**Setup Instructions**

1. **Unpack:**
   - ThinkPad® computer
   - Battery pack
   - Power cord
   - AC adapter
   - Modem cord
   - TrackPoint® caps
   - Books

   * See reverse for notes about unlisted, missing, or damaged items and recovery CD.

   Note: Please read the safety notices in the Service and Troubleshooting Guide before you use the computer.

2. **Install battery pack:**

   Your battery is ready to use.

   Note: Some models have a battery that is shaped differently.

3. **Connect to power:**

4. **Turn on the power:**

5. **Point and click with IBM TrackPoint® Navigation System:**

   - Press the IBM TrackPoint cap in the direction you want to move the pointer. The left and right buttons below the space bar function like mouse buttons.

6. **Configure the Operating System following on-screen instructions:**

   This process takes several minutes, and your computer may restart multiple times.

   Configure the Operating System following on-screen instructions:
   - Setup Instructions (this sheet)
   - Service and Troubleshooting Guide
   - Other supplements or flyers

7. **Press the Access IBM Button to learn more:**

---

**Additional Notes:**

- Some models have a battery that is shaped differently.
- Not all models may include all the items listed.
- Please read the Service and Troubleshooting Guide before using the computer.

---

**Note:**

- This process takes several minutes, and your computer may restart multiple times.
- Configure the Operating System following on-screen instructions.
- Some models may have a battery that is shaped differently.
- Please read the Service and Troubleshooting Guide before using the computer.

Turn on computer.
Press the Access IBM button when prompted during startup.
If a SO-DIMM is already installed, remove it as
Turn off the computer.
Open the IBM BIOS Setup Utility by clicking "Access BIOS" under the "Configure" category or by
1. Touch a grounded metal object to reduce any static electricity in your body that could damage the SD-DIMM. Avoid touching the contact edge of the SD-DIMM.
2. Turn off the computer.
3. Disconnect the AC adapter and all cables from the computer.
4. Close the computer display and turn the computer over.
5. Remove the battery.
6. Loosen the screws next to DIMM slots on the expansion slot cover, and then remove the cover.
7. If a SO-DIMM is already installed, remove it as shown. Save the SO-DIMM for future use.
8. Align the notch in the contact edge of the SO-DIMM with the divider in the socket. Firmly insert the SO-DIMM into the socket at an angle of 30 degrees and then pivot it downward until it snaps into place.
9. Replace the expansion slot cover. Attention: Never use the computer with the expansion slot cover open.
10. Replace the battery and re-connect the AC adapter and cables.

Optional ThinkPad X4 UltraBase Dock
This option is available to expand the functionality of your ThinkPad X40. To learn more,
install the optional SD-DIMM:

1. Touch a grounded metal object to reduce any static electricity in your body that could damage the SD-DIMM. Avoid touching the contact edge of the SD-DIMM.
2. Turn off the computer.
3. Disconnect the AC adapter and all cables from the computer.
4. Close the computer display and turn the computer over.
5. Remove the battery.
6. Loosen the screws next to DIMM slots on the expansion slot cover, and then remove the cover.

ThinkVantage® Technologies
You can get information about ThinkVantage Technologies at any time by pressing the blue Access IBM button on your keyboard.

Security
Some ThinkPad computers have an embedded security chip. To learn about downloading the software and enabling the chip, enter "security chip" in the Access IBM keyword search field.

Access Connections
Some ThinkPad computers are equipped with a wireless LAN adapter. To learn more about configuring wireless LAN and other communication adapters including your wired connections, enter "Access Connections" in the Access IBM keyword search field.

Migration
You can move data from your old computer to this ThinkPad. Enter "migration" in the Access IBM keyword search field to learn about downloading data migration software.

IBM Help and Support
To learn about IBM Help and Support, choose the Get Help & Support category in Access IBM.

Additional unpacking notes:
1) Some models may contain items that are not listed.
2) If any item is missing or damaged, please contact your place of purchase.
3) Your computer features IBM Disk-to-Disk Recovery. Everything for recovering factory-installed files and applications is on your hard disk, eliminating the need for a recovery CD. For more information, see "Recovering Pre-Installed Software" in the Service and Troubleshooting Guide.
