Additional Help

The iLM300 User Guide includes comprehensive instructions on setting up and operating your projector. Here are some common setup issues and how to solve them.

1. Nothing appears on the screen.

Make sure you have attached the power cable, removed the lens cap, and pressed the power button on the top of the projector.

2. All I see is the start up screen.

Make sure the computer cable is connected between the computer and the projector. Try pressing the mobile computer activation keys more than once. Some machines require pressing the keys twice to activate the image.

Be certain you are using the right combination of activation keys for your computer. Appendix C in the online User Guide contains a list of key combinations for many mobile computers.

3. There is no computer image on the screen.

The projector might not synchronize with the computer signal. Press the Menu button on the projector keypad or remote control to open the menus. From the Basic menu, select Reset to synchronize the projector settings with the computer. See Chapter 2 in the online User Guide for more

information about adjusting the image settings with on-screen menus.

4. The image fills the screen, but the text is fuzzy and hard to read.

Set the mobile computer display resolution to the projector resolution of 1024x768. If your mobile computer resolution is only 800x600 or 640x480, the projector automatically converts the resolution to 1024x768.

Adjust the focus ring and the zoom ring to obtain a sharper image.

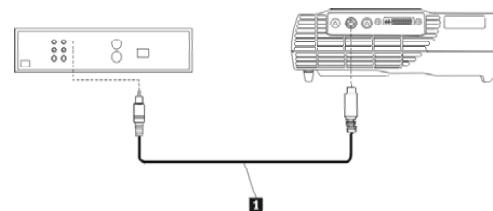

5. I can only see part of the computer image on the screen.

As in item 4. above, set the computer resolution to match the projector resolution. Use the activation keys to display the projected image.

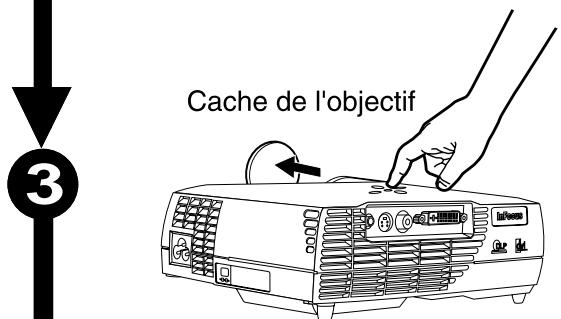

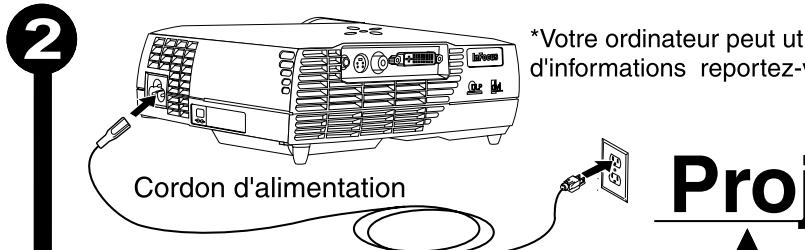

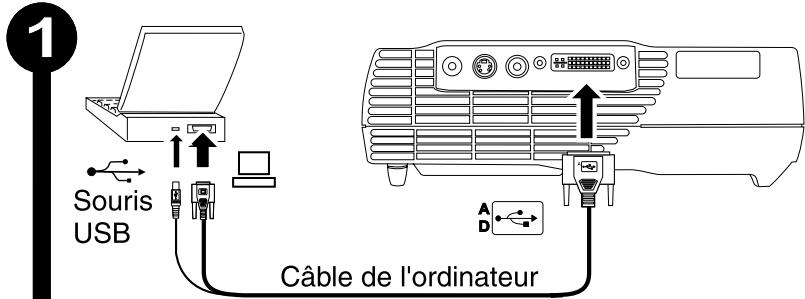

Use the Keystone key on top of the projector to square the image.

6. How do I attach digital video equipment to the projector?

Insert the video cable into the video connector in the player. Connect the opposite end to the projector S-Video connector.

Pour visualiser le guide d'utilisation multilingue en ligne du Projecteur iLM300 MicroPortable sur le CD, procédez comme suit :

1. Insérez le CD contenant le guide d'utilisation dans l'unité de CD-ROM.
2. Le CD est lancé. Passez à l'étape 5. Si le CD n'est pas lancé, cliquez sur Démarrer, puis sur Exécuter.
3. Tapez `e:\launch.bat`, où e: est l'unité de CD-ROM.
4. Cliquez sur OK. La page du navigateur de CD s'affiche.
5. Suivez les instructions affichées à l'écran.

Aide supplémentaire

Le guide d'utilisation iLM300 contient des instructions détaillées pour installer et utiliser le projecteur. Quelques unes des problématiques les plus courantes liées à la configuration, ainsi que leur mode de résolution, sont présentées ci-après.

1. Rien ne s'affiche à l'écran.

Assurez-vous d'avoir correctement branché le cordon d'alimentation, retiré le cache de l'objectif, et appuyé sur l'interrupteur d'alimentation situé en haut du projecteur.

2. Seul l'écran de démarrage est affiché.

Assurez-vous que le cordon reliant l'ordinateur au projecteur est bien branché. Essayez d'appuyer plusieurs fois sur les touches de déclenchement de votre ordinateur portable. Sur certaines machines, il est nécessaire d'appuyer deux fois sur ces touches pour activer l'image.

Assurez-vous que vous utilisez la bonne combinaison de touches de déclenchement pour votre ordinateur. L'Annexe C du guide d'utilisation en ligne contient une liste de combinaisons de touches pour de nombreux ordinateurs portables.

3. Aucune image en provenance de l'ordinateur ne s'affiche à l'écran.

Il se peut que le projecteur ne soit pas synchronisé avec le signal de l'ordinateur. Appuyez sur le bouton Menu du clavier ou de la télécommande pour ouvrir les menus. Depuis le menu Basic, sélectionnez

Reset pour synchroniser les paramètres du projecteur avec l'ordinateur. Pour plus d'informations sur l'ajustement des paramètres relatifs à l'image avec les menus à l'écran, reportez-vous au chapitre 2 du guide d'utilisation en ligne.

4. L'image remplit l'écran, mais le texte est flou et difficile à lire.

Définissez la résolution de l'écran du PC portable comme celle du projecteur (1024 x 768). Si la résolution de votre PC portable est seulement 800 x 600 ou 640 x 480, le projecteur la convertit automatiquement à 1024 x 768.

Réglez la bague de la variation de la focale et le zoom pour obtenir une image plus nette.

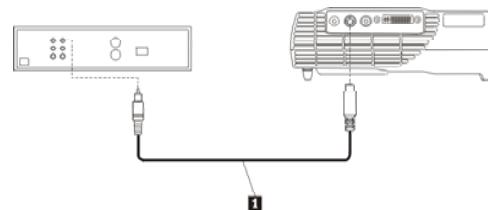

5. Une partie seulement de l'image de l'ordinateur est affichée à l'écran.

Comme au point 4. ci-dessus, définissez la résolution de l'ordinateur comme celle du projecteur. Utilisez les touches de déclenchement pour afficher l'image projetée.

Utilisez la touche Keystone en haut du projecteur pour que l'image soit carrée.

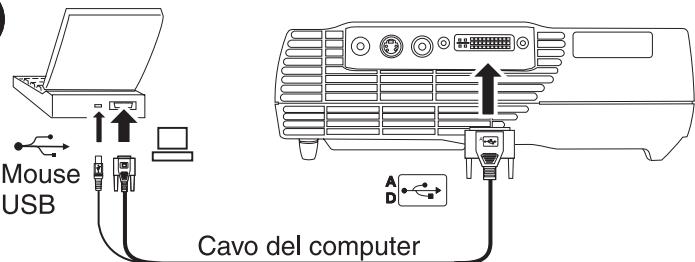

6. Comment connecter un équipement vidéo numérique au projecteur ?

Insérez le câble vidéo dans le connecteur vidéo du lecteur. Connectez l'autre extrémité au connecteur S-Video du projecteur.

IBM Statement of Limited Warranty Z125-4753-06 8/2000

Part 1 - General Terms

This Statement of Limited Warranty includes Part 1 - General Terms and Part 2 - Country-unique Terms. The terms of Part 2 replace or modify those of Part 1. The warranties provided by IBM in this Statement of Limited Warranty apply only to Machines you purchase for your use, and not for resale, from IBM or your reseller. The term "Machine" means an IBM machine, its features, conversions, upgrades, elements, or accessories, or any combination of them. The term "Machine" does not include any software programs, whether pre-loaded with the Machine, installed subsequently or otherwise. Unless IBM specifies otherwise, the following warranties apply only in the country where you acquire the Machine. Nothing in this Statement of Limited Warranty affects any statutory rights of consumers that cannot be waived or limited by contract. If you have any questions, contact IBM or your reseller.

The IBM Warranty for Machines: IBM warrants that each Machine 1) is free from defects in materials and workmanship and 2) conforms to IBM's Official Published Specifications ("Specifications"). The warranty period for a Machine is a specified, fixed period commencing on its Date of Installation. The date on your sales receipt is the Date of Installation unless IBM or your reseller informs you otherwise.

If a Machine does not function as warranted during the warranty period, and IBM or your reseller are unable to either 1) make it do so or 2) replace it with one that is at least functionally equivalent, you may return it to your place of purchase and your money will be refunded.

Extent of Warranty: The warranty does not cover the repair or exchange of a Machine resulting from misuse, accident, modification, unsuitable physical or operating environment, improper maintenance by you, or failure caused by a product for which IBM is not responsible. The warranty is voided by removal or alteration of Machine or parts identification labels.

THESE WARRANTIES ARE YOUR EXCLUSIVE WARRANTIES AND REPLACE ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THESE WARRANTIES GIVE YOU SPECIFIC LEGAL RIGHTS AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM JURISDICTION TO JURISDICTION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF EXPRESS OR IMPLIED WARRANTIES, SO THE ABOVE EXCLUSION OR LIMITATION MAY NOT APPLY TO YOU. IN THAT EVENT, SUCH WARRANTIES ARE LIMITED IN DURATION TO THE WARRANTY PERIOD. NO WARRANTIES APPLY AFTER THAT PERIOD.

Items Not Covered by Warranty: IBM does not warrant uninterrupted or error-free operation of a Machine.

Any technical or other support provided for a Machine under warranty, such as assistance via telephone with "how-to" questions and those regarding Machine set-up and installation, will be provided **WITHOUT WARRANTIES OF ANY KIND**.

Warranty Service: To obtain warranty service for a Machine, contact IBM or your reseller. If you do not register your Machine with IBM, you may be required to present proof of purchase.

During the warranty period, IBM or your reseller, if approved by IBM to provide warranty service, provides without charge certain types of repair and exchange service to keep Machines in, or restore them to, conformance with their Specifications. IBM or your reseller will inform you of the available types of service for a Machine based on its country of installation. At its discretion, IBM or your reseller will 1) either repair or exchange the failing Machine and 2) provide the service either at your location or a service center. IBM or your reseller will also manage and install selected engineering changes that apply to the Machine.

Some parts of IBM Machines are designated as Customer Replaceable Units (called "CRUs"), e.g., keyboards, memory, or hard disk drives. IBM ships CRUs to you for replacement by you. You must return all defective CRUs to IBM within 30 days of your receipt of the replacement CRU. You are responsible for downloading designated Machine Code and Licensed Internal Code updates from an IBM Internet Web site or from other electronic media, and following the instructions that IBM provides.

When warranty service involves the exchange of a Machine or part, the item IBM or your reseller replaces becomes its property and the replacement becomes yours. You represent that all removed items are genuine and unaltered. The replacement may not be new, but will be in good working order and at least functionally equivalent to the item replaced. The replacement assumes the warranty service status of the replaced item. Many features, conversions, or upgrades involve the removal of parts and their return to IBM. A part that replaces a removed part will assume the warranty service status of the removed part.

Before IBM or your reseller exchanges a Machine or part, you agree to remove all features, parts, options, alterations, and attachments not under warranty service.

You also agree to

ensure that the Machine is free of any legal obligations or restrictions that prevent its exchange;

obtain authorization from the owner to have IBM or your reseller service a Machine that you do not own; and

where applicable, before service is provided:

follow the problem determination, problem analysis, and service request procedures that IBM or your reseller provides; secure all programs, data, and funds contained in a Machine;

provide IBM or your reseller with sufficient, free, and safe access to your facilities to permit them to fulfill their obligations; and

inform IBM or your reseller of changes in a Machine's location.

IBM is responsible for loss of, or damage to, your Machine while it is 1) in IBM's possession or 2) in transit in those cases where IBM is responsible for the transportation charges.

Neither IBM nor your reseller is responsible for any of your confidential, proprietary or personal information contained in a Machine which you return to IBM or your reseller for any reason. You should remove all such information from the Machine prior to its return.

Limitation of Liability: Circumstances may arise where, because of a default on IBM's part or other liability, you are entitled to recover damages from IBM. In each such instance, regardless of the basis on which you are entitled to claim damages from IBM (including fundamental breach, negligence, misrepresentation, or other contract or tort claim), except for any liability that cannot be waived or limited by applicable laws, IBM is liable for no more than

damages for bodily injury (including death) and damage to real property and tangible personal property; and

the amount of any other actual direct damages, up to the charges (if recurring, 12 months' charges apply) for the Machine that is subject of the claim. For purposes of this item, the term "Machine" includes Machine Code and Licensed Internal Code.

This limit also applies to IBM's suppliers and your reseller. It is the maximum for which IBM, its suppliers, and your reseller are collectively responsible.

UNDER NO CIRCUMSTANCES IS IBM LIABLE FOR ANY OF THE FOLLOWING: 1) THIRD-PARTY CLAIMS AGAINST YOU FOR DAMAGES (OTHER THAN THOSE UNDER THE FIRST ITEM LISTED ABOVE); 2) LOSS OF, OR DAMAGE TO, YOUR RECORDS OR DATA; OR 3) SPECIAL, INCIDENTAL, OR INDIRECT DAMAGES OR FOR ANY ECONOMIC CONSEQUENTIAL DAMAGES, LOST PROFITS OR LOST SAVINGS, EVEN IF IBM, ITS SUPPLIERS OR YOUR RESELLER IS INFORMED OF THEIR POSSIBILITY. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.

Governing Law: Both you and IBM consent to the application of the laws of the country in which you acquired the Machine to govern, interpret, and enforce all of your and IBM's rights, duties, and obligations arising from, or relating in any manner to, the subject matter of this Agreement, without regard to conflict of law principles.
