XtSetMultiClickTime, XtGetMultiClickTime − set and get multi-click times

void XtSetMultiClickTime(*display***,** *time***)**
    Display* *display***;**
    int *time***;**
int XtGetMultiClickTime(*display*)
    Display* *display*;

display   Specifies the display connection.

time   Specifies the multi-click time in milliseconds.

XtSetMultiClickTime sets the time interval used by the translation manager to determine when multiple events are interpreted as a repeated event.

XtGetMultiClickTime returns the time in milliseconds that the translation manager uses to determine if multiple events are to be interpreted as a repeated event for purposes of matching a translation entry containing a repeat count.
