Netfinity servers that have completed Microsoft Cluster Server Certification as listed on the ServerProven Web site, program includes mandatory services from IBM Global Services. IBM reserves the right to change terms and conditions at any time, without notice. For more details, refer to www.ibm.com/us/solutions/netfinity/99guaranteed.html
2. The Netfinity 5500 was chosen “Best of the Best” at PC Expo 1998; the Netfinity 5500 M10 was selected “Best New Product” at FOSE in 1999.
3. Domino Solution often valid until December 31, 1999 and may vary by model. Refer to Netfinity Web site for more details.
4. For terms and conditions or copies of IBM’s Statement of Limited Warranty, call 1-800-772-2227 in the U.S. and in Canada call 1-800-462-8555. Limited warranty includes International Warranty Service in those countries where this product is offered. Telephone support may be subject to additional charges.
5. IBM makes no representations or warranties, express or implied, regarding non-IBM ServerProven products and services, and disclaims all such warranties including but not limited to Year 2000 readiness and the implied warranties of merchantability and fitness for a particular purpose. Those products are offered and may vary by model. Refer to Netfinity Web site for more details.
6. Mbr only measures internal clock speed, not application performance. Many factors affect application performance.
