

Product Specifications

Product Codes: BENAUI, BENBNC, BENFBR
Product Name: 24-port Ethernet Concentrator Optional Expansion Modules

BOCAHUB-24 PLUS (BEN240)

Description:

- ◆ BEN240 expansion modules for Fiber Optic, AUI, or BNC cabling.

Features:

- ◆ Provides direct connection for fiber optic cable (10BaseFL), or any segment that uses "Thin" Ethernet or "Thick" Ethernet.
- ◆ Simple to install.

Benefits:

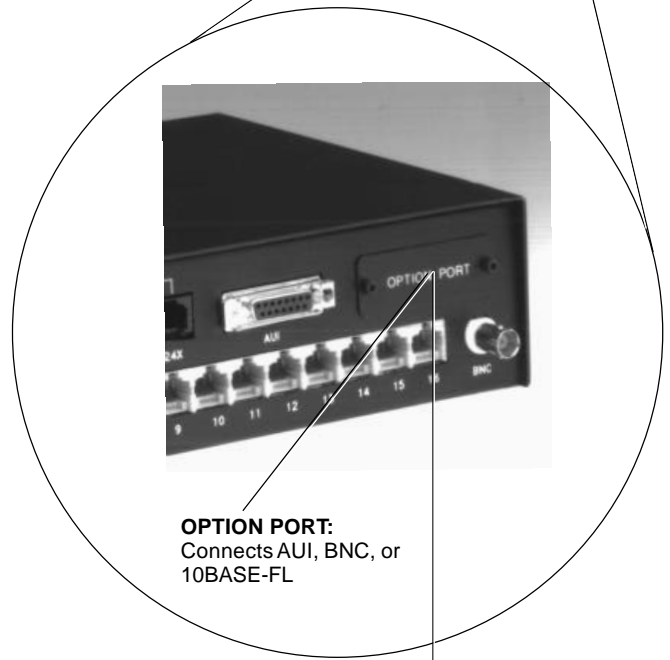

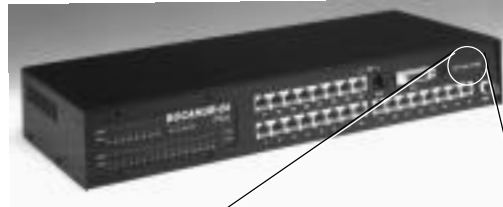

- ◆ Fiber Optic link allows long runs between buildings and does not require lightning protection.
- ◆ AUI and BNC modules allow extended length segments to be split, enabling the unit to function as a repeater.

Technical Specifications:

- ◆ Fiber optic maximum cable run: 6,560' (2000 meters).
- ◆ 10Base-2 port with BNC connector ("thin" coax) maximum cable run: 607' (185 meters).
- ◆ AUI port with DB-15 connector maximum cable run: 164' (50 meters) between concentrator and adapter or transceiver.

Package Includes:

- 1 BENAUI, BENBNC, or BENFBR module
- Installation instructions
- 16-pin ribbon cable

OPTION PORT:
Connects AUI, BNC, or 10BASE-FL
