

**Boca's Turbo 650™ gives you the flexibility to add on exciting peripherals at an unbelievable low cost!**

### Maximum Speed

The Turbo 650 blazes at 460.8 Kbps, four times faster than regular I/O cards. It is the perfect match for the latest high-speed modems, especially 56K and ISDN.

### Multiple Connectivity

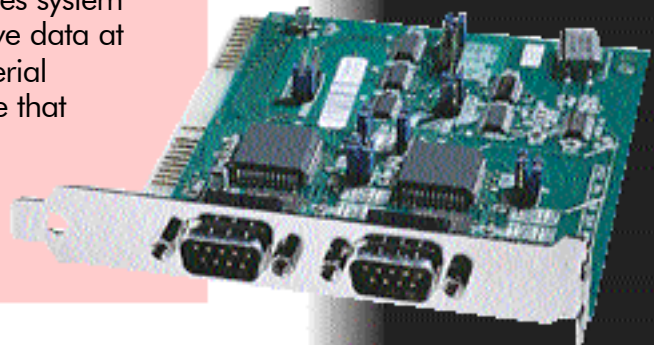

Connect multiple peripheral products such as modems, serial printers, mice and most other serial devices. Compatible with ISA systems, the Turbo 650 features a convenient design that allows it to be installed in either an 8- or 16-bit slot.

### Newest Technology

The Turbo 650 features technology using the I6C650 chip. It increases performance and significantly reduces system overhead. 32-byte FIFO buffers send and receive data at maximum speed between the host PC and its serial devices. Also full modem controls signals ensure that external modems will recognize the serial port.

**Maximize Your PC's Performance with High-Speed Connections**

- Includes two serial ports
- Four times the speed of a regular I/O card
- Perfect for the latest high-speed modems and ISDN terminal adapters
- Easy to install and set up

**ULTRA-HIGH-SPEED I/O INTERFACE**

## ULTRA-HIGH-SPEED I/O INTERFACE

### EASY INSTALLATION

The Turbo 650 is designed to install in any IBM-compatible PC. Just follow the easy-to-read, step-by-step instructions and you will have your connections up and running in minutes.

### CONTENTS

- Ultra-high-speed serial adapter
- Driver diskette
- Documentation

### OTHER BOCA PRODUCTS

From cruising the Internet at breakthrough speeds to linking computer peripherals, Boca helps you make the high-speed connections you need to compete in a high-tech world. Boca's products combine excellence in design and engineering, ISO-certified manufacturing, full features and attractive prices to give you an outstanding value. Boca's current product categories include

- Modems
- I/O (input/output) cards

### SPECIFICATIONS

- Designed for use in a 16- or 8-bit slot
- Serial port speeds up to 460.8 Kbps
- Includes two DB-9 connectors
- Jumper-selectable I/O addresses and interrupts:
  - Serial A: COM1, 2, 3, 4 or disabled; IRQ 3, 4, 5 or 9
  - Serial B: COM1, 2, 3, 4 or disabled; IRQ 3, 4, 5 or 9
  - Clock set: selectable addresses for baud rates exceeding 115 Kbps

### ENVIRONMENTAL

- Relative humidity: 70% (non-condensing)
- Operating temperature: 20 to 50° C.

### PKG. DIMENSIONS

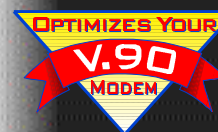

- L 8 1/4" x W 1 5/8" x H 6 1/8"
