The weed species listed in this publication have been identified as invasive by the National Resources Conservation Service (NRCS), which has imposed specific restrictions for these species to fields enrolled in the Conservation Reserve Program (CRP). While the goal of this publication is to provide information that is useful in managing invasive plants across many habitats, the herbicides listed were specifically registered for use in CRP fields or grasslands and may not be registered in other habitats. Please refer to the label for specific restrictions before using any of these products.

For more information on the restrictions for each invasive plants, see NRCS job sheet 397: *Maintenance on Established CRP* (<ftp://ftp-fc.sc.egov.usda.gov/WI/jobsheets/js-397.pdf>).
